[57] CLAIM

The ornamental design for a tire tread and buttress, substantially as shown and described.

DESCRIPTION

The FIG. 1 is a perspective view, partly schematic, of a tire tread and buttress embodying the design of the present invention, it being understood that the pattern is repeated throughout the circumference of the tread, the opposite side being substantially the same as that shown. FIG. 2 is a front elevational view, thereof. FIG. 3 is a partial side elevational view, thereof. The broken lines in the drawing are for illustrative purposes only.
