[57] CLAIM

The ornamental design for a combination reflector and lens, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a combination reflector and lens made according to my new design; FIG. 2 is a fragmentary enlarged cross-sectional view taken on line 2-2 of FIG. 1;

FIG. 3 is a fragmentary enlarged cross-sectional view taken on line 3-3 of FIG. 1;

FIG. 4 is a fragmentary enlarged cross-sectional view taken on line 4-4 of FIG. 1; and

FIG. 5 is a fragmentary, greatly enlarged rear elevational view thereof.

The combination reflector and lens is fragmentarily shown in FIGS. 2, 3, 4, and 5 for convenience of illustration.
