[57] CLAIM

The ornamental design for an electronic game casing, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of our new electronic game casing with its cover in the open position;

FIG. 2 is a left side elevational view thereof on a reduced scale;

FIG. 3 is a front elevational view thereof on the same scale as that of FIG. 2;

FIG. 4 is a bottom plan view thereof on the same scale as that of FIG. 2;

FIG. 5 is a top plan view thereof on the same scale as that of FIG. 2;

FIG. 6 is a left side elevational view thereof with its cover in the closed position and on the same scale as that of FIG. 2;

FIG. 7 is a front elevational view thereof with its cover in the closed position and on the same scale as that of FIG. 2;

FIG. 8 is a top plan view of the same with its cover in the closed position and on the same scale as that of FIG. 2.

A right side elevational view of the same with its cover open and on the same scale as that of FIG. 2 is essentially a mirror image thereof.

A right side elevational view of the same with its cover closed and on the same scale as that of FIG. 6 is essentially a mirror image thereof.
