[57] CLAIM

The ornamental design for a mounting stand for attaching an accessory to an engine, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the mounting stand for attaching an accessory to an engine showing my design;

FIG. 2 is an end elevation view thereof;

FIG. 3 is a side elevation view thereof;

FIG. 4 is a bottom plan view thereof; and

FIG. 5 is a perspective view of a mounting stand for attaching an accessory to an engine showing a second embodiment of my new design, it being understood that the difference resides in the concave upper support surface being smooth.
