[57] **CLAIM**
The ornamental design for a blank for a two compart-
ment box, substantially as shown and described.

DESCRIPTION
FIG. 1 is a top plan view of a blank for a two compart-
ment box embodying my new design, the bottom plan
view being the same in appearance;
FIG. 2 is a front elevational edge view of my new de-
sign, the rear elevational edge view being the same in
appearance; and
FIG. 3 is a right end elevational edge view of my new
design, the left end elevational edge view being the
same in appearance.
The blank is of conventional thickness. The dash lines
formed of dashes of uniform length represent fold lines
which are also perforated, while the dash lines formed
of long and short dashes represent fold lines without
perforations.
