[57] **CLAIM**

The design of a rack for holding dental instruments, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevation of a rack for holding dental instruments showing my new design; FIG. 2 is a left side elevation thereof; FIG. 3 is a front elevation thereof; FIG. 4 is a rear elevation thereof; FIG. 5 is bottom plan view thereof; and FIG. 6 is a front perspective thereof.

The design is that of a rack for holding dental instruments capable of supporting a complete set of dental tools in a prearranged order and at positions which facilitate their being received by the dentist in position for immediate use with a minimum of motion and fatigue.
