[57] CLAIM

An ornamental design for a pipe-holding vise jaw appliance, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view of a pipe-holding vise jaw appliance showing our new design, including a base section on the left and a subjaw section on the right;

FIG. 2 is a rear elevational view of the base section shown in FIG. 1 rotated 90° counterclockwise, with the subjaw section being omitted for ease of illustration;

FIG. 3 is a right side view of the base section shown in FIG. 2;

FIG. 4 is a front elevational view of the subjaw section shown in FIG. 1 with the base section being omitted for ease of illustration;

FIG. 5 is a rear elevational view of the subjaw section shown in FIG. 4;

FIG. 6 is a top plan view of the subjaw section shown in FIG. 4, rotated 90° counterclockwise;

FIG. 7 is a perspective view of an alternate embodiment of the pipe-holding vise jaw appliance shown in FIG. 1 with the subjaw section being shown separately for ease of illustration, it being understood that the base section is identical to that shown in FIGS. 1-3;

FIG. 8 is a front elevational view of the subjaw section shown in FIG. 7; and

FIG. 9 is a rear elevational view of the subjaw section shown in FIG. 8.
