[57] **CLAIM**

The ornamental design for a culture swab transport package with rupturable sealed section having a stored culture medium, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a culture swab transport package with rupturable sealed section having a stored culture medium showing my new design; FIG. 2 is a side elevational view thereof, the other side being a mirror image; FIG. 3 is a left end elevational view thereof; FIG. 4 is a right end elevational view thereof; FIG. 5 is a bottom plan view thereof; and FIG. 6 is a perspective view of the culture swab transport package with rupturable sealed section having a stored culture medium with the top layer partially peeled back to expose an inner compartment containing the culture swab stick, for clarity of illustration.
