[57] CLAIM

The ornamental design for a rotary joint, substantially as shown and described.

DESCRIPTION

FIG. 1 is a side elevational view of a rotary joint showing our new design, the top, bottom and opposite side being identical to the side shown; FIG. 2 is a left end elevational view thereof; and FIG. 3 is a right end elevational view thereof.

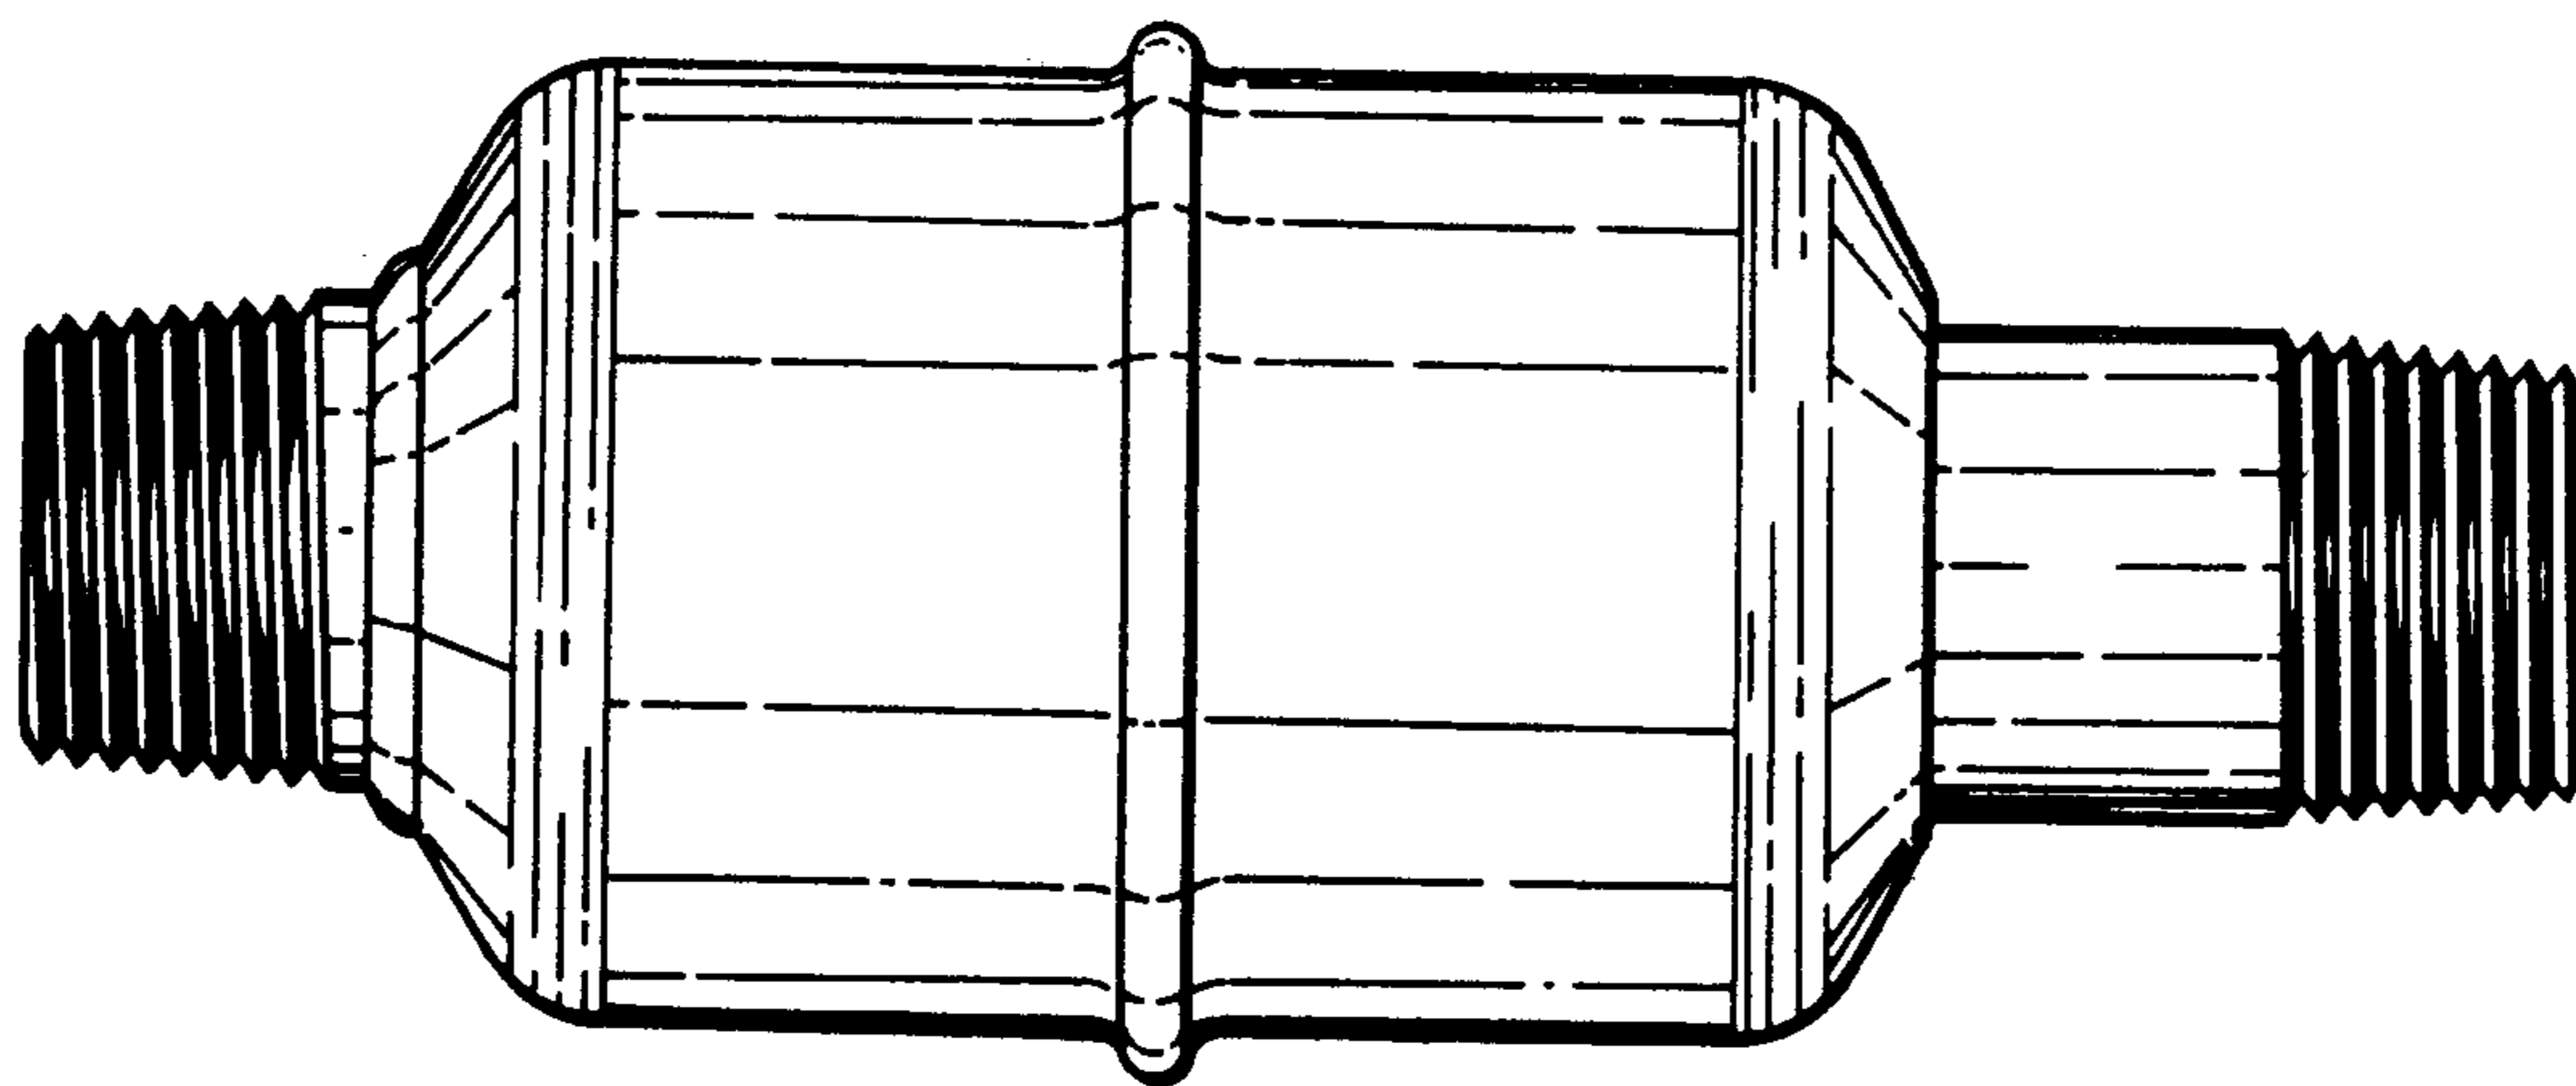

FIG. 1.

