[57] CLAIM

The ornamental design for an impact wrench, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of an impact wrench showing our new design, the left side elevational view being a mirror image;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof; and

FIG. 4 is a bottom plan view of the handle portion thereof.

The characteristic feature of our design is the particular configuration of the handle portion thereof as shown.

FIG. 1
