[57] CLAIM

The ornamental design for a handle assembly for a luggage case, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a handle assembly for a luggage case, showing my new design;

FIG. 2 is a side elevational view, the opposite side being a mirror image thereof;

FIG. 3 is an end elevational view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a top plan view of the handle assembly for a luggage case in a depressed position;

FIG. 6 is a side elevational view thereof; and

FIG. 7 is an end elevational view thereof.

The characteristic feature of the design resides in the hand-grip portion consisting of a single strand of strap material folded back upon itself to provide slotted loops at opposite ends.
