[57] CLAIM

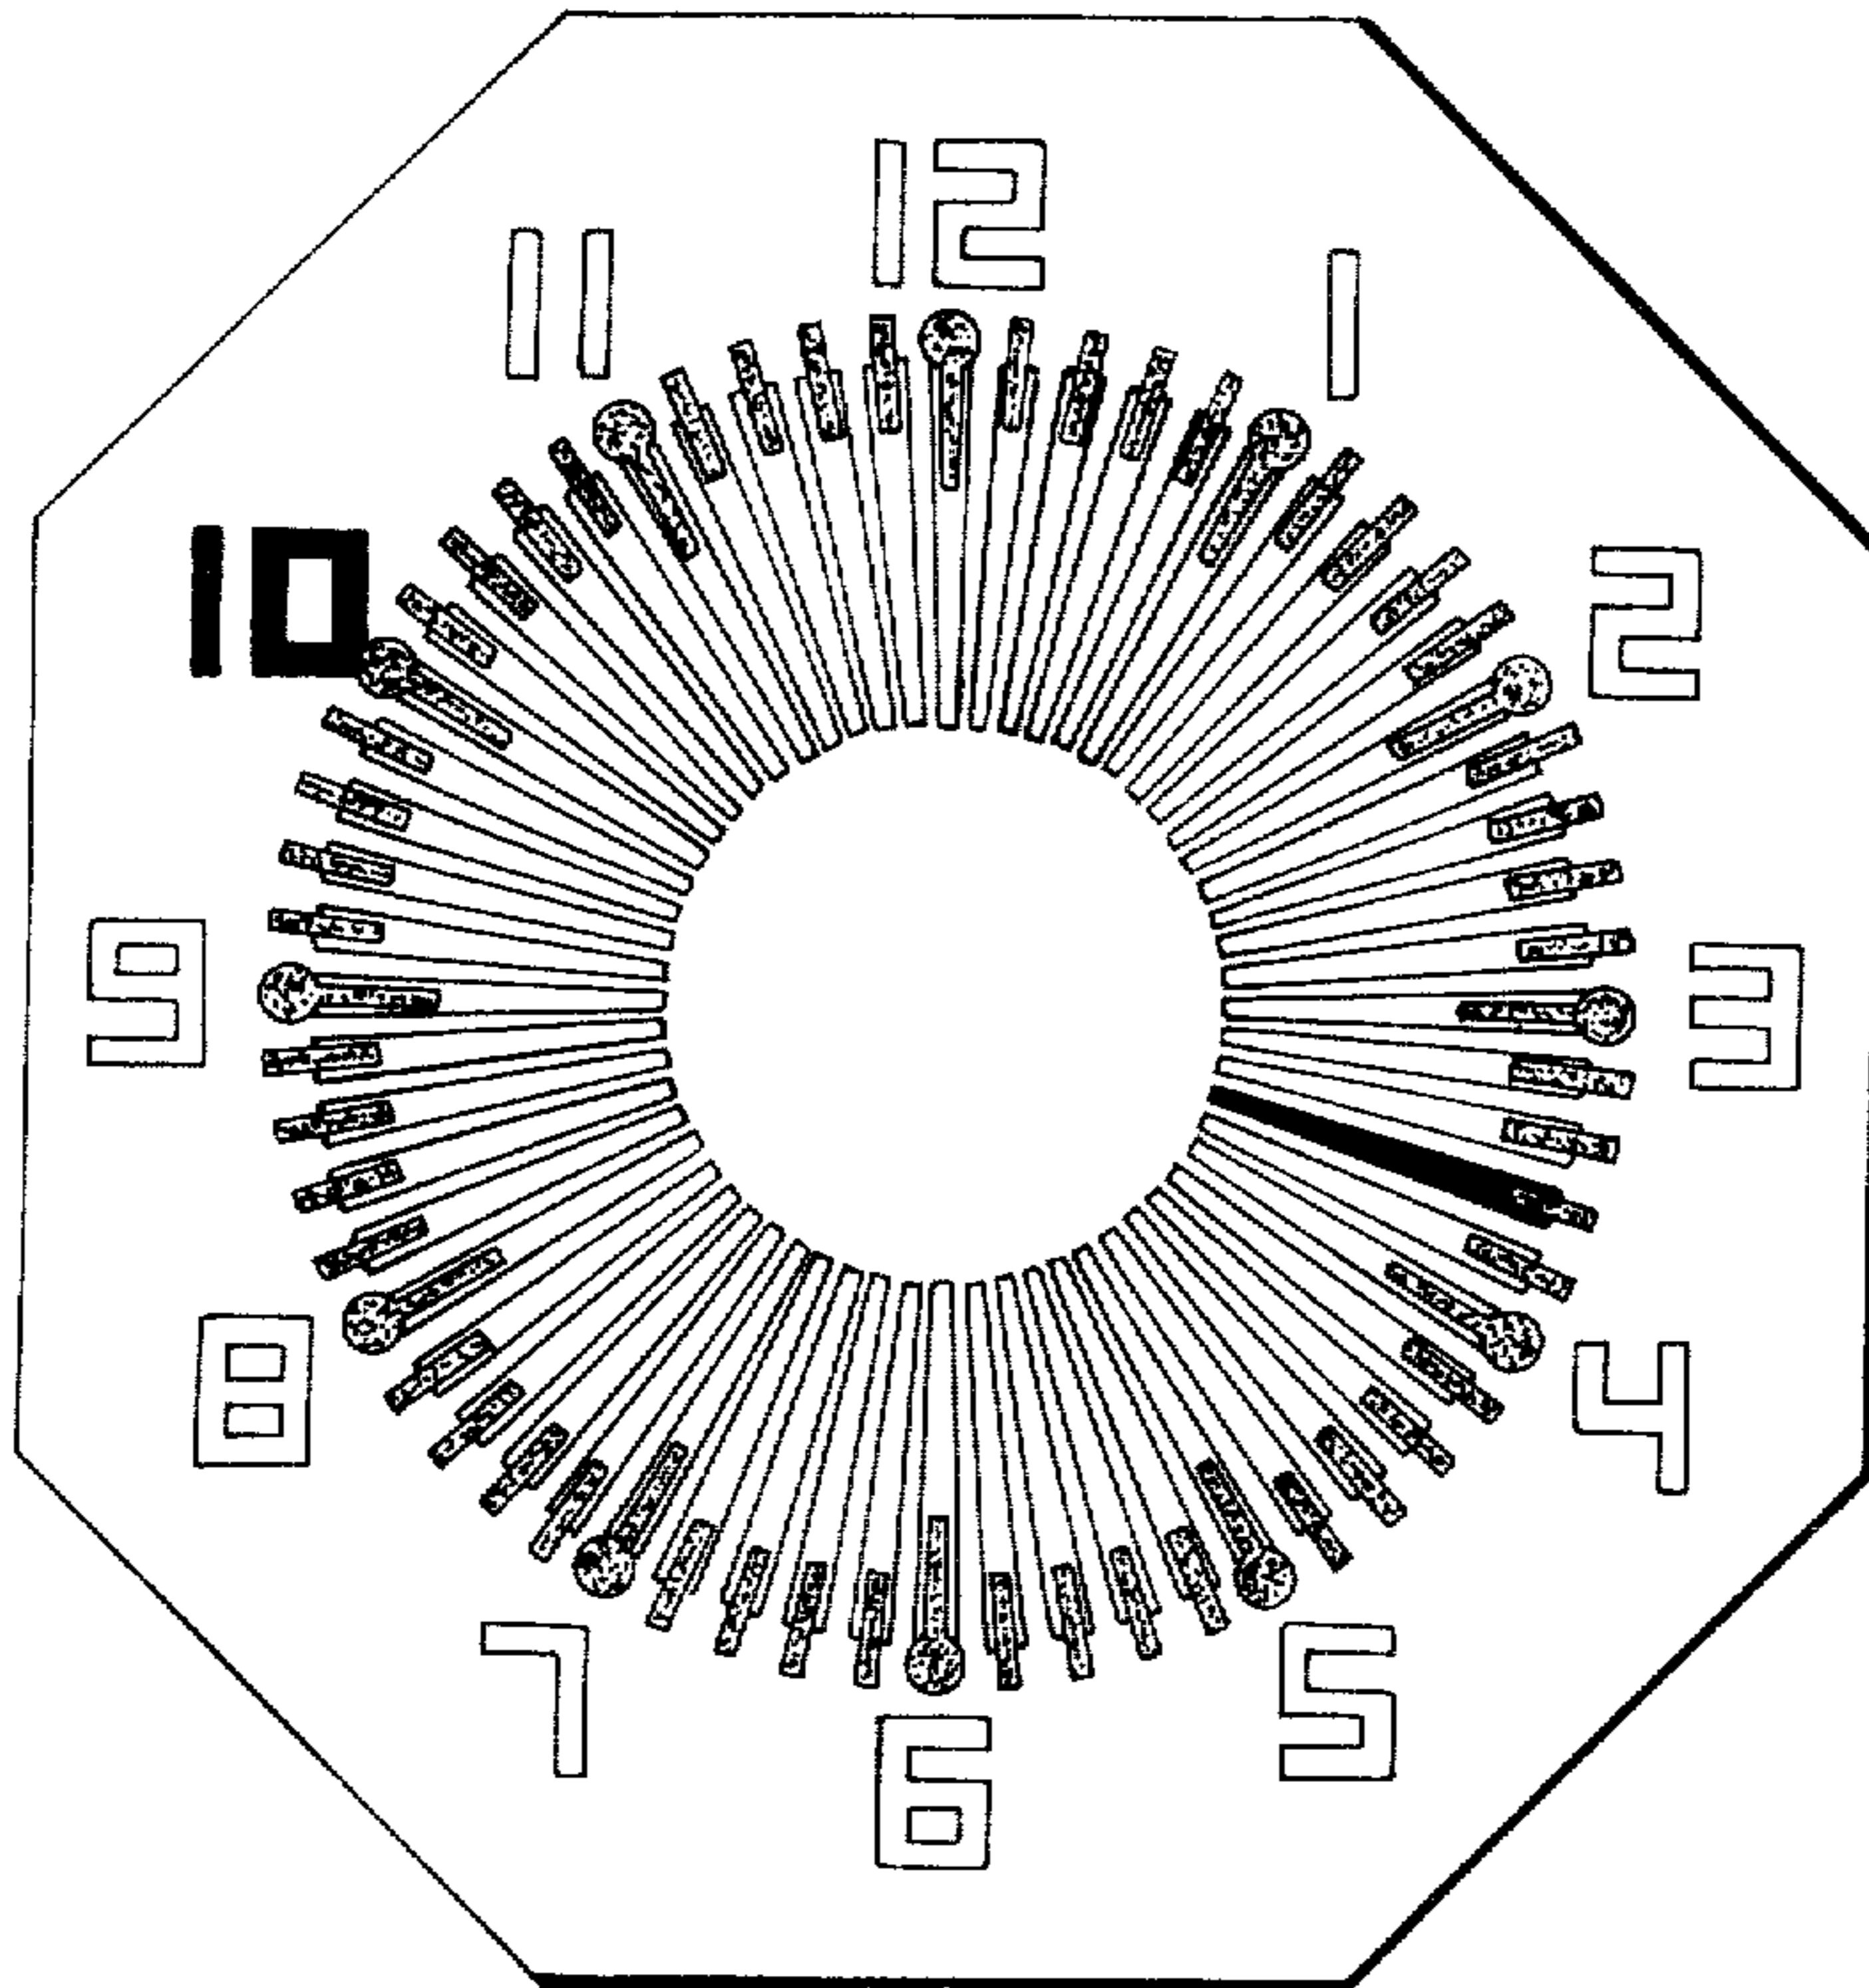

The ornamental design for an electrooptic timepiece face design, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an electrooptic timepiece face showing our new design in a non-energized condition;

FIG. 2 is a front elevational view thereof in representative energized condition showing a time indication of 10:18.

The claimed article is flat on front and rear surfaces and is substantially of no appreciable thickness.