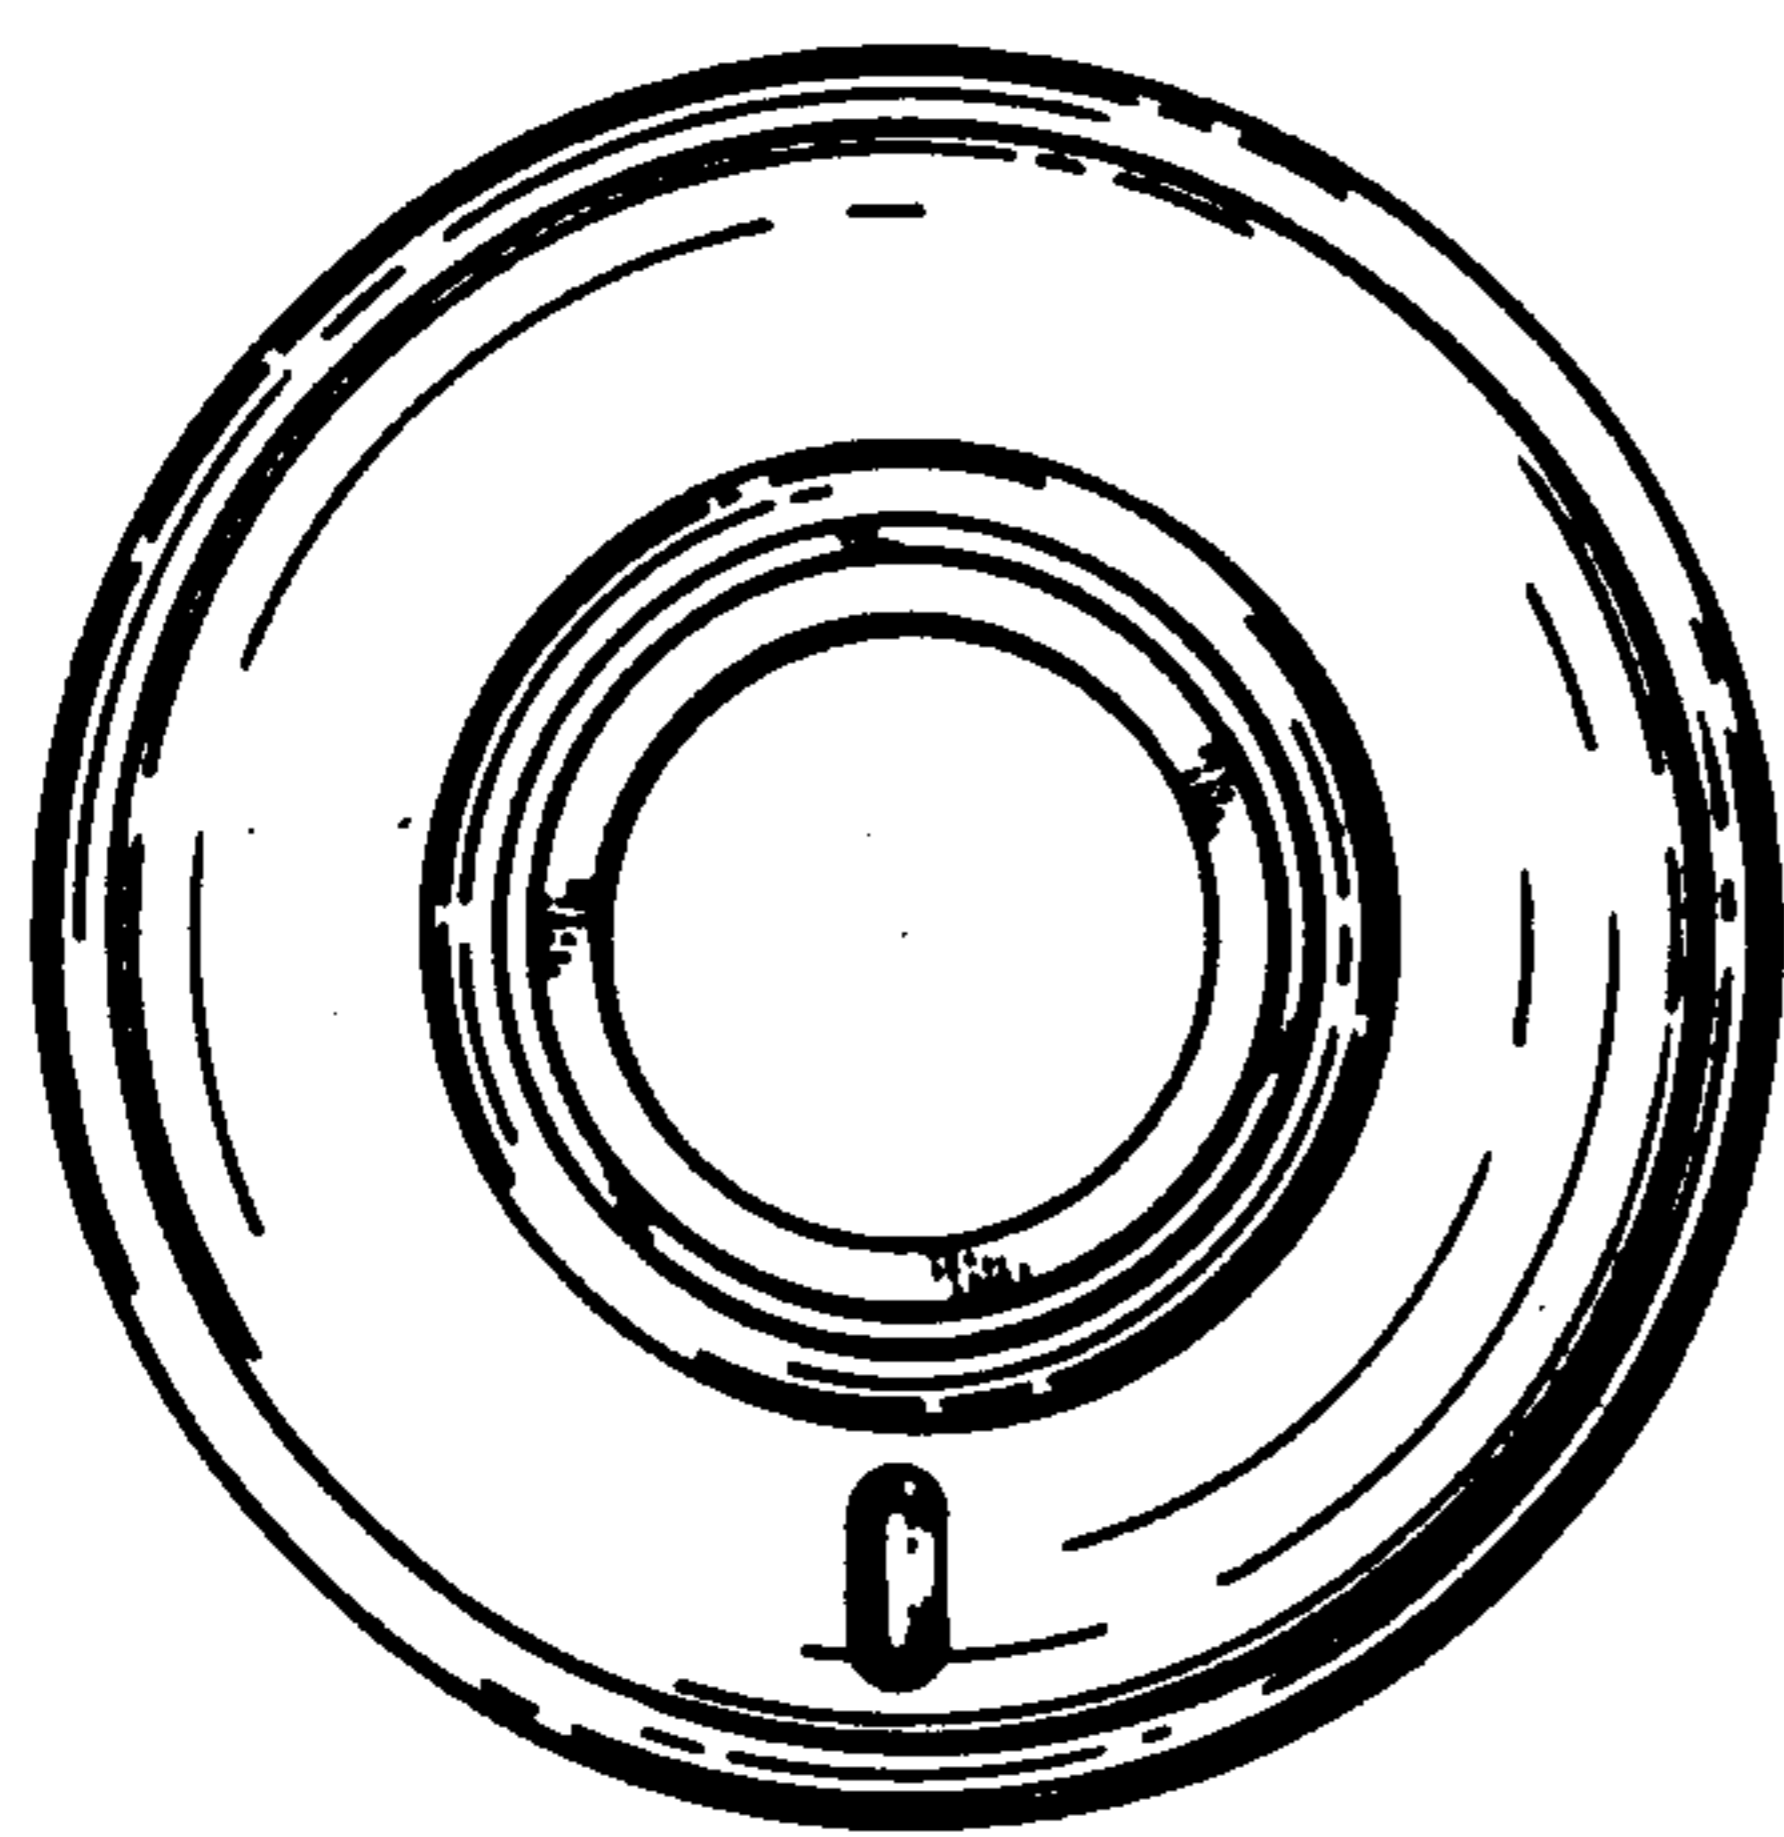

