[57] CLAIM

The ornamental design for a control unit for a combined
automobile cassette player and radio, as shown and
described.

DESCRIPTION

FIG. 1 is a front, top and left side perspective view of a
control unit for a combined automobile cassette player
and radio showing our new design;
FIG. 2 is a front elevational view; and
FIG. 3 is a right side elevational view.
The broken line structure forms no part of the claimed
design and is included for illustrative purposes only.
The rear of the control unit is conventional.
