[57] **CLAIM**

The ornamental design for a hard head gear head protector, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective of a hard head gear protector showing my new design as it would appear on a hard head gear, with the broken line indicating the hard head gear top being for illustrative purposes only and wherein the upper interior portion of my new design which is not shown in FIG. 1 is the same as that shown therein;

FIG. 2 is a side elevational view thereof on a reduced scale as it would appear without the head gear and the chin flap open and wherein the opposite side (not shown) is the same but without the strip for attachment purposes.

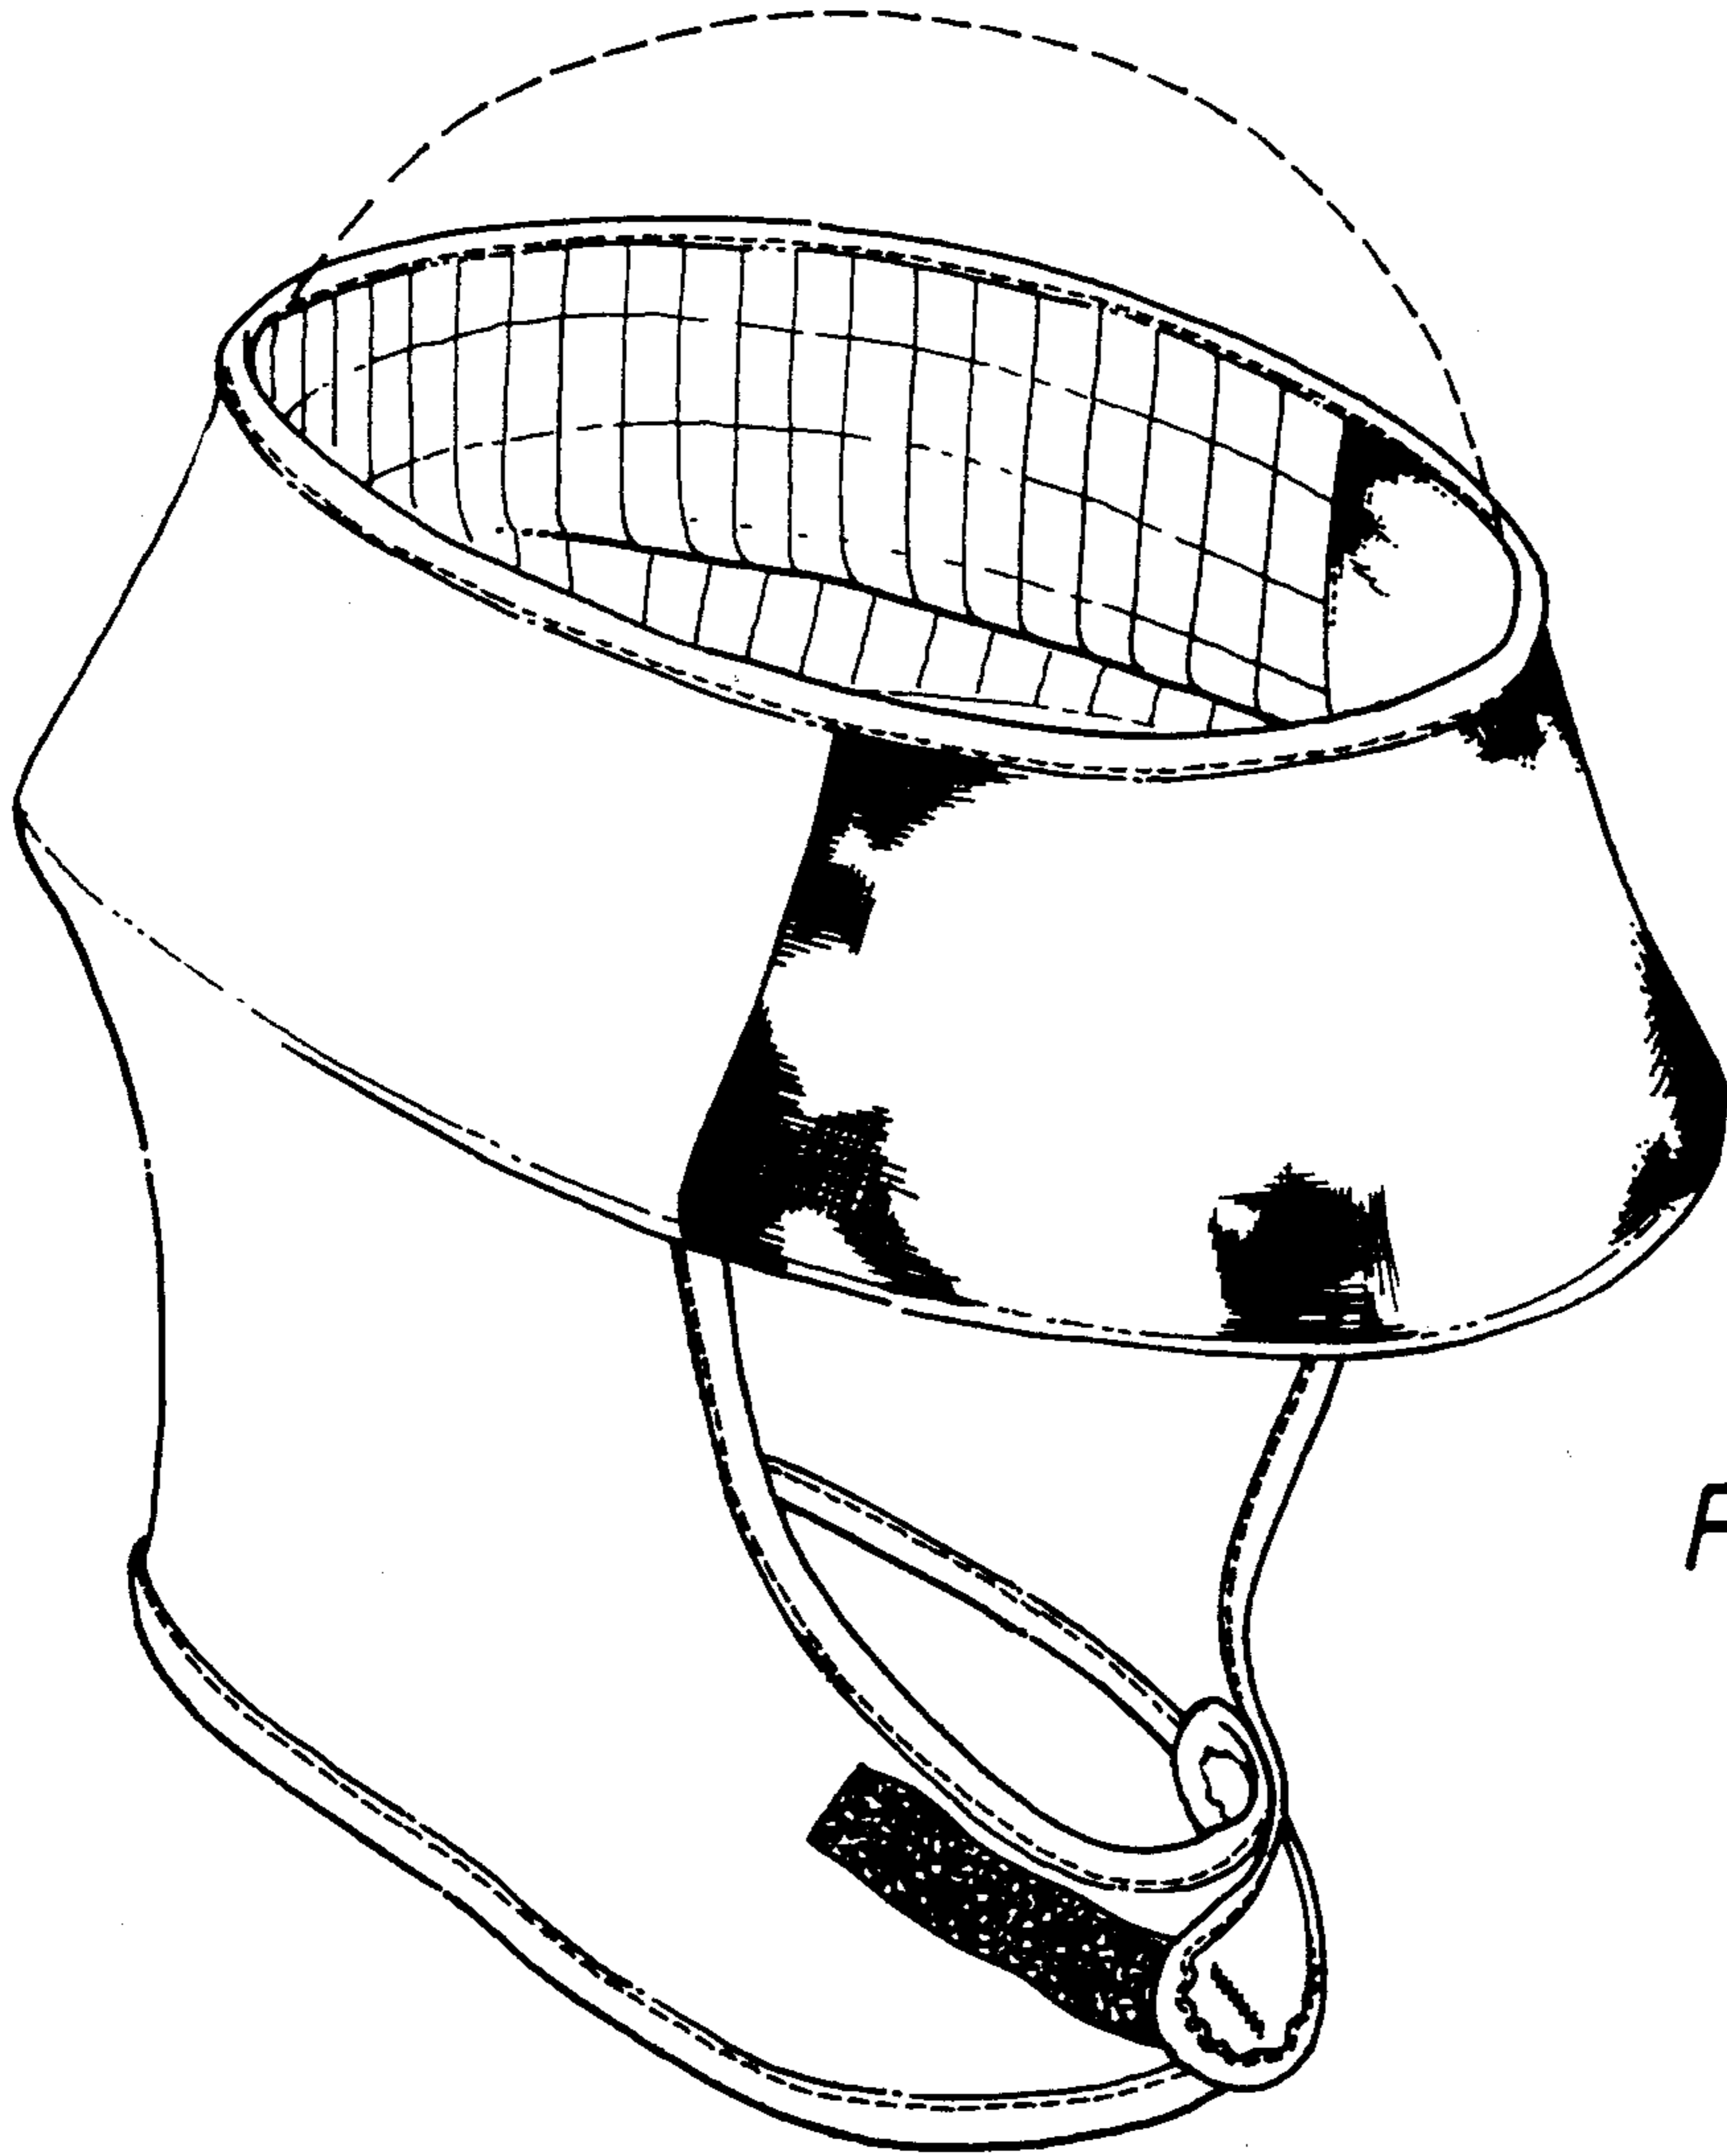

FIG. 1

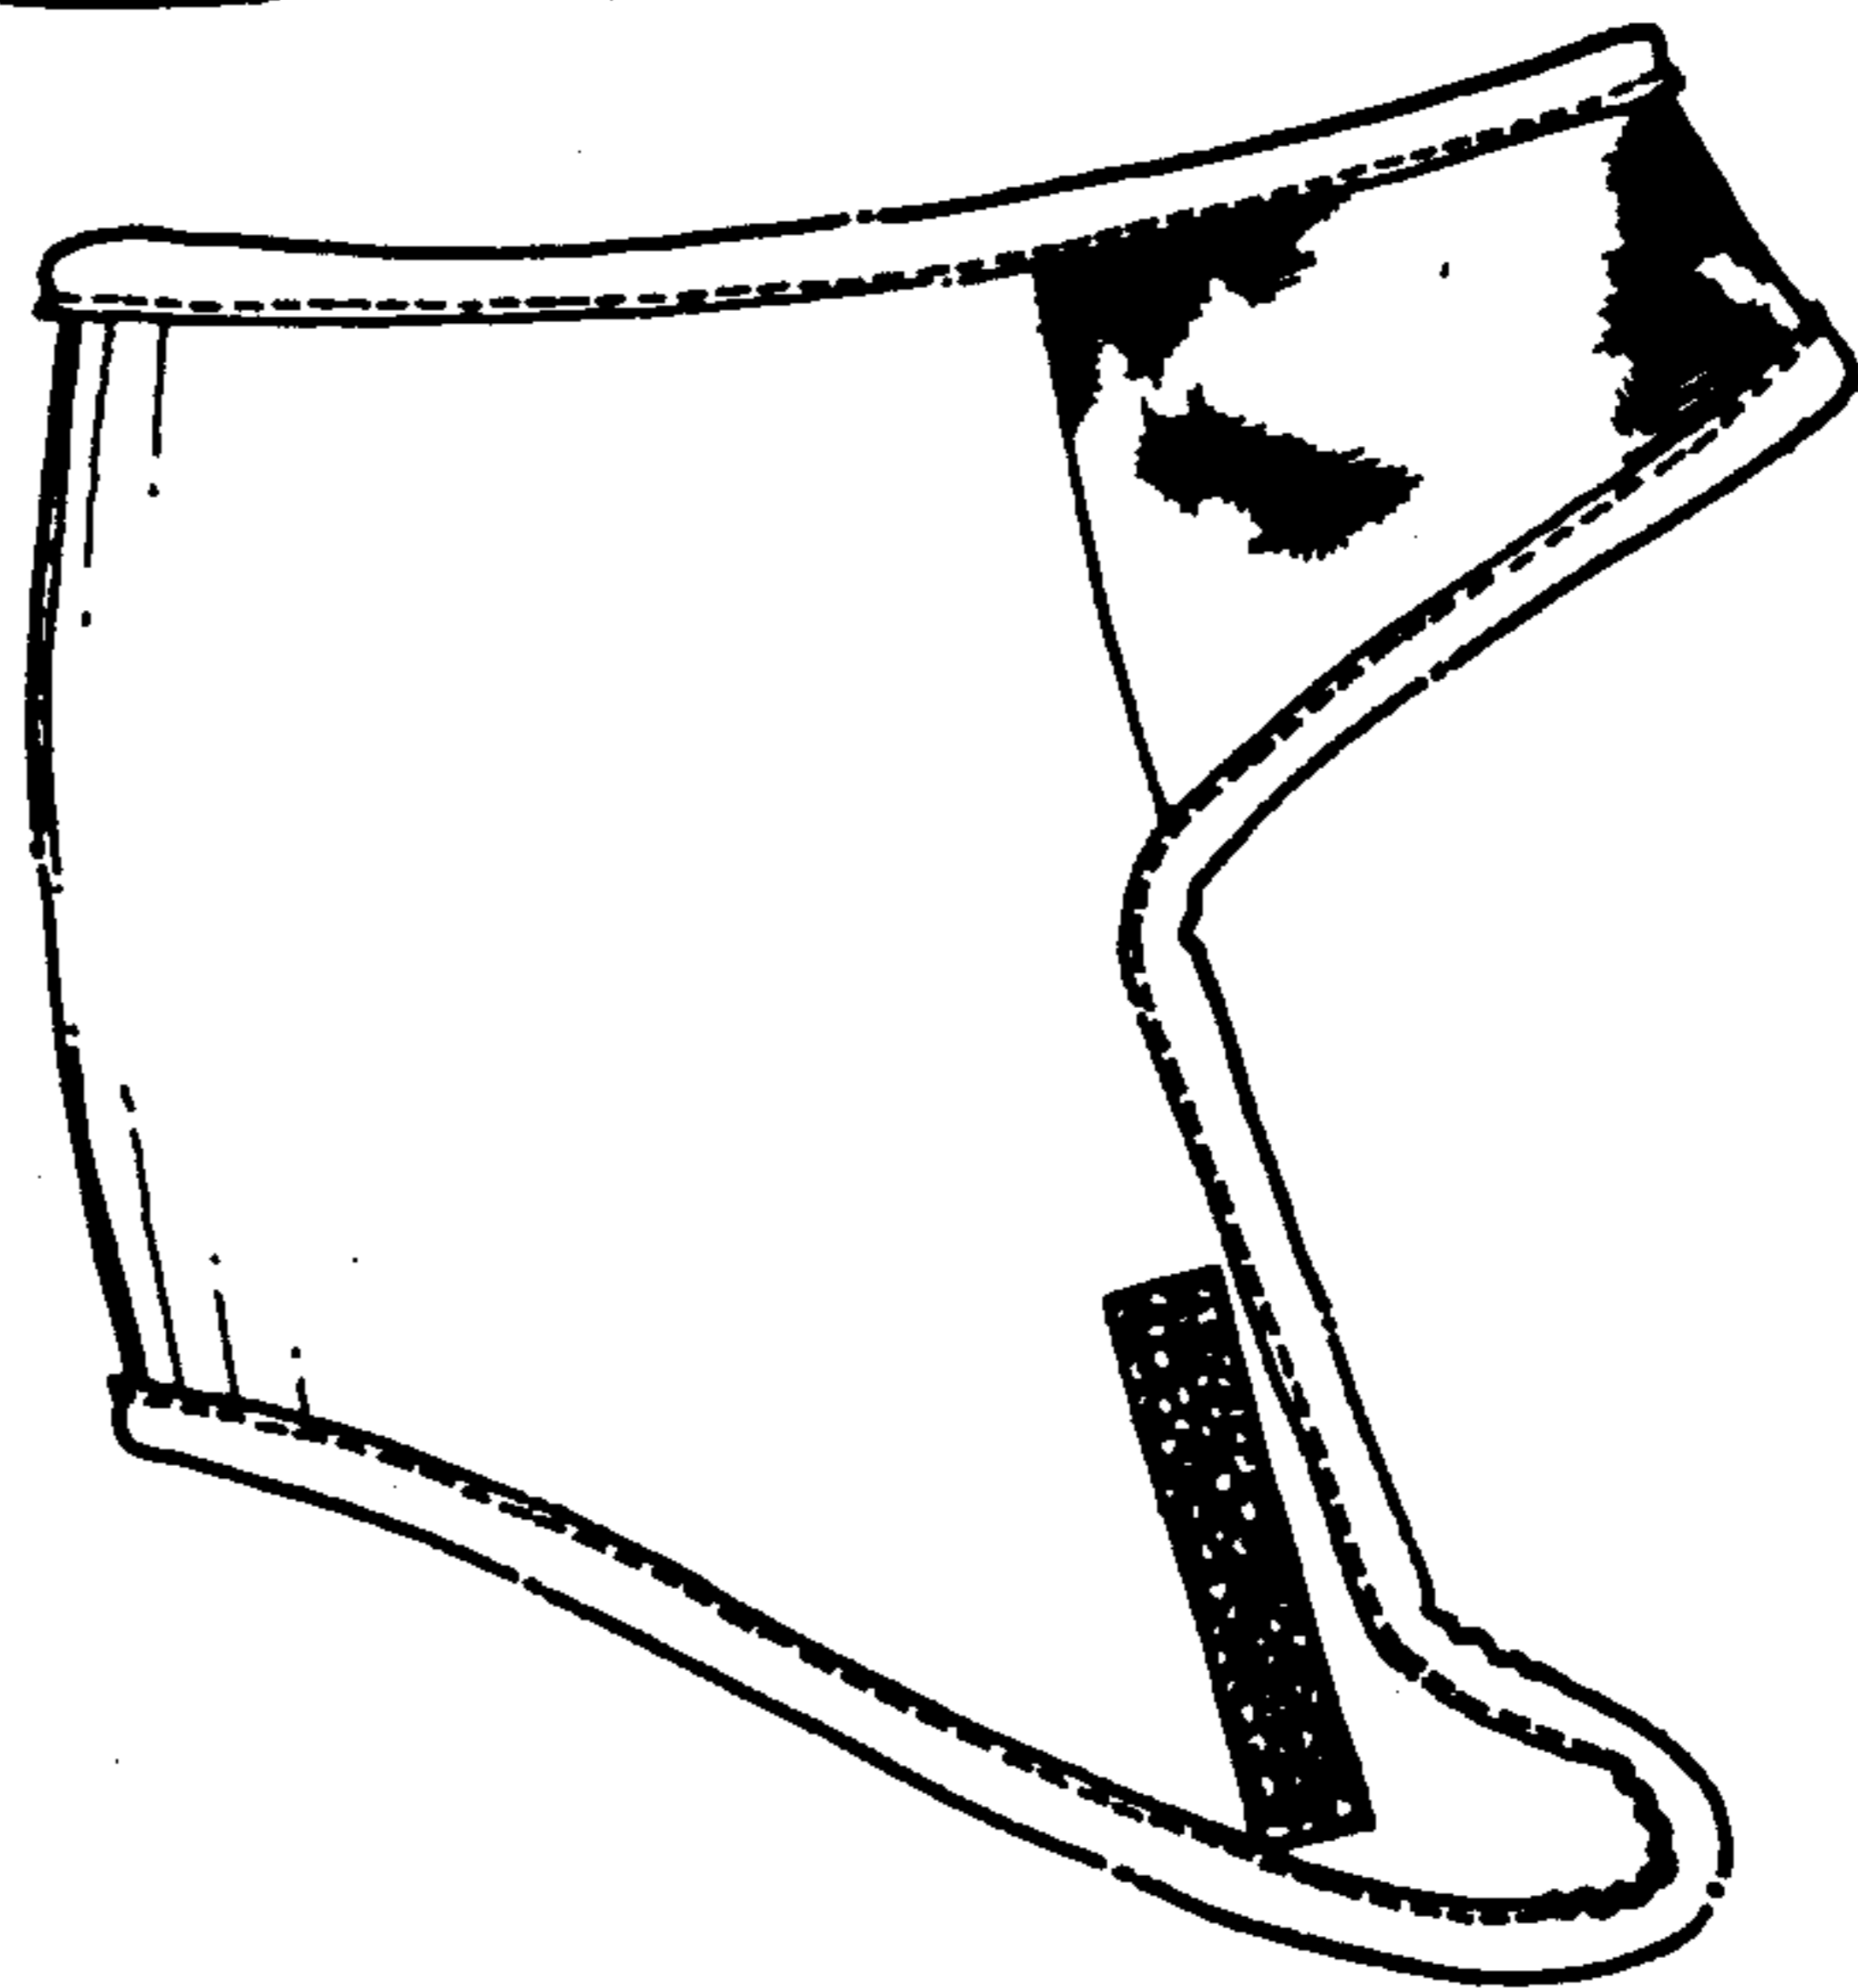

FIG. 2