FIG. 2.

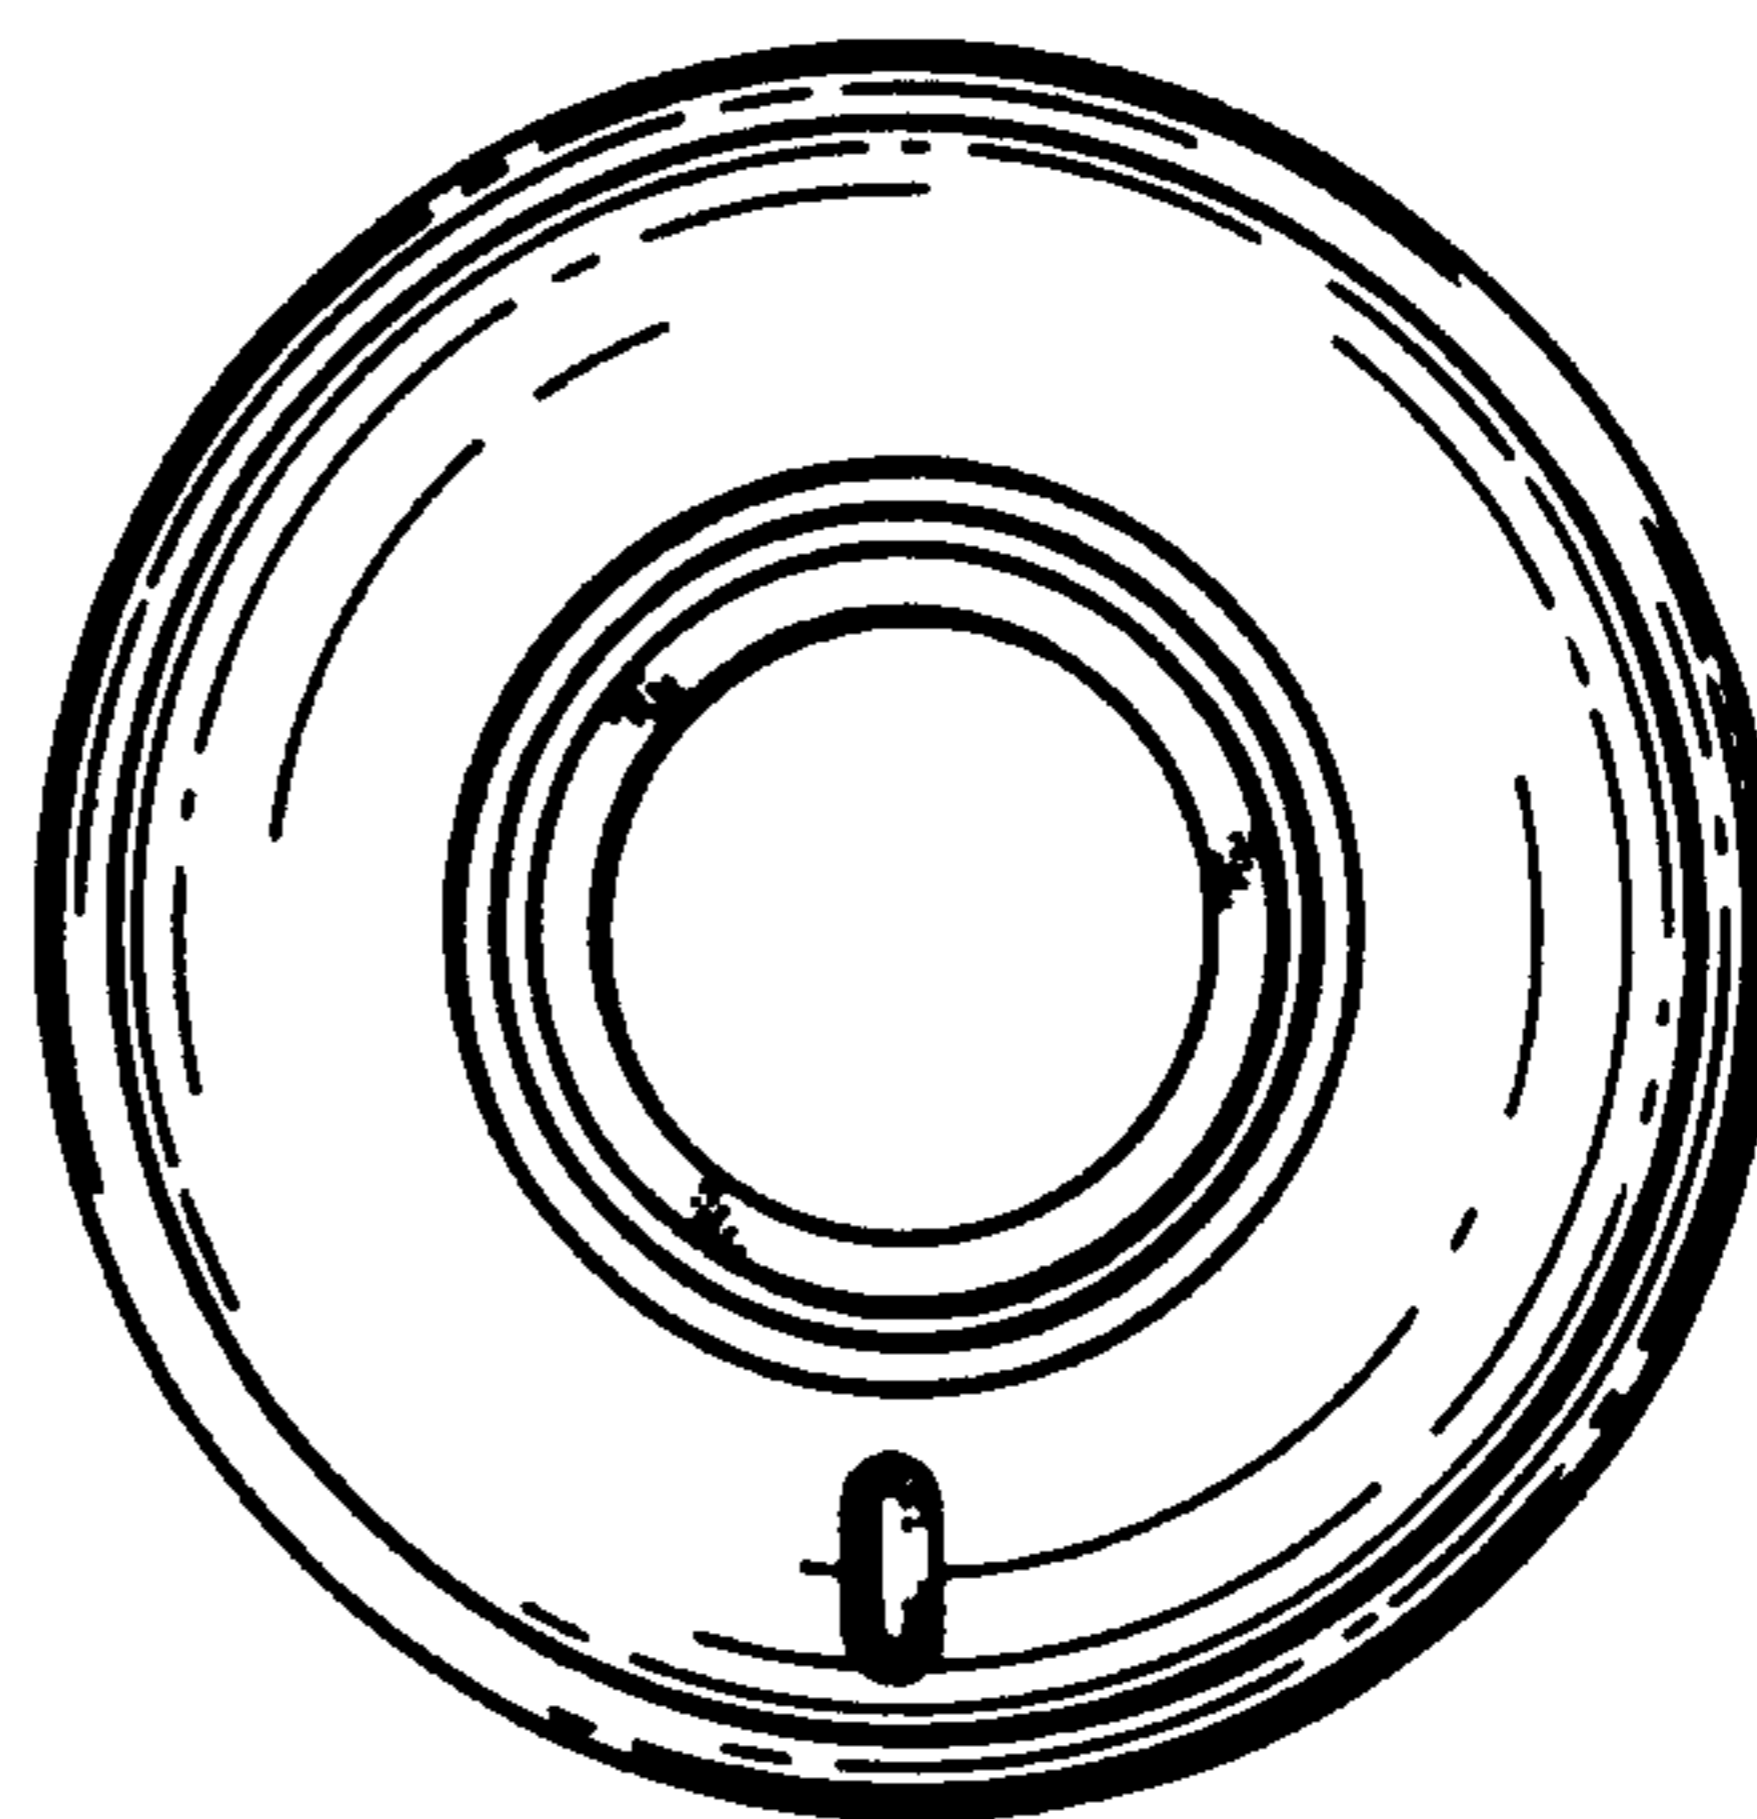

FIG. 3.
