[57] CLAIM

The ornamental design for a pulmonary function measurement apparatus or the like, as shown and described.

DESCRIPTION

FIG. 1 is a top plane view of a pulmonary function measurement apparatus or the like showing my new design with the stand in closed position;

FIG. 2 is a side elevation seen from the left of FIG. 1 with the stand in the extended position and the arrows indicating movement of the stand;

FIG. 3 is an end elevation as seen from the top of FIG. 1;

FIG. 4 is an end elevation as seen from the bottom of FIG. 1;

FIG. 5 is the same end elevation of FIG. 4, with the moveable stand in its extended position;

FIG. 6 is a back view of the apparatus of FIG. 1 with the broken lines indicating an electrical connection; and

FIG. 7 is an isometric view thereof with the stand in an extended position.

The words in broken lines are shown for illustrative purposes only.
