[57] CLAIM

The ornamental design for hub pulling device, substantially as shown and described.

DESCRIPTION

FIG. 1 is a side elevational view illustrating a hub pulling device incorporating our new design.  
 FIG. 2 is another side elevational view illustrating the hub pulling device after it has been rotated about its axis through 90° from the position shown in FIG. 1.  
 FIG. 3 is a third side elevational view of the hub pulling device as it appears after rotation through 180° from the position shown in FIG. 1.  
 FIG. 4 is a top plan view of the hub pulling device.  
 FIG. 5 is a bottom plan view of the hub pulling device.
