[57] CLAIM

The ornamental design for a citizens band transceiver, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and right side perspective view of a citizens' band transceiver showing our new design;

FIG. 2 is a rear, bottom and left side perspective view thereof;

FIG. 3 is a view similar to FIG. 1 of another embodiment of a citizens' band transceiver showing our new design wherein the two front left-most grooved knobs are vertically adjacent instead of horizontally adjacent and two toggle-switches have been added between said two adjacent grooved knobs and the front center area of the transceiver; and

FIG. 4 is a view thereof similar to FIG. 2.

FIG. 1

FIG. 2

FIG. 3

FIG. 4
