CLAIM

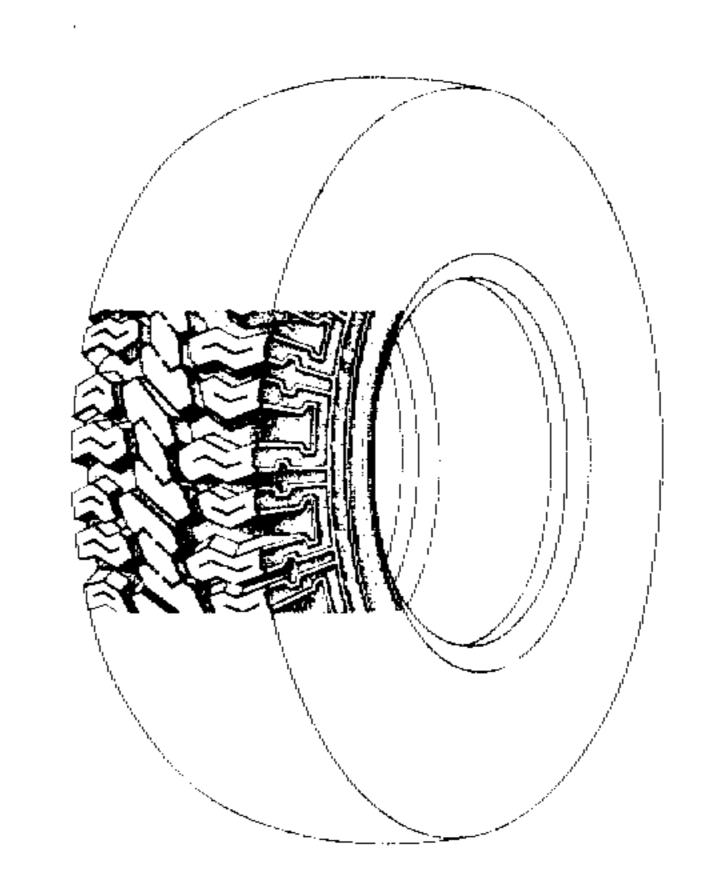

The ornamental design for a tire tread, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire embodying the design of the present invention, it being understood that the tread pattern is repeated throughout the circumference of the tire as shown schematically by solid lines, the opposite side being substantially the same as that shown.

.

FIG. 2 is a front elevational view thereof; and FIG. 3 is a side elevational view thereof.
