[57] CLAIM

The ornamental design for a portable radio, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a portable radio showing my new design, with part of the strap shown as broken away for convenience of illustration, the oblongs seen where the strap is broken being continuous across the top;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a bottom plan view.

The top surface contains a row of spaced oblong openings spaced below the strap.
