## [57] CLAIM

The ornamental design for a portable screening plant, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective view of the front and hitch end of all embodiments of my portable screening plant; FIG. 2 is a top view of a first embodiment of the screening plant of FIG. 1;

FIG. 3 is a rear elevational view of the embodiment of FIG. 2 showing the underside of the screen;

FIG. 4 is an elevational view of the hitch end of the screening plant of FIG. 1;

FIG. 5 is an elevational view of the wheel end of the embodiment of FIG. 2;

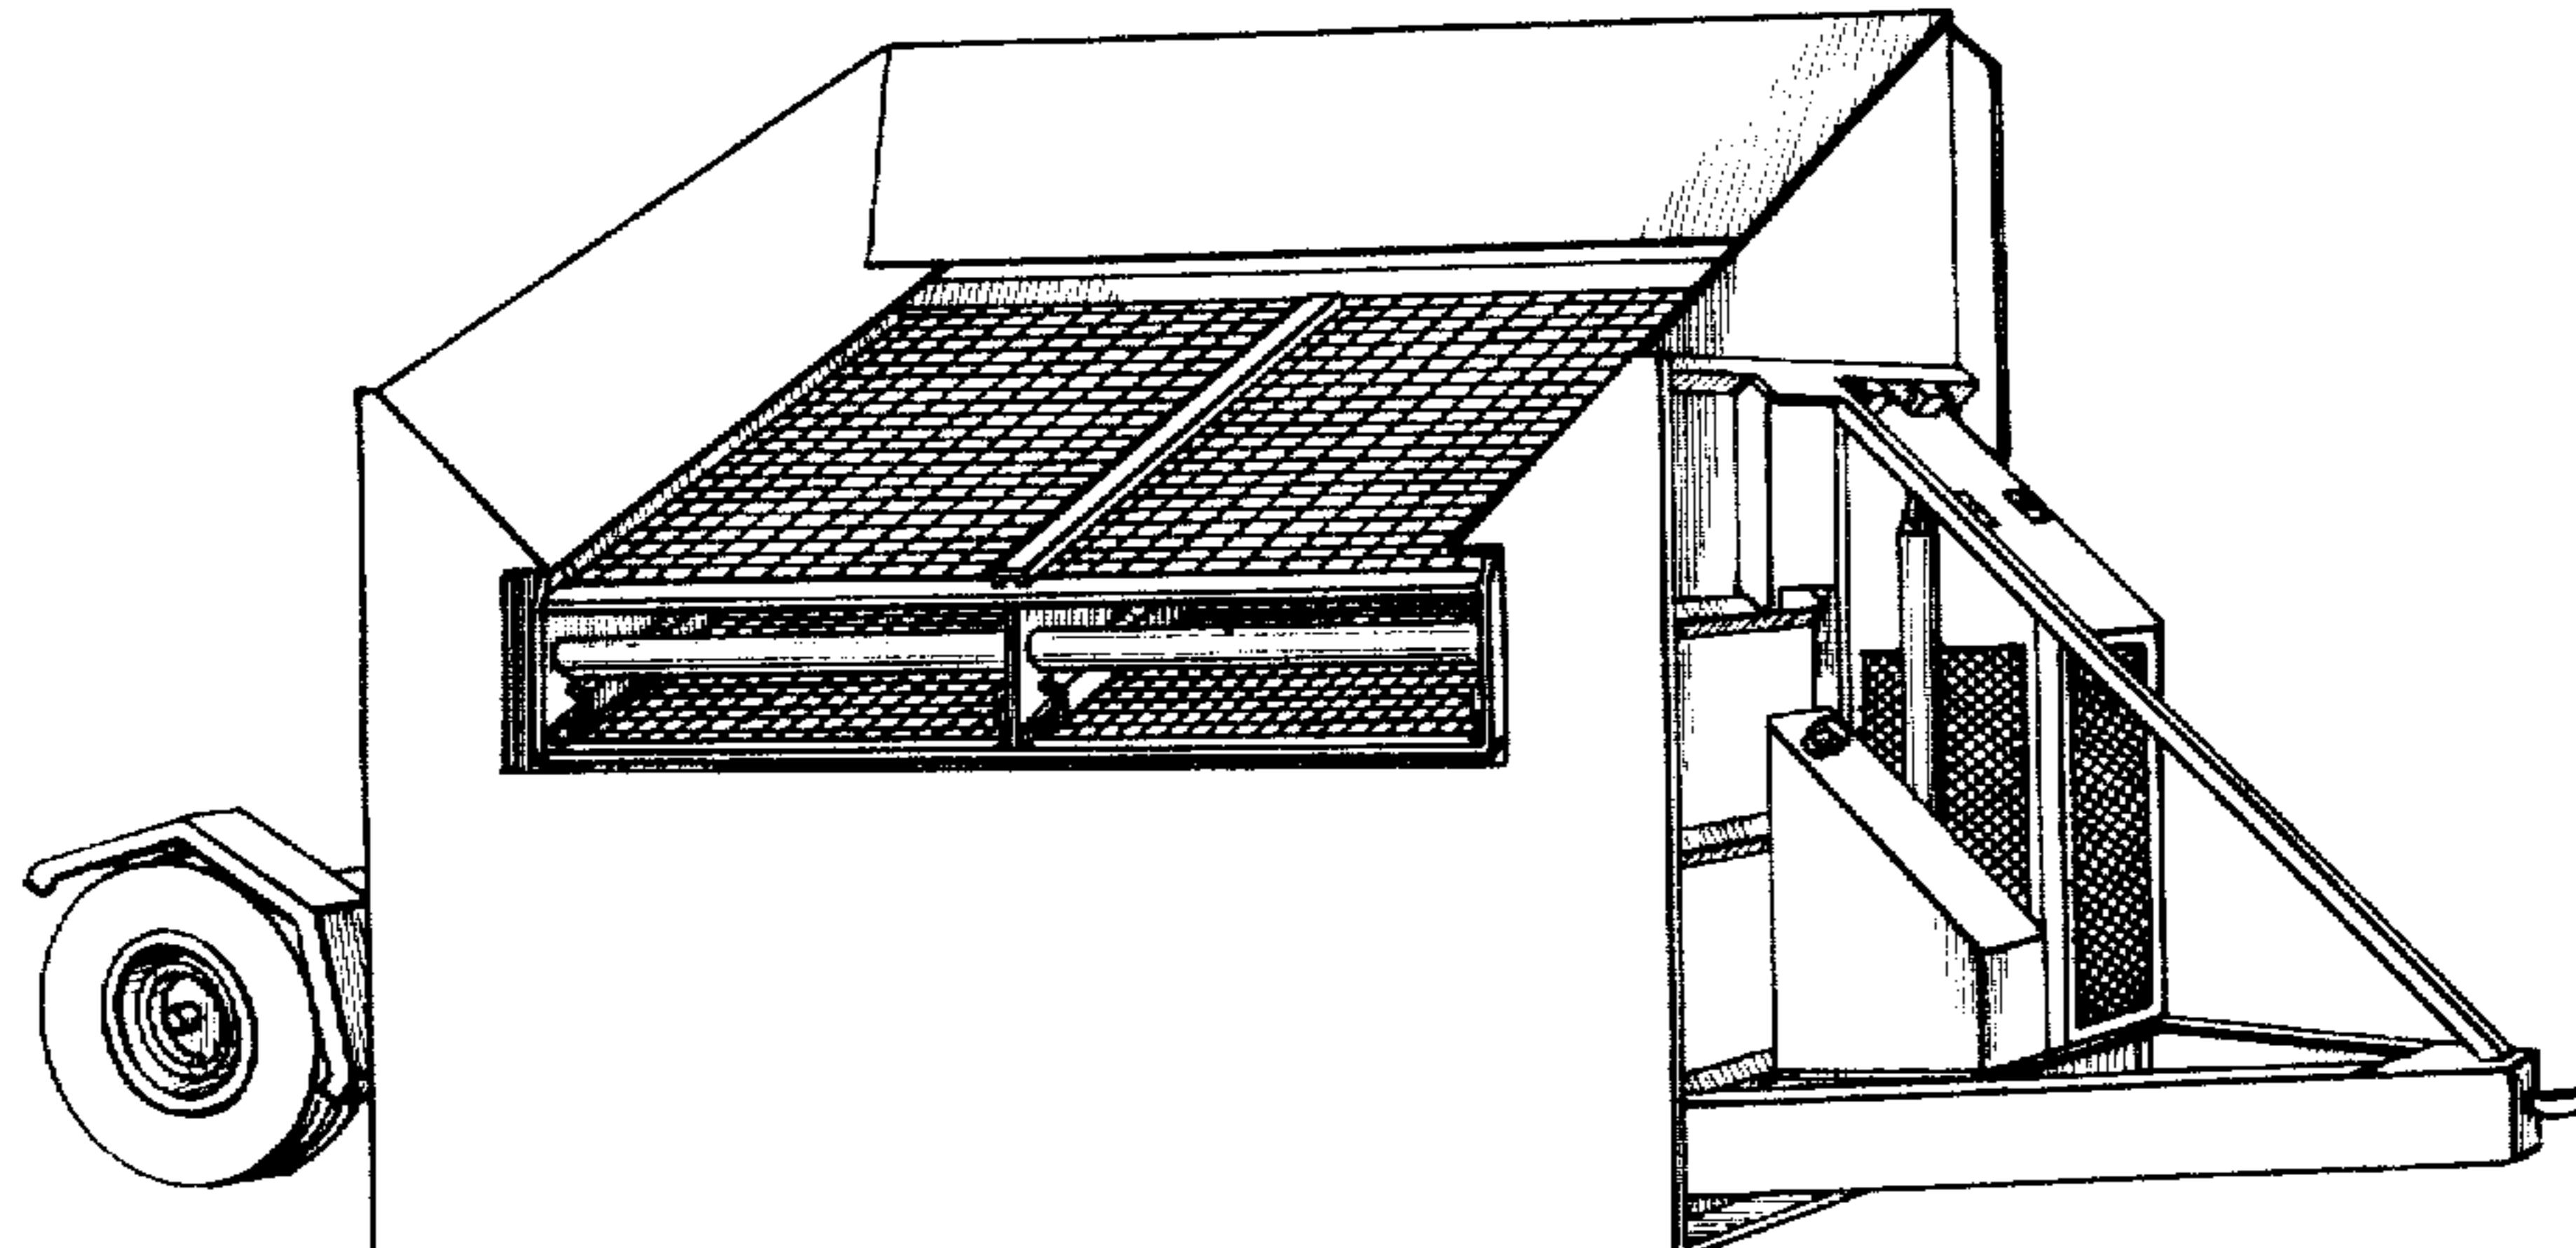

FIG. 6 is a perspective view of the rear and wheel