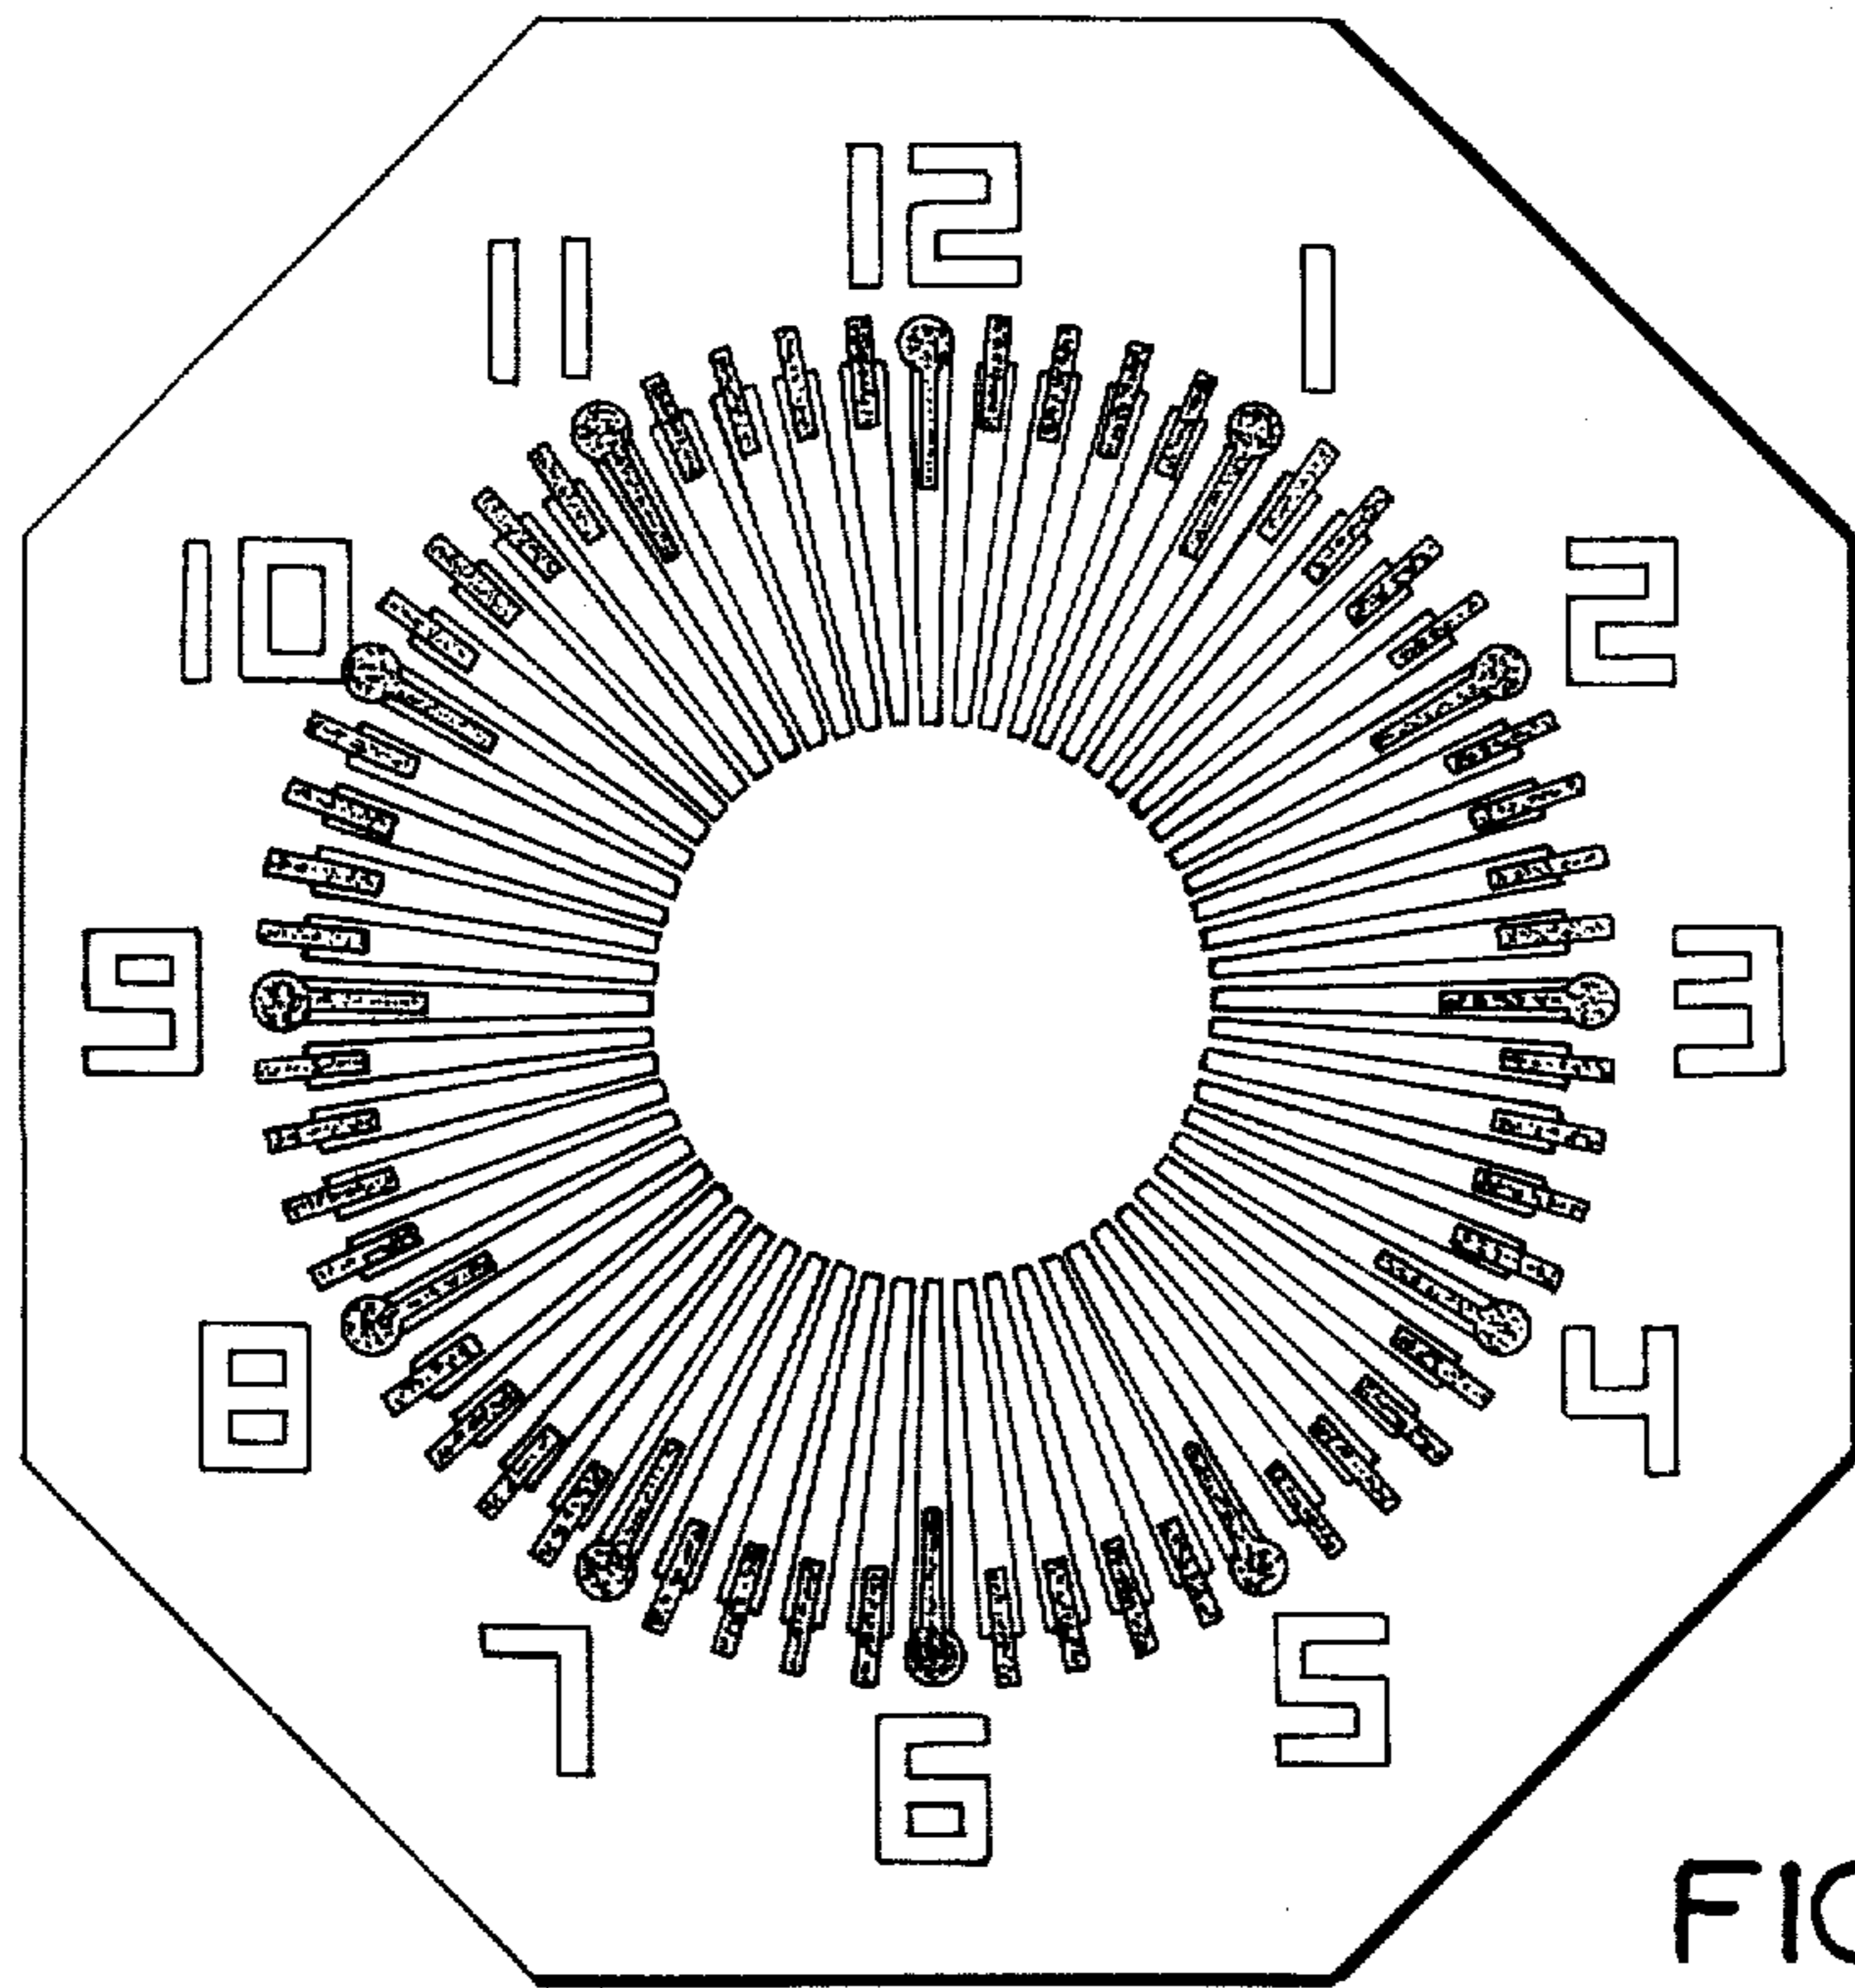

