[57] CLAIM

The ornamental design for a grip for a panhandle, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a grip for a panhandle showing our new design;

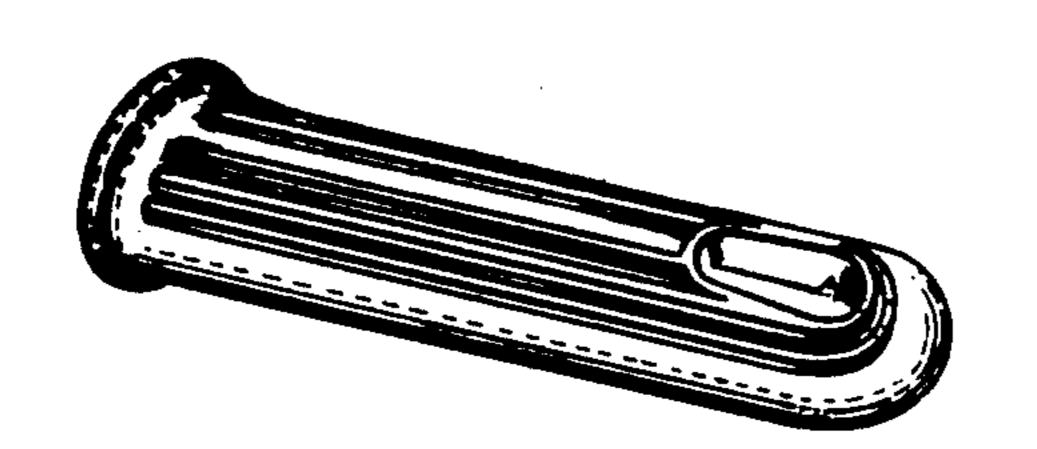

FIG. 2 is a top plan view thereof, the bottom view being identical thereto;

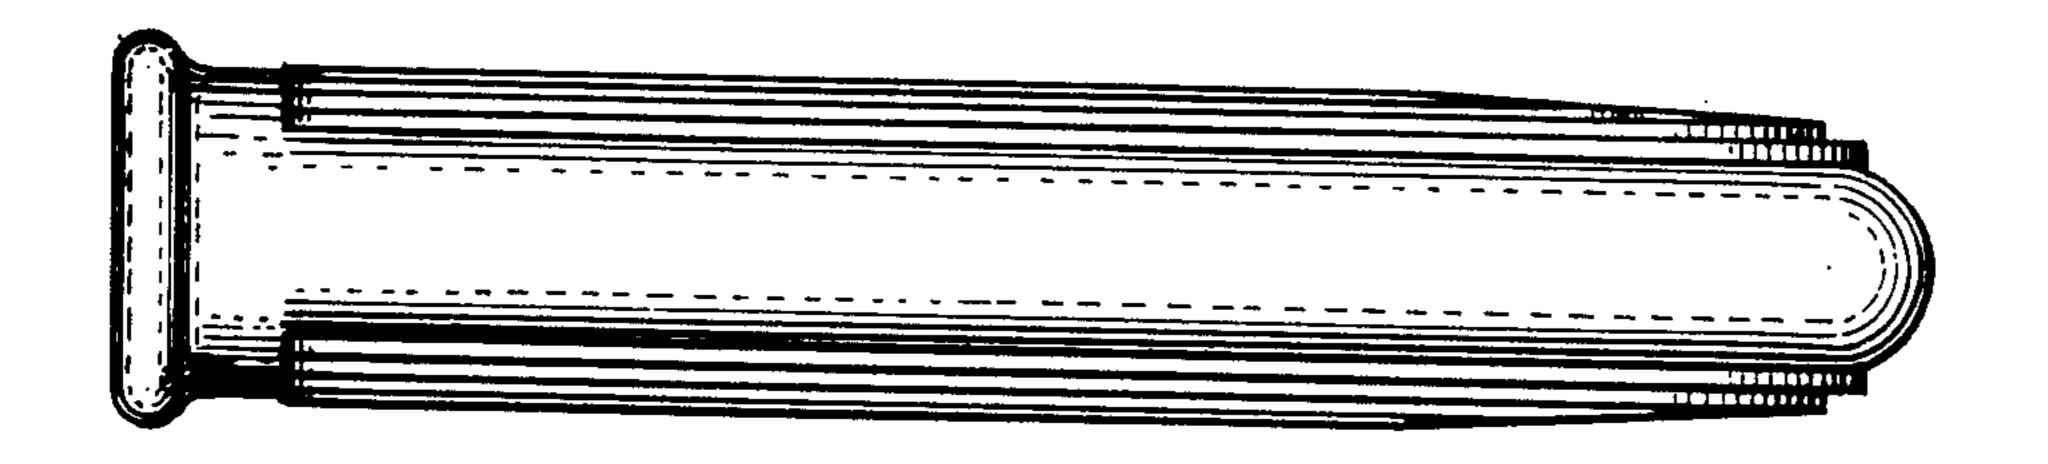

FIG. 3 is an elevational view of one side thereof, the elevational view of the opposite side being identical; FIG. 4 is an elevational view of one end thereof;

FIG. 5 is an elevational view of the opposite end thereof; and

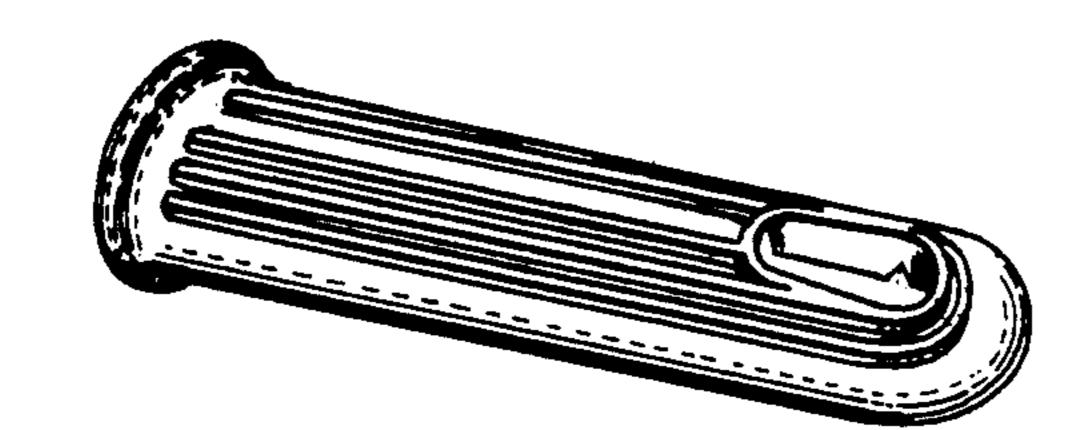

FIG. 6 is an elevational end view similar to FIG. 4 of a modified form of our new design.

The panhandle grip includes an axial opening extending nearly completely therethrough, said opening being shown in FIGS. 4 and 6. The grip also includes a transverse opening near the distal end and extending completely therethrough.
