[57] CLAIM

The design of a magnetic water conditioner, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a magnetic water conditioner showing my new design; FIG. 2 is a top plan view thereof; FIG. 3 is a bottom plan view thereof; FIG. 4 is an elevational view of one end thereof; and FIG. 5 is an elevational view taken from the end opposite that shown in FIG. 4. The characteristic feature of my design resides in the large hexagonal end portion slightly spaced from the cylindrical filter body.
