[57] **CLAIM**

The ornamental design for a face design for electronic digital timepiece face, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of an electronic digital timepiece face showing my new design with a typical time indication of 7:23:08 and 26th day activated. The rear view, not shown, is flat, plain and unornamented.

FIG. 2 is a front perspective view of another embodiment of my new design of FIG. 1 wherein the "seconds" indicator ring is concentric with the middle disc. The rear view, not shown, is flat, plain and unornamented.
