[57] **CLAIM**

The ornamental design for embossed plastic sheet material, substantially as shown and described.

DESCRIPTION

FIG. 1 is a plan view of embossed plastic sheet material showing my new design. A design unit is contained within the rectangle defined by four corner markings. As shown, the design is repeated in horizontal rows as indicated by extensions outside the defined rectangle, the design units of one horizontal row being in an offset relationship with respect to the design units of adjacent horizontal rows as indicated by the markings intermediate the top and bottom boundaries of the defined rectangle; and

FIG. 2 is an enlarged plan view of a portion of the design unit of FIG. 1 showing the design portion at substantially actual size.

FIG. 1

FIG. 2