FIG. 1

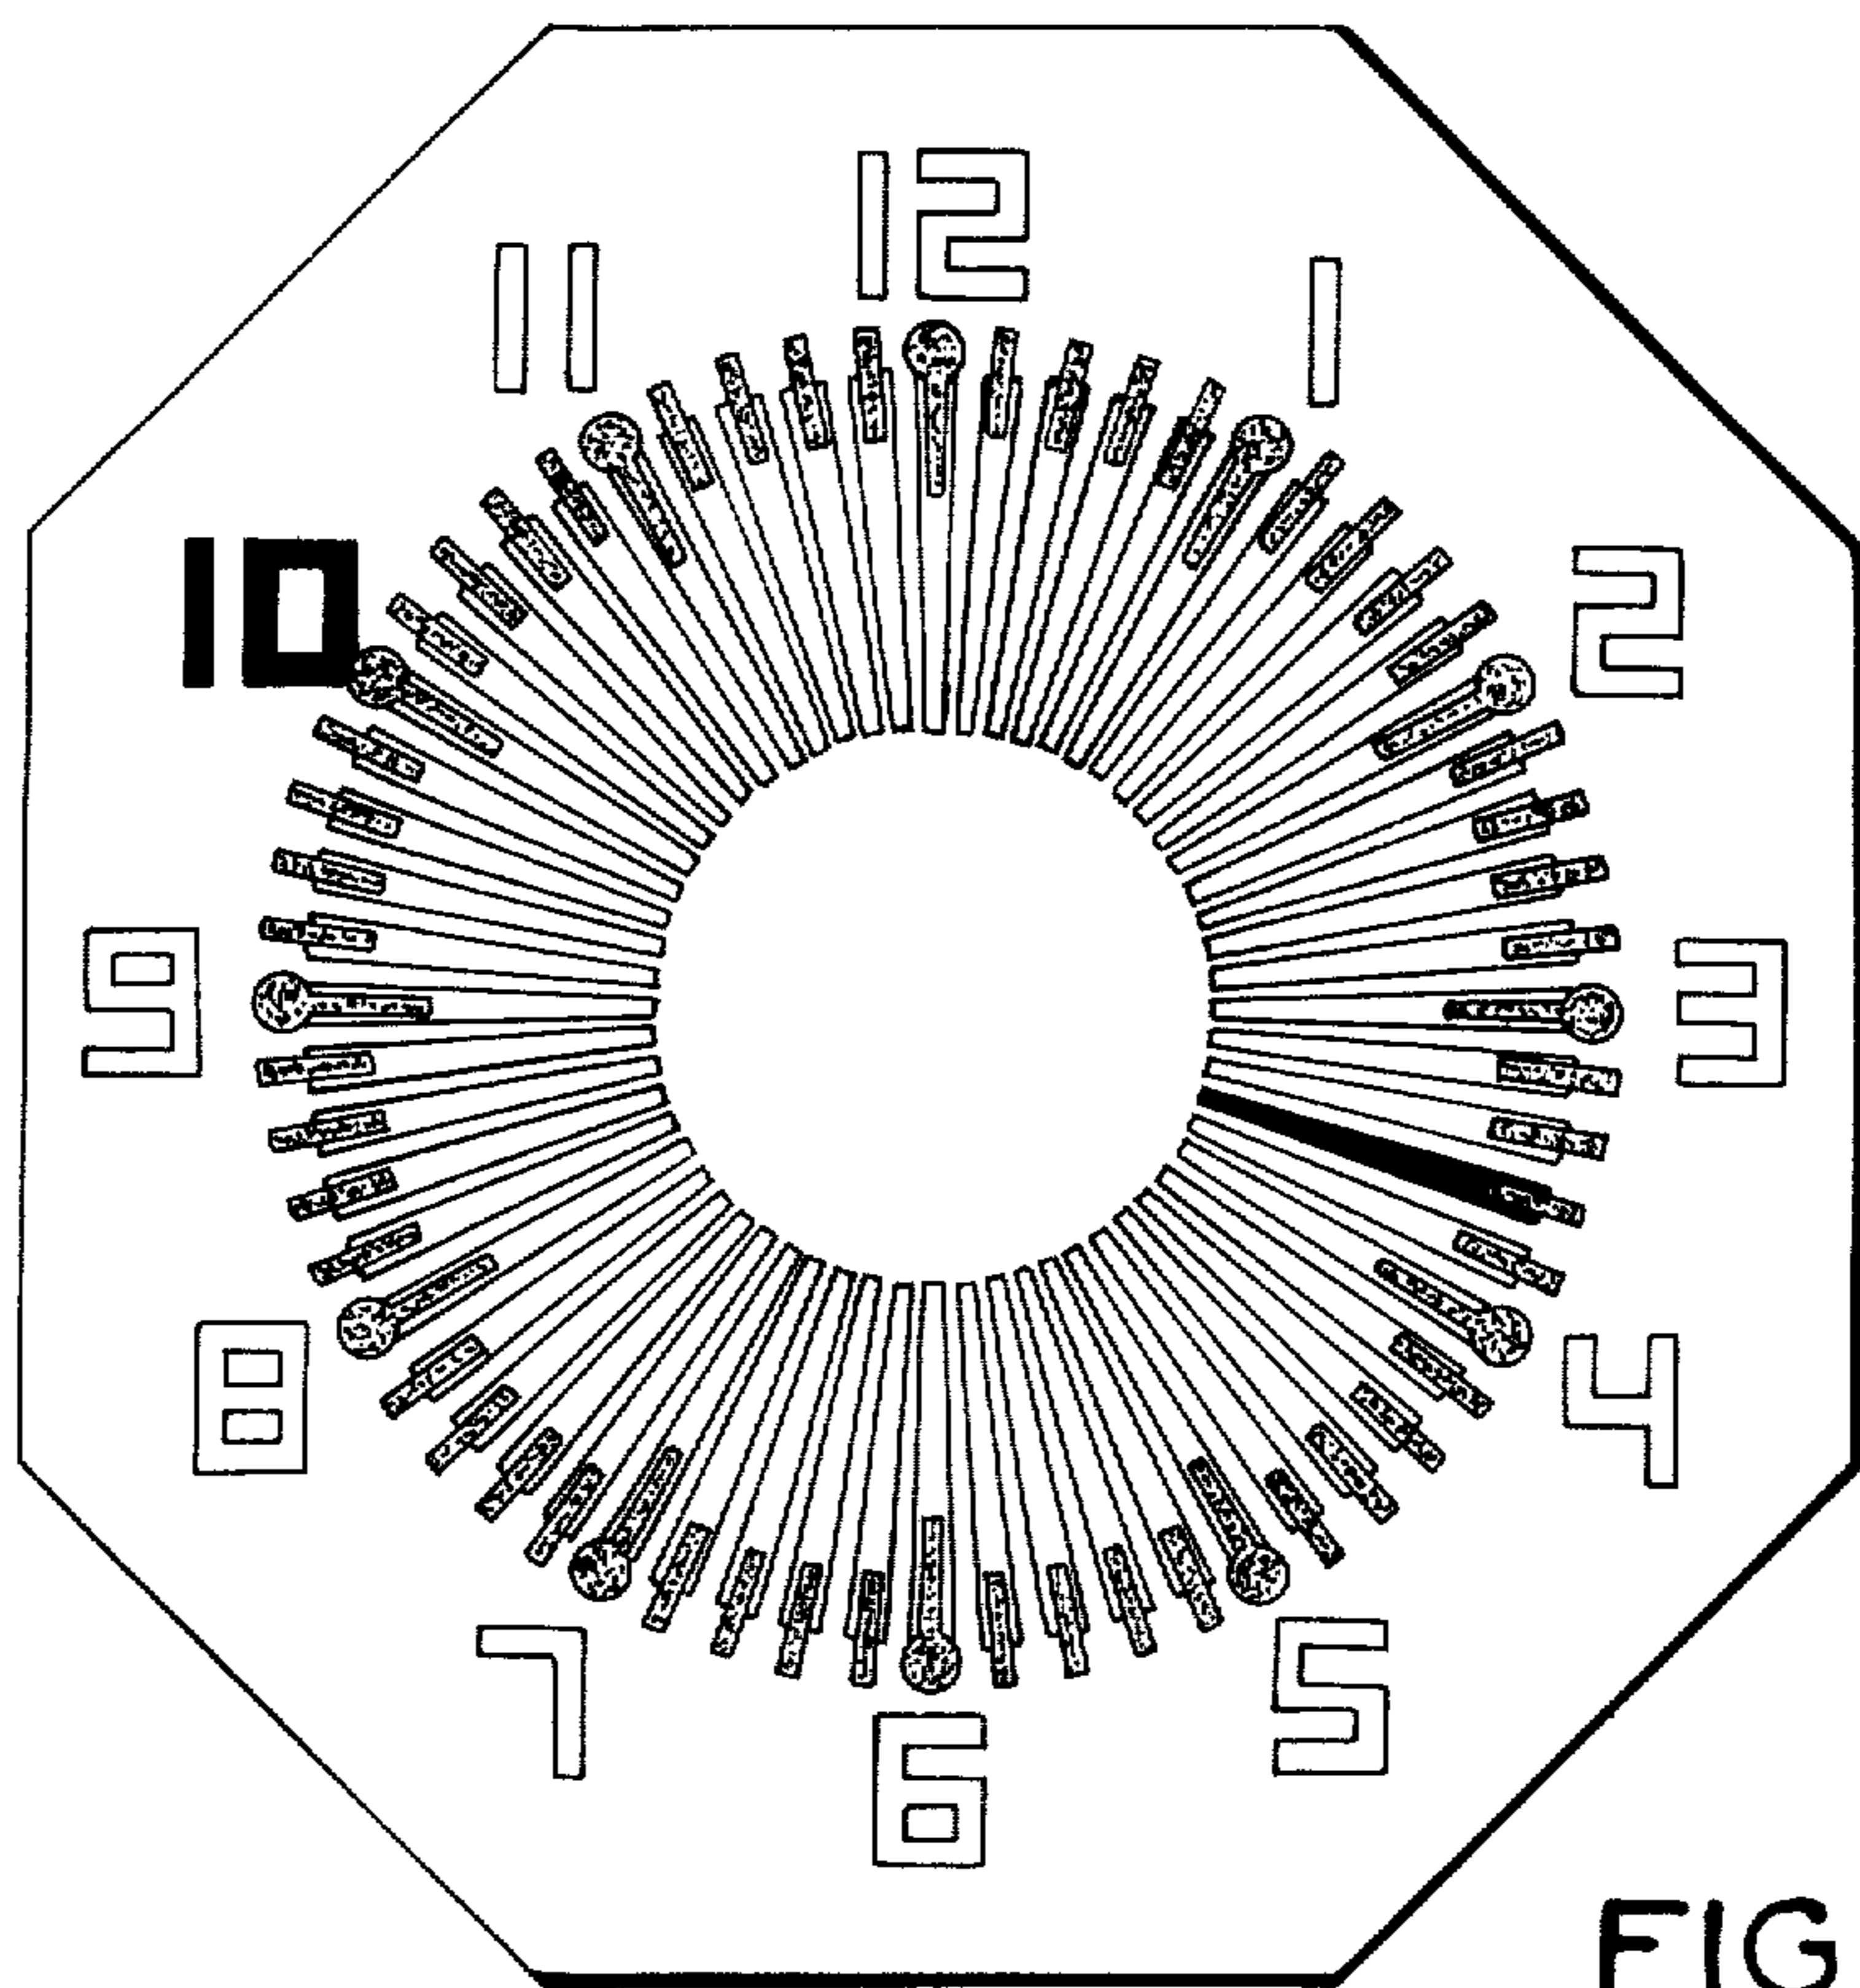

FIG. 2
