[57] CLAIM

The ornamental design for a golf putter head, as shown and described.

DESCRIPTION

FIG. 1 is a plan view of my golf putter head showing my new design.

FIG. 2 is a front elevational view thereof.

FIG. 3 is a rear elevational view thereof.

FIG. 4 is a bottom plan view thereof.

FIG. 5 is a left side elevational view thereof.

FIG. 6 is a right side elevational view thereof.

The characteristic feature of my design resides in the hosel being flush with the rear surface of the clubhead and the particular bending to the left and then right thereof so that the shaft would at its longitudinal axis intersect the clubhead top half way between the outer edge and the point of attachment of the hosel to clubhead.
