[57] **CLAIM**

The ornamental design for a backhoe depth gauge, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a backhoe depth gauge showing my new design;
 FIG. 2 is a rear elevational view thereof;
 FIG. 3 is a left side elevational view thereof;
 FIG. 4 is a right side elevational view thereof;
 FIG. 5 is a top plan view thereof.
 The backhoe depth gauge as disclosed in the accompanying drawing is secured to the bucket of the backhoe within the view of the backhoe operator whereby the backhoe operator can maintain a uniform depth in his cut by visual reference to said depth gauge.
