[57] CLAIM

The ornamental design for a hollow fiber artificial kidney, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the artificial kidney showing my new design;

FIG. 2 is a side view showing the outline of the outer end blood chambers and blood ports protruding therefrom on the horizontal axis of the kidney when the dialysate parts are pointed upwardly;

FIG. 3 is a top plan view of the artificial kidney oriented as in FIG. 2;

FIG. 4 is an end view; and

FIG. 5 is a bottom plan view of the artificial kidney oriented as in FIG. 2.
