[57] CLAIM

The ornamental design for a case for interchangeable program module for a personal computer or the like, substantially as shown and described.

DESCRIPTION

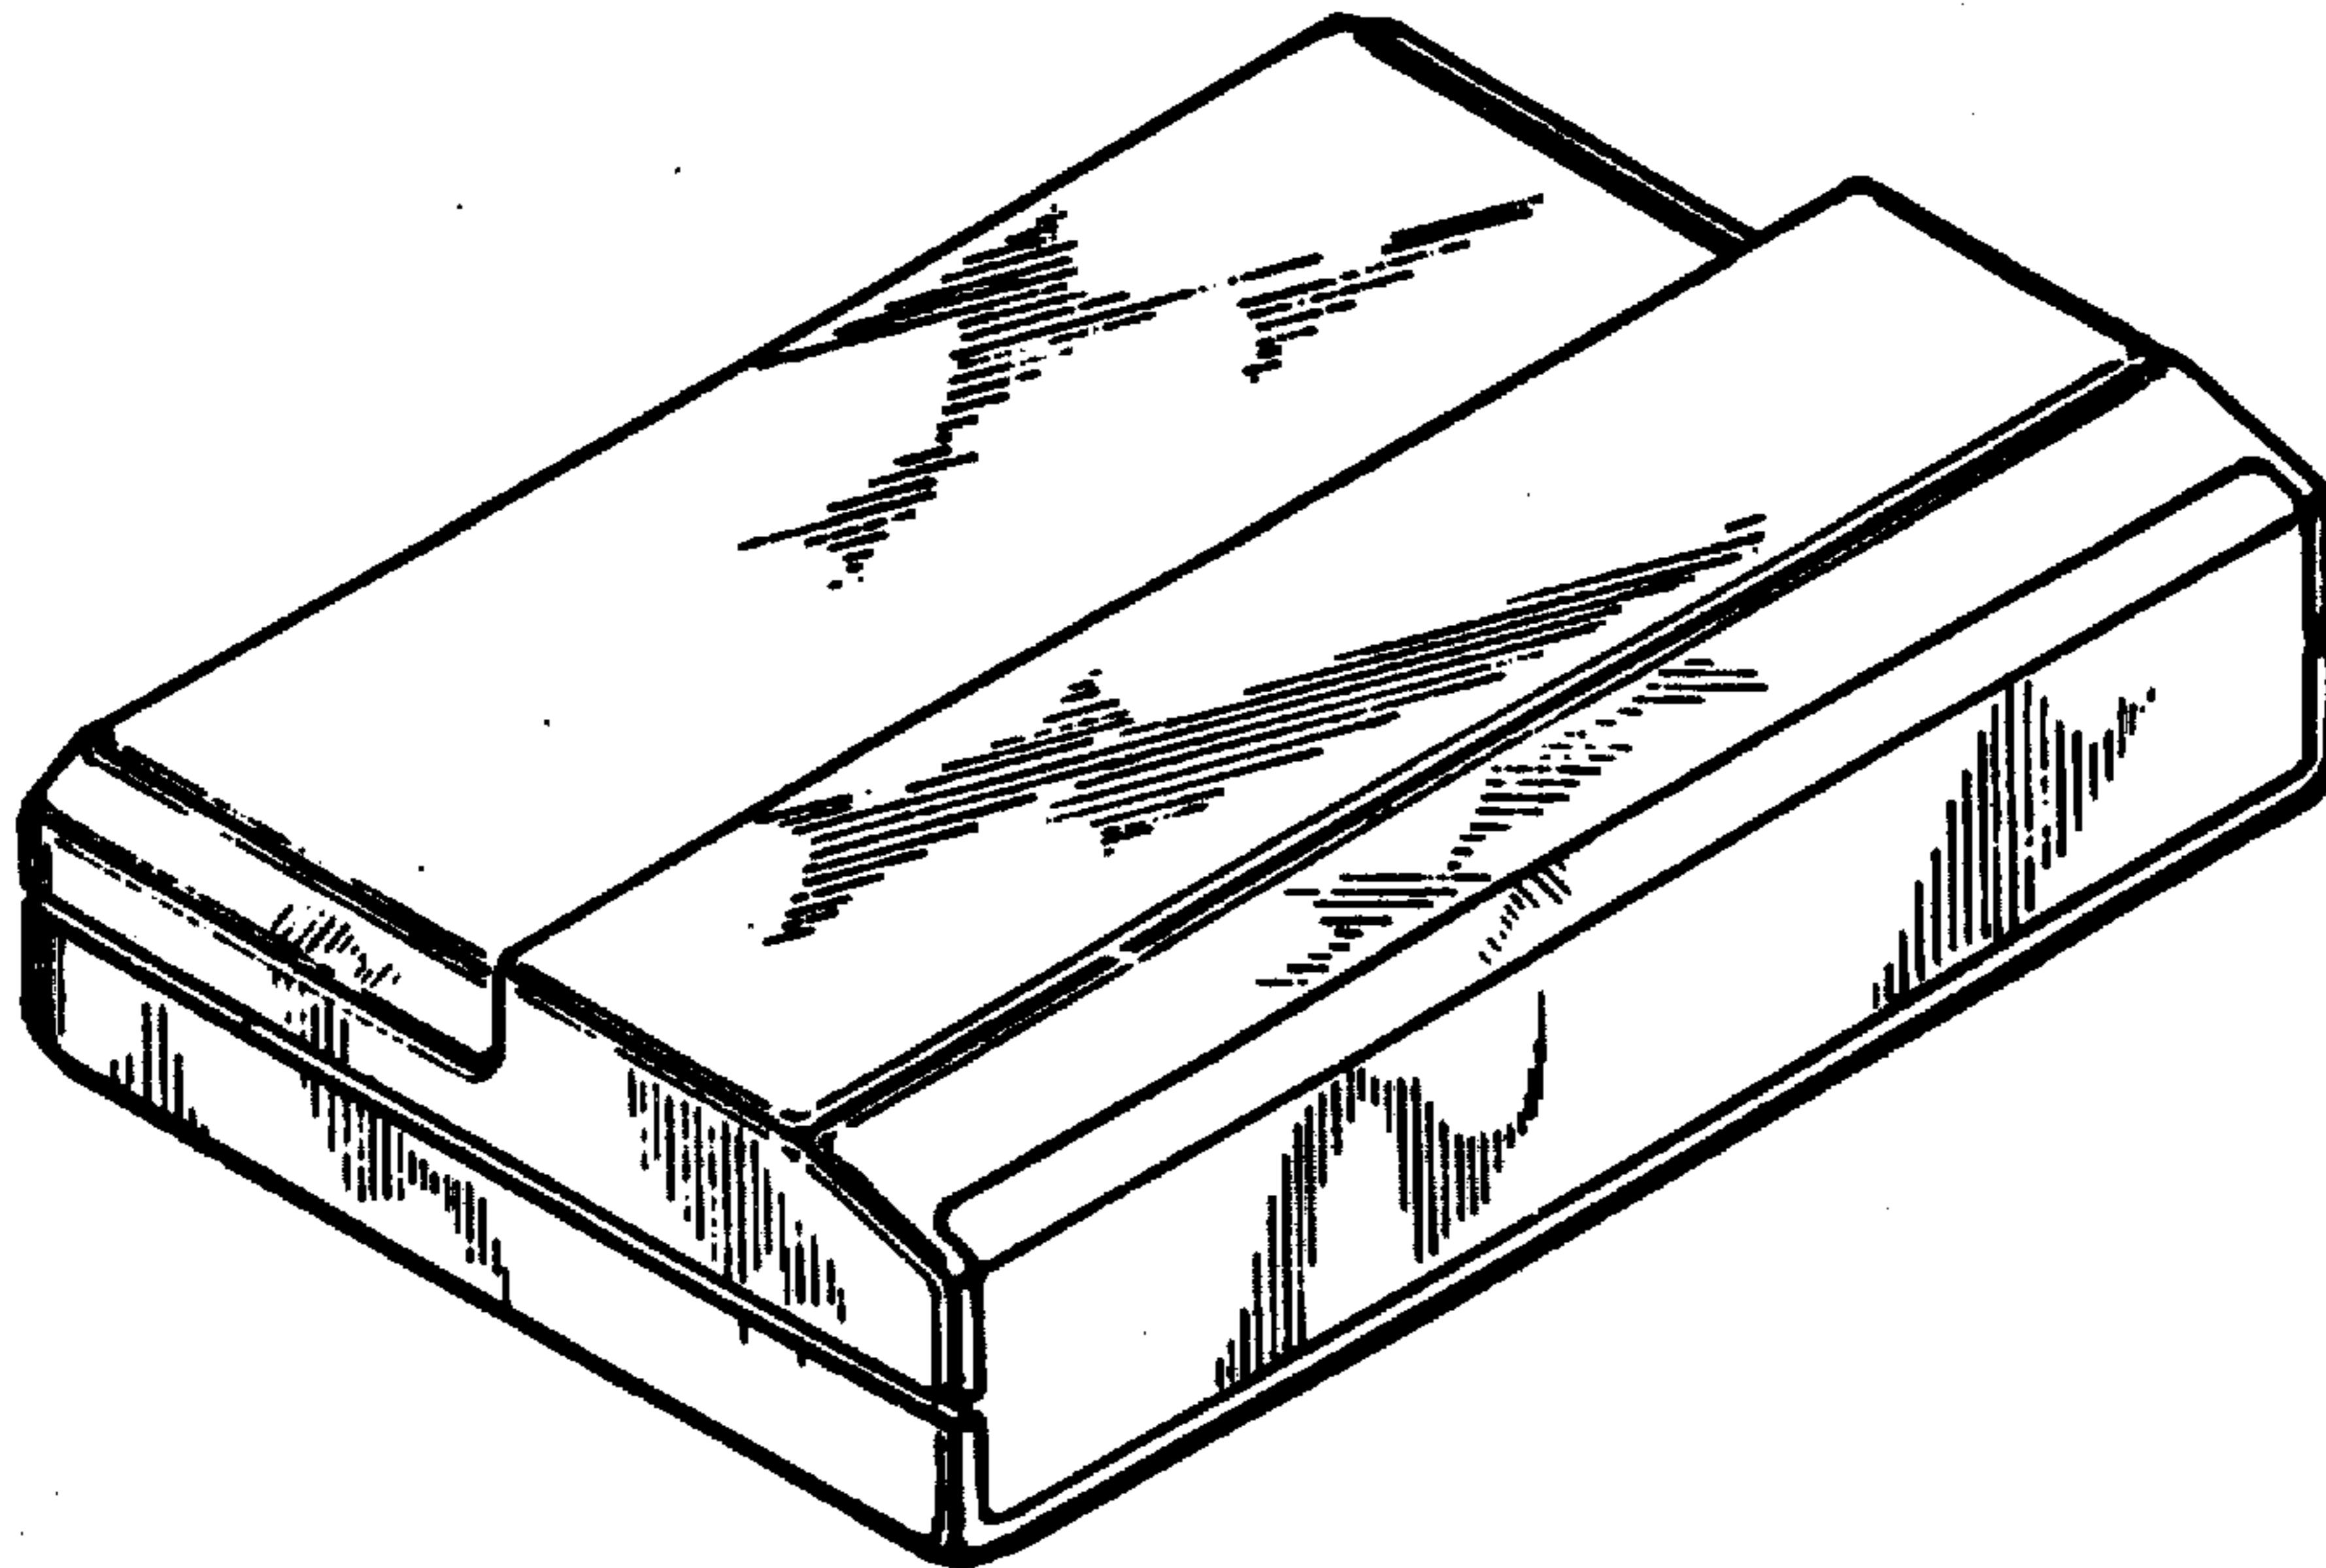

FIG. 1 is a top elevational view of a case for interchangeable program module for a personal computer or the like showing our new design;

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a left side elevational view thereof, the right side elevational view thereof being essentially a mirror image thereof; and

FIG. 4 is a top front perspective view thereof.

The bottom of the case for interchangeable program module for a personal computer is plain and unornamented.