end of the embodiment of FIG. 2 with the screening plant in a raised position in which it is supported by the wheels; FIG. 7 is a perspective view similar to FIG. 1 but with the screening plant in a raised position in which it is supported by the wheels;

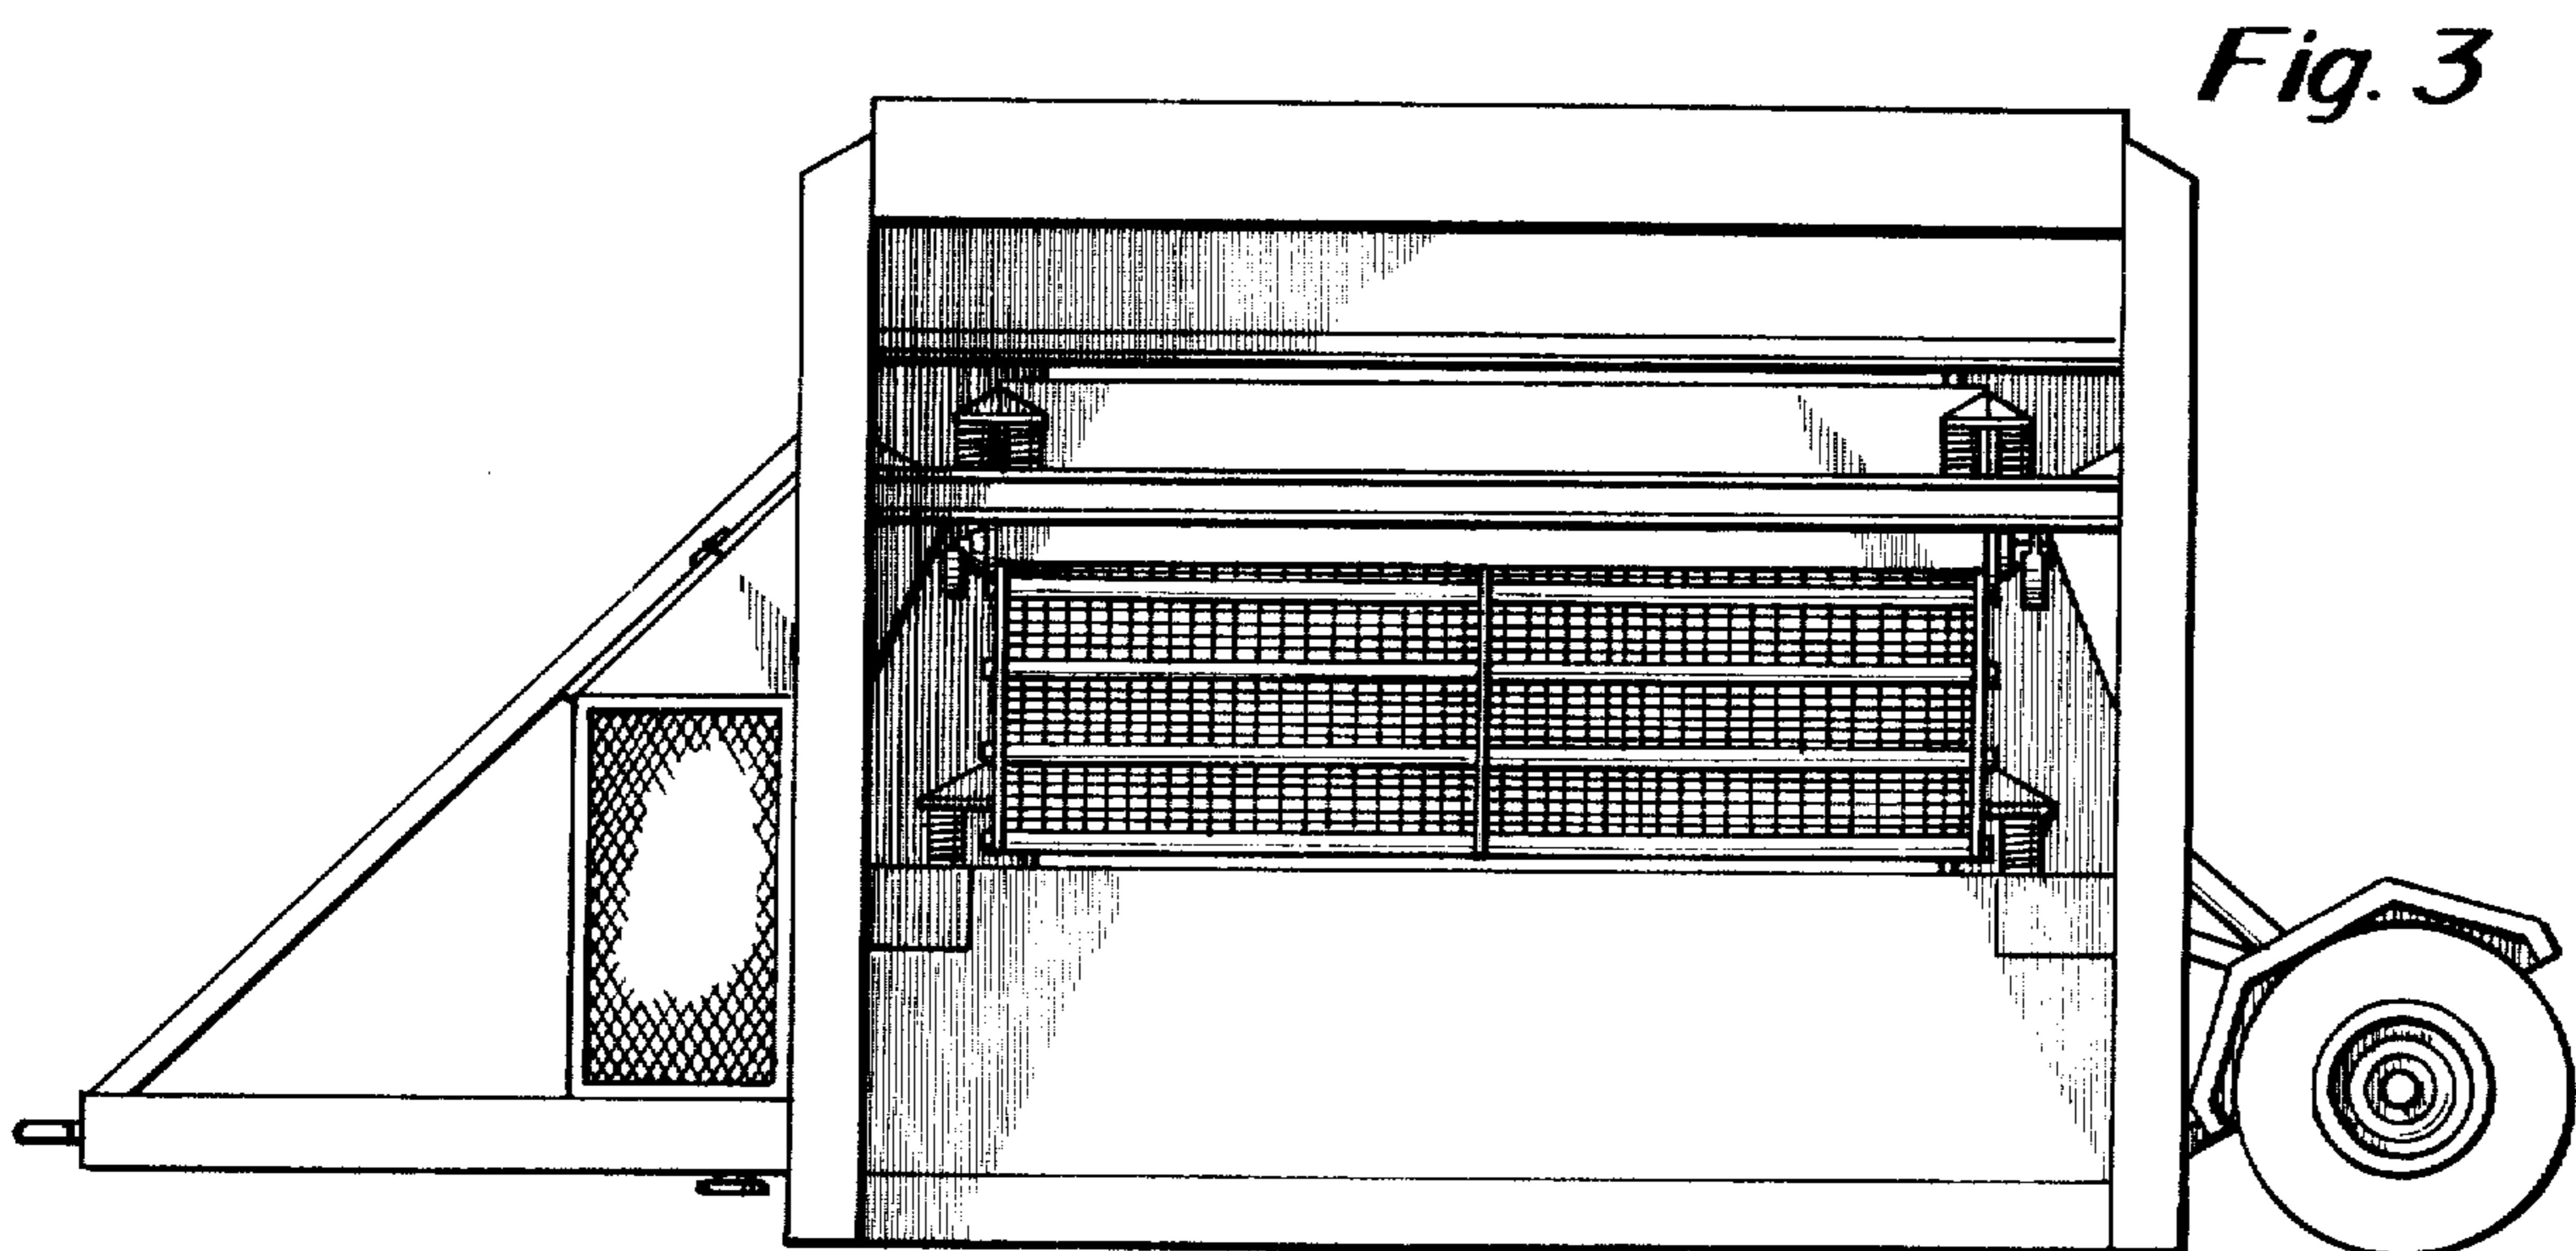

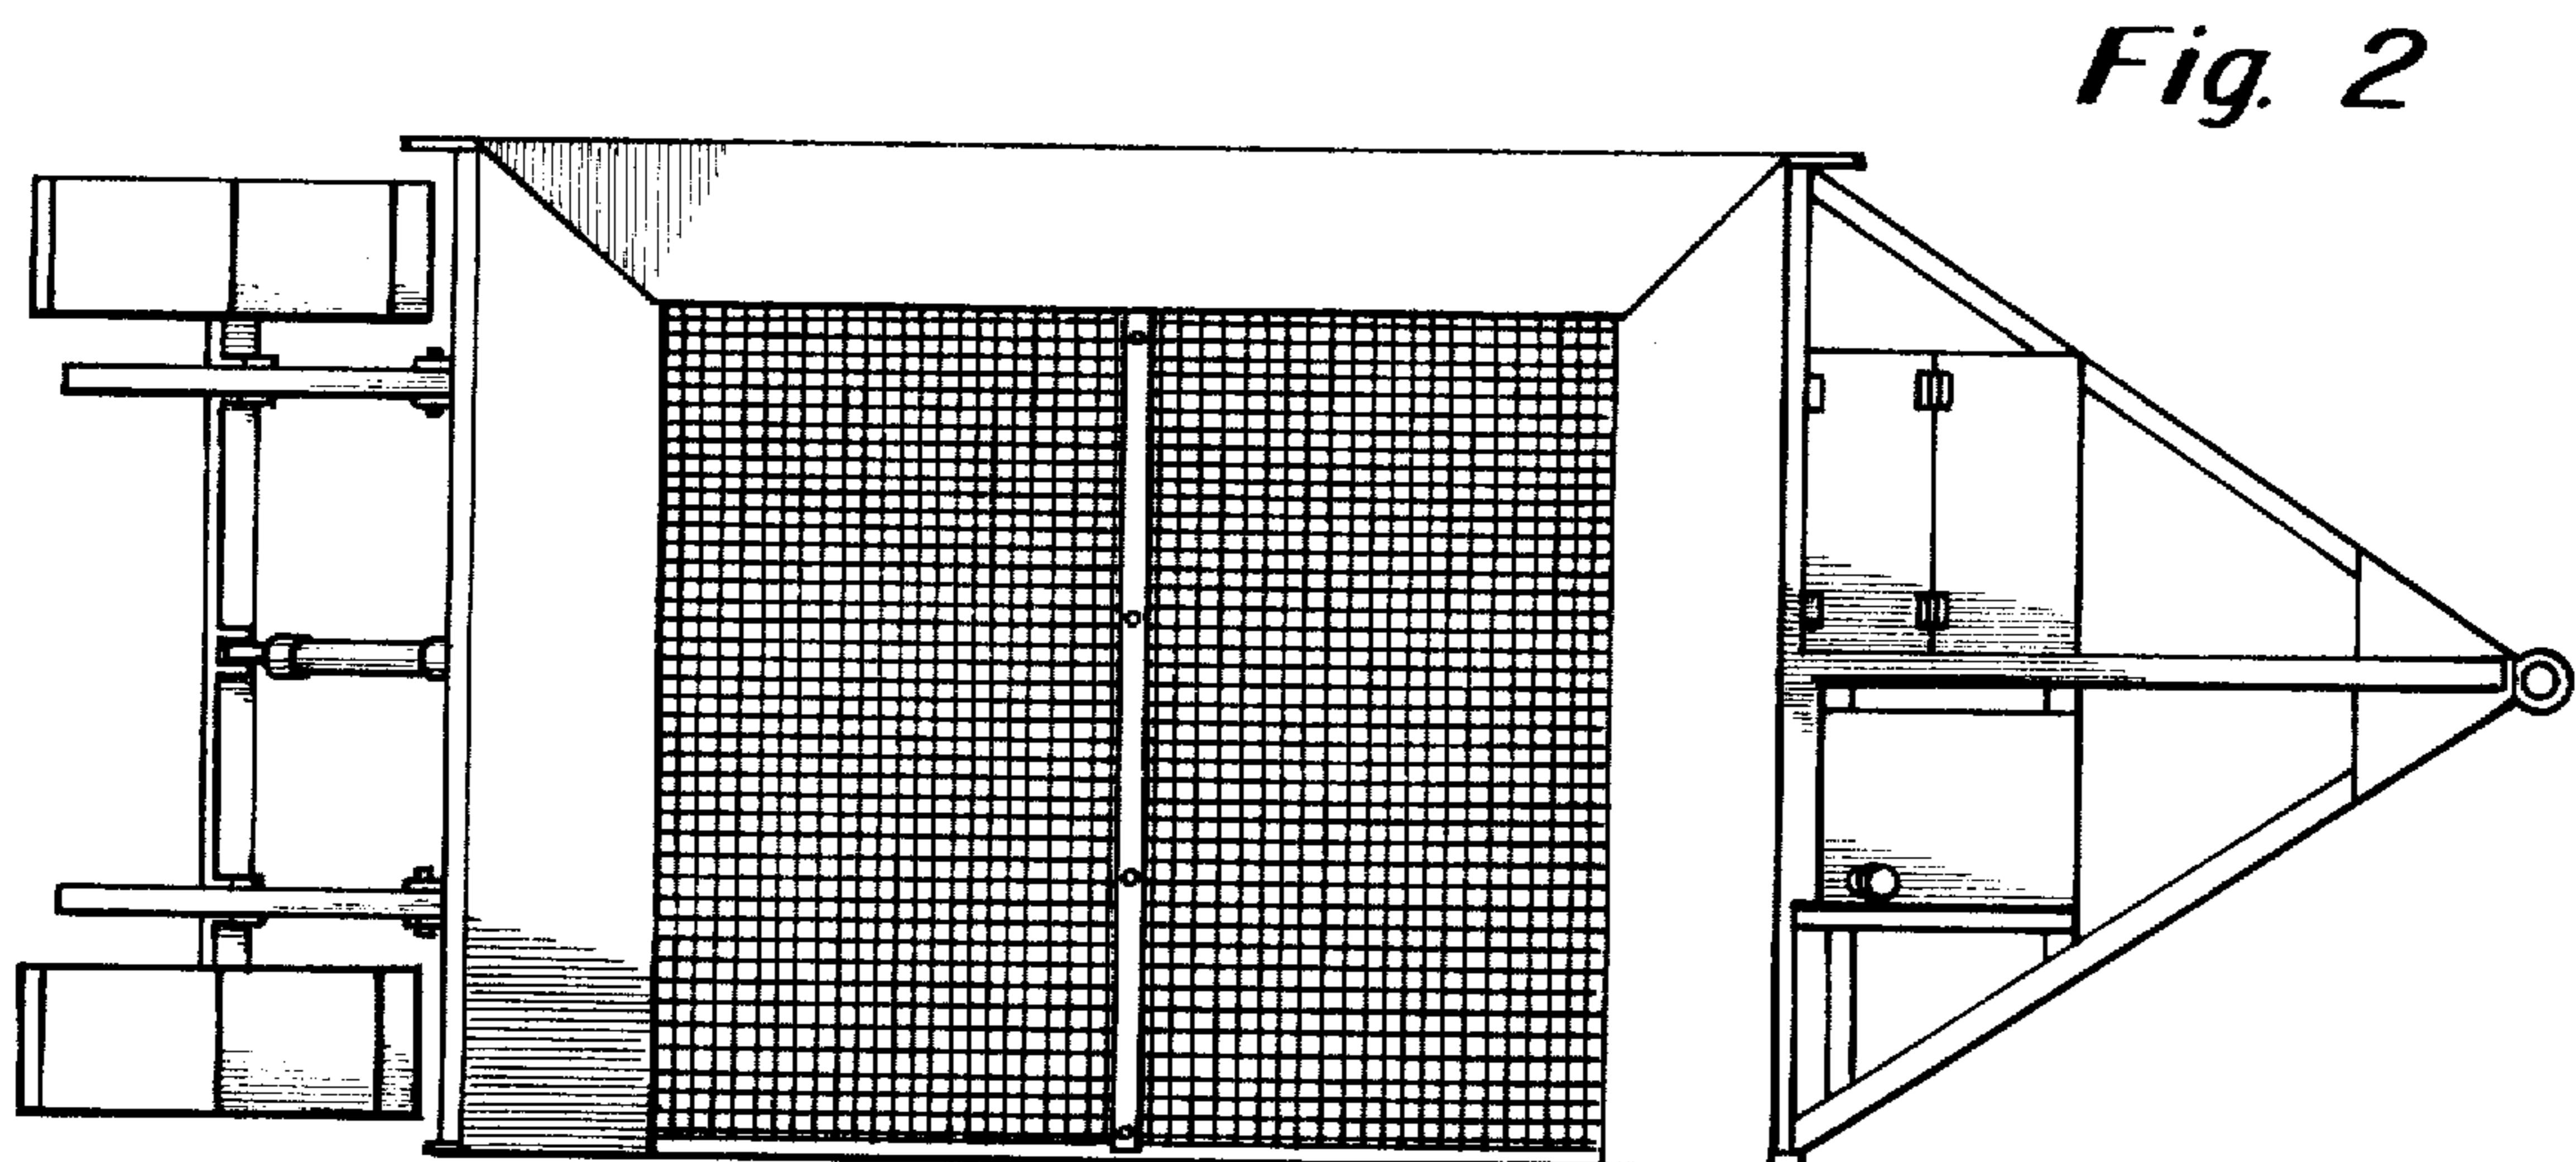

