[57] CLAIM

The ornamental design for a multi-level bakery tray, as shown and described.

DESCRIPTION

FIG. 1 is an end elevational view of a multi-level bakery tray showing our new design with a pivoted bail in a raised position;

FIG. 2 is the same view as FIG. 1 with the pivoted bail in a lowered position;

FIG. 3 is an end elevational view of the opposite end from FIG. 1 and with a pivoted bail in a raised position;

FIG. 4 is the same view as FIG. 3 and showing the pivoted bail in its lowered position;

FIG. 5 is a side elevational view thereof with the pivoted bails shown in their lowered positions;

FIG. 6 is a fragmentary side elevational view corresponding to FIG. 5 and showing a pivoted bail in its raised position;

FIG. 7 is a side elevational view of the opposite side thereof;

FIG. 8 is a fragmentary side elevational view corresponding to FIG. 7 and showing a pivoted bail in a raised position;

FIG. 9 is a top plan view thereof;

FIG. 10 is a bottom view thereof;

FIG. 11 is a fragmentary top plan view showing the appearance with a pivoted bail in a lowered position;

FIG. 12 is a fragmentary bottom view showing the tray with a bail in its lowered position;

FIG. 13 is a cross-sectional elevational view taken generally on line 13-13 of FIG. 9; and

FIG. 14 is a cross-sectional elevational view taken generally on line 14-14 of FIG. 9.
