[57] CLAIM

The ornamental design for a plastic storm door, substantially as shown and described.

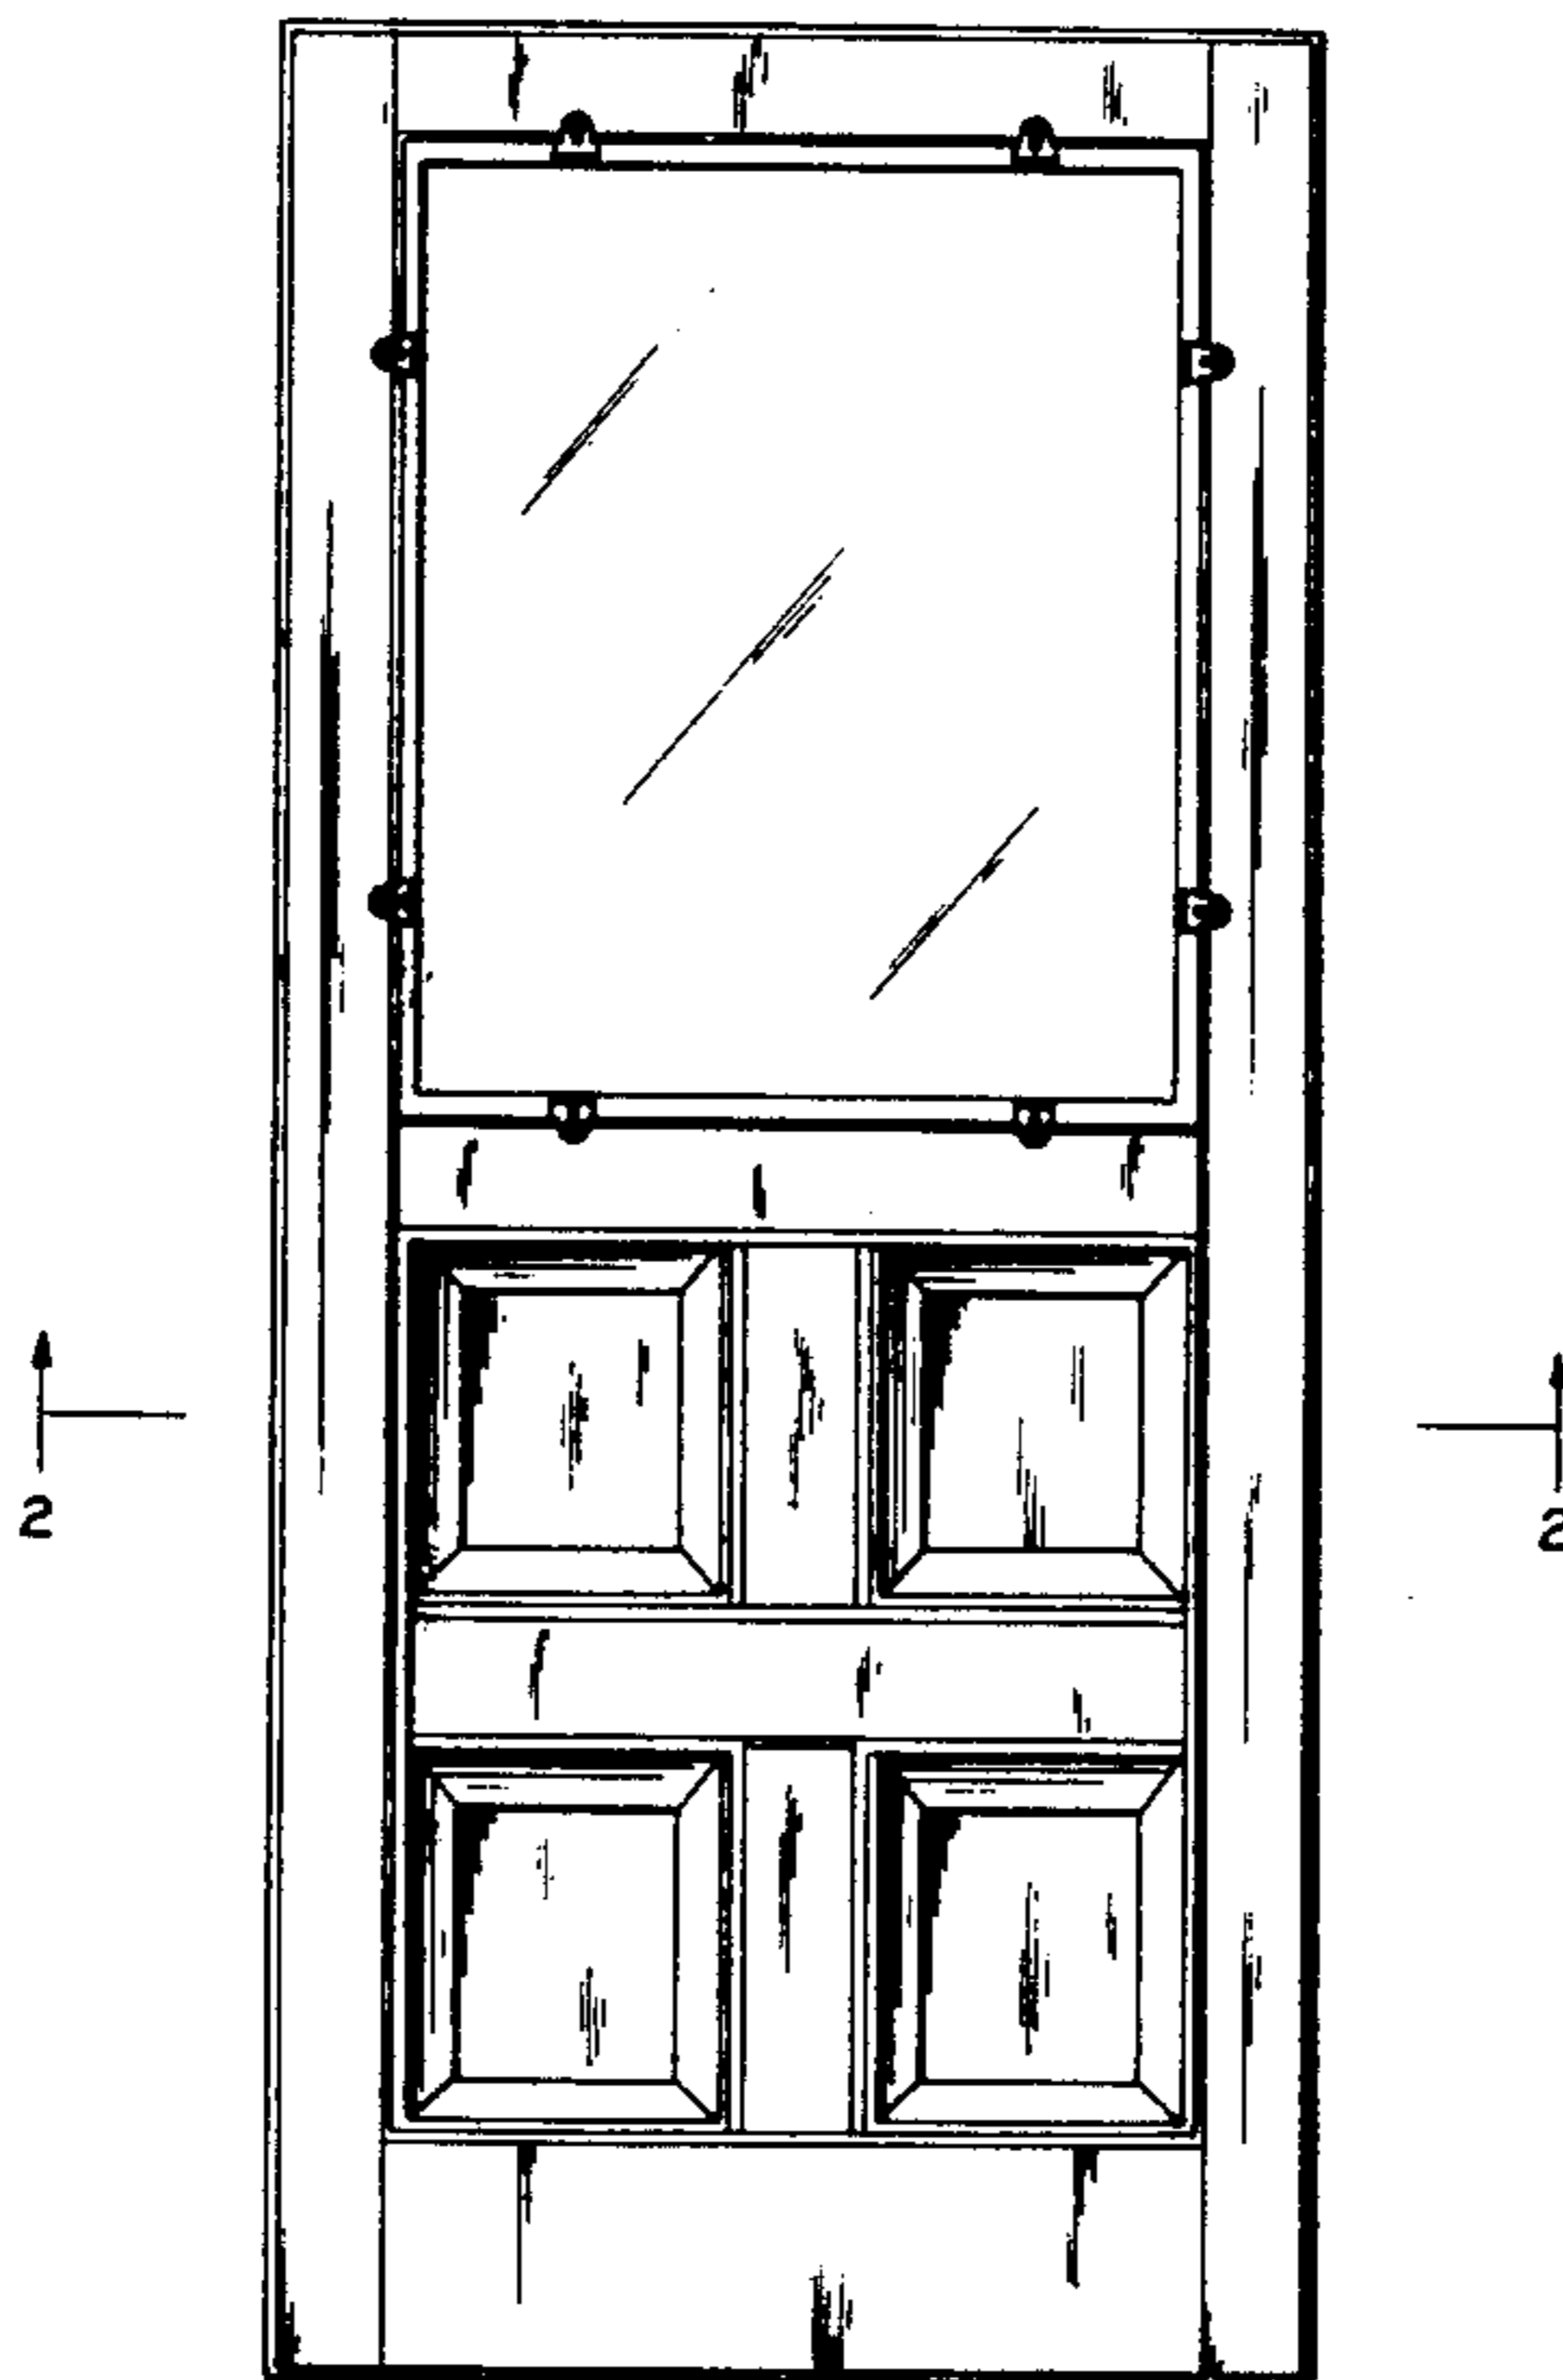

DESCRIPTION

FIG. 1 is a front elevational view of a plastic storm door as viewed from the inside thereof, showing my new design;

FIG. 2 is an enlarged cross-sectional view of the plastic storm door along the lines 2—2 of FIG. 1;

FIG. 3 is a front elevational view of the plastic storm door of FIG. 1, as viewed from the outside thereof; and FIG. 4 is an end view of the storm door of FIG. 1.

The appearance of the plastic storm door is particularly characterized as to novelty in that the configuration of the door as viewed from the inside, is substantially the reverse of the configuration as viewed from the outside thereof.
