[57] **CLAIM**

The ornamental design for a blood processing machine, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the blood processing machine embodying our new design; FIG. 2 is a front elevational view of the blood processing machine; FIG. 3 is a side elevational view of the blood processing machine; and FIG. 4 is a top plan view of the blood processing machine. The undisclosed rear portion of the blood processing machine is plain and unornamented.

FIG. 1

FIG. 2

FIG. 3