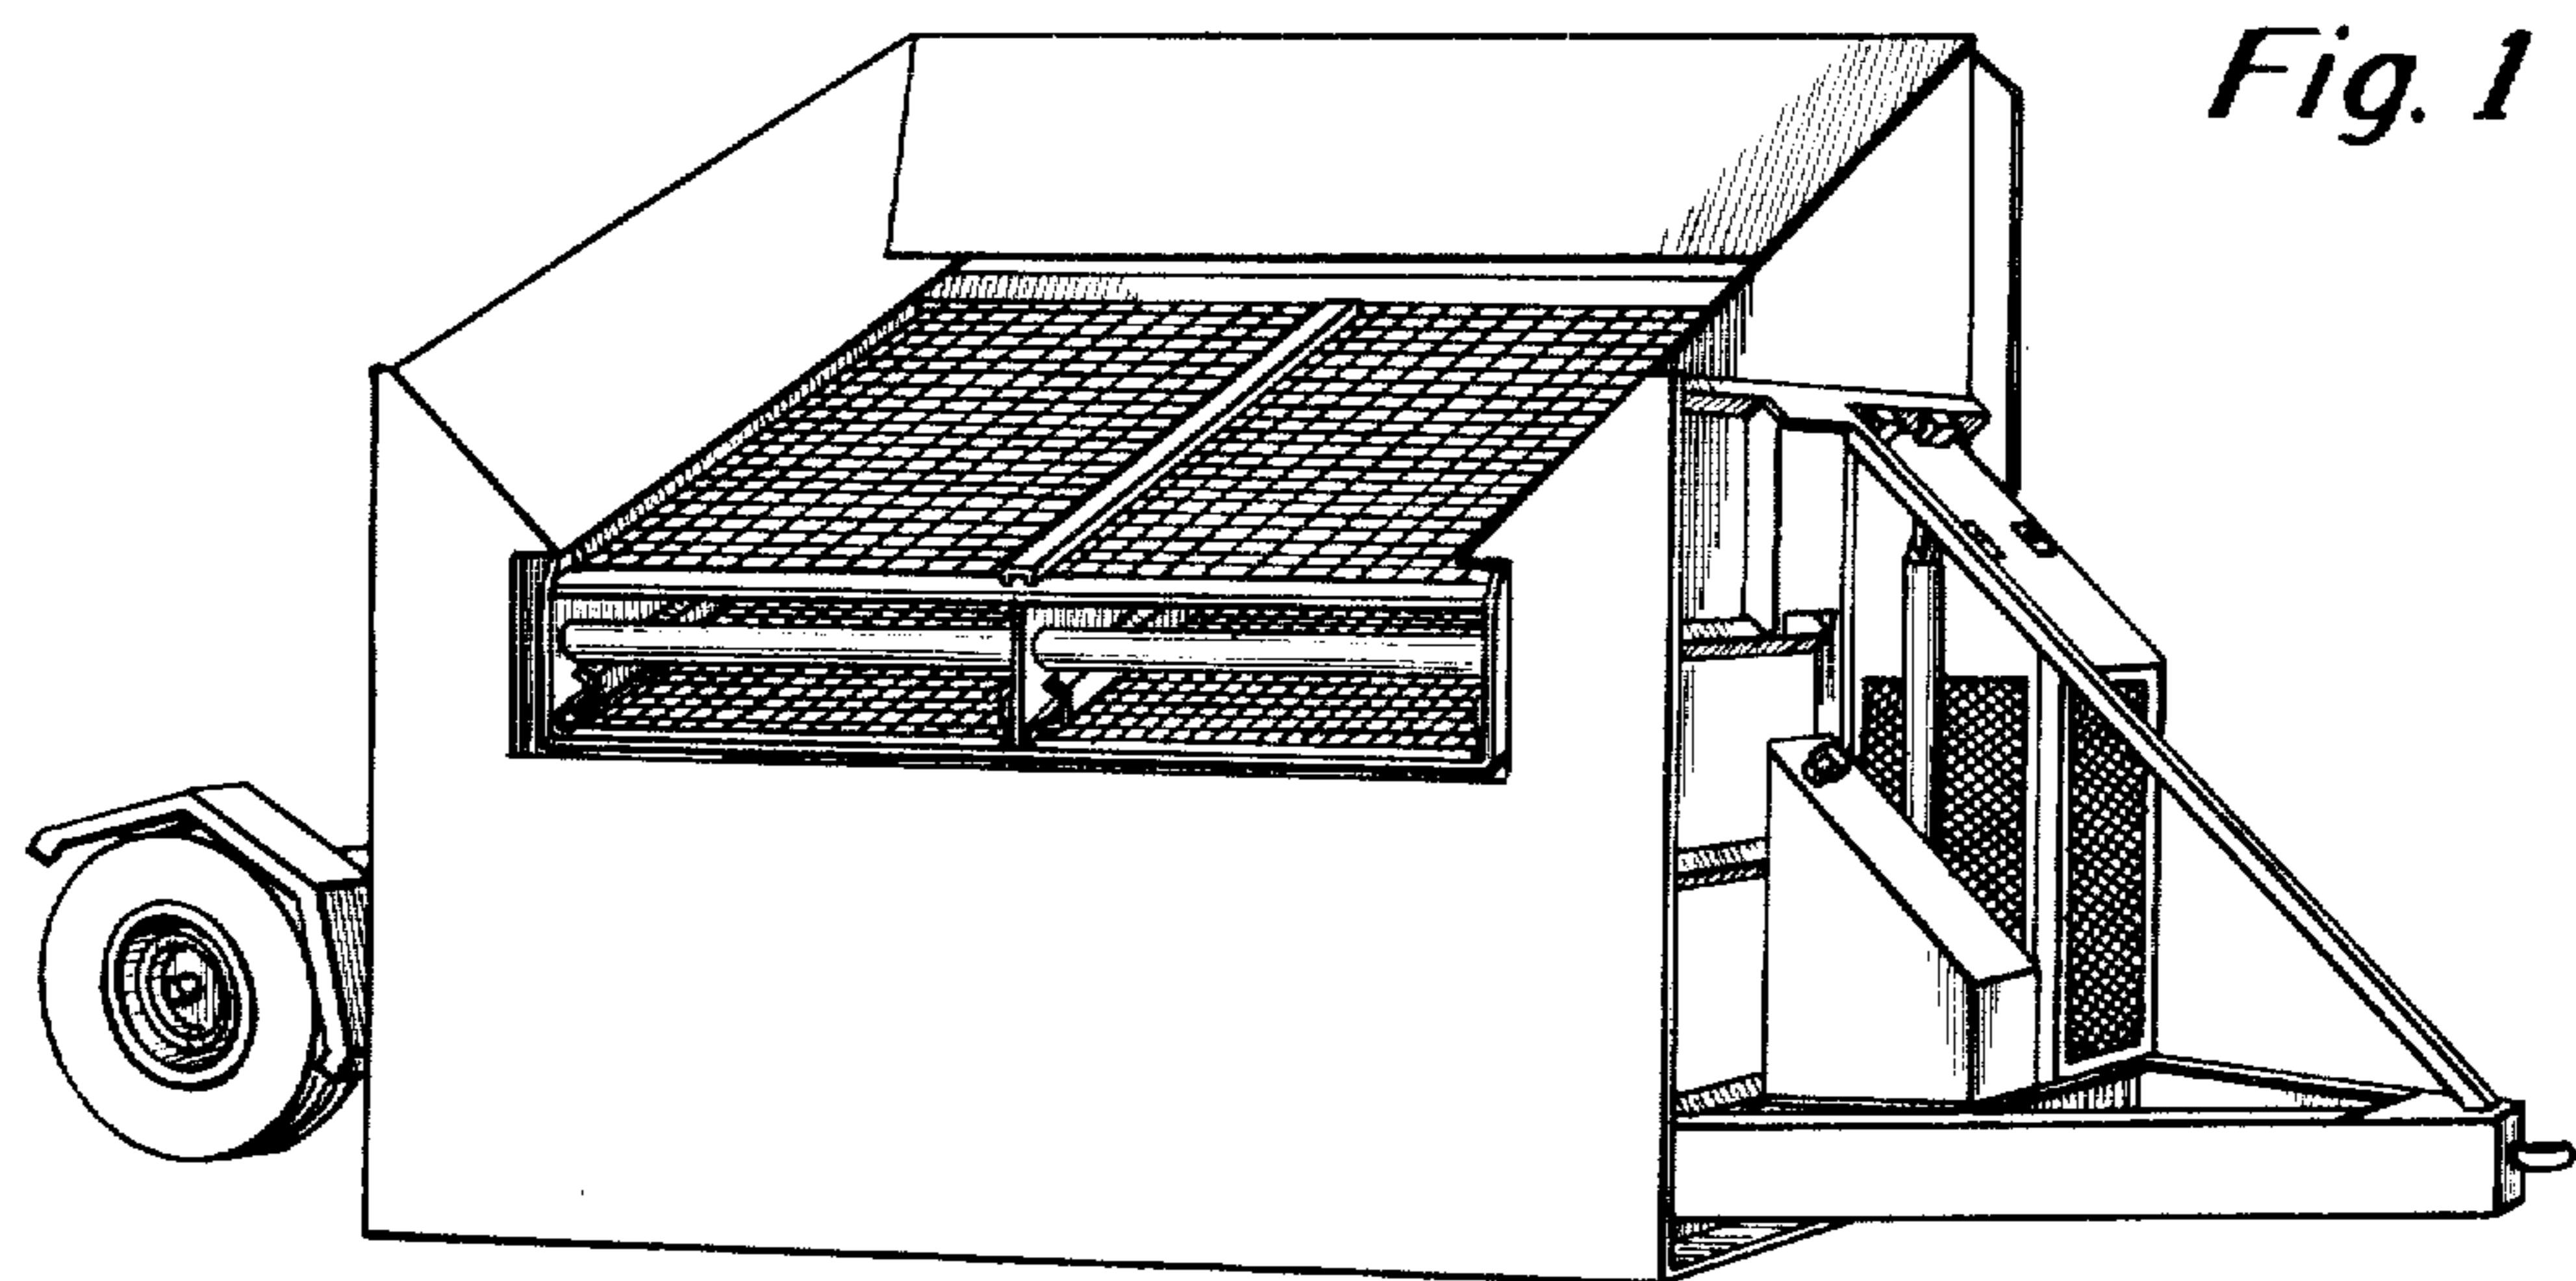

FIG. 8 is a top view of an alternative embodiment of the screening plant suitable for use with an outfeed conveyor through the wheel end;

FIG. 9 is a rear elevational view of the embodiment of FIG. 8 showing a hopper within the plant and below the screen;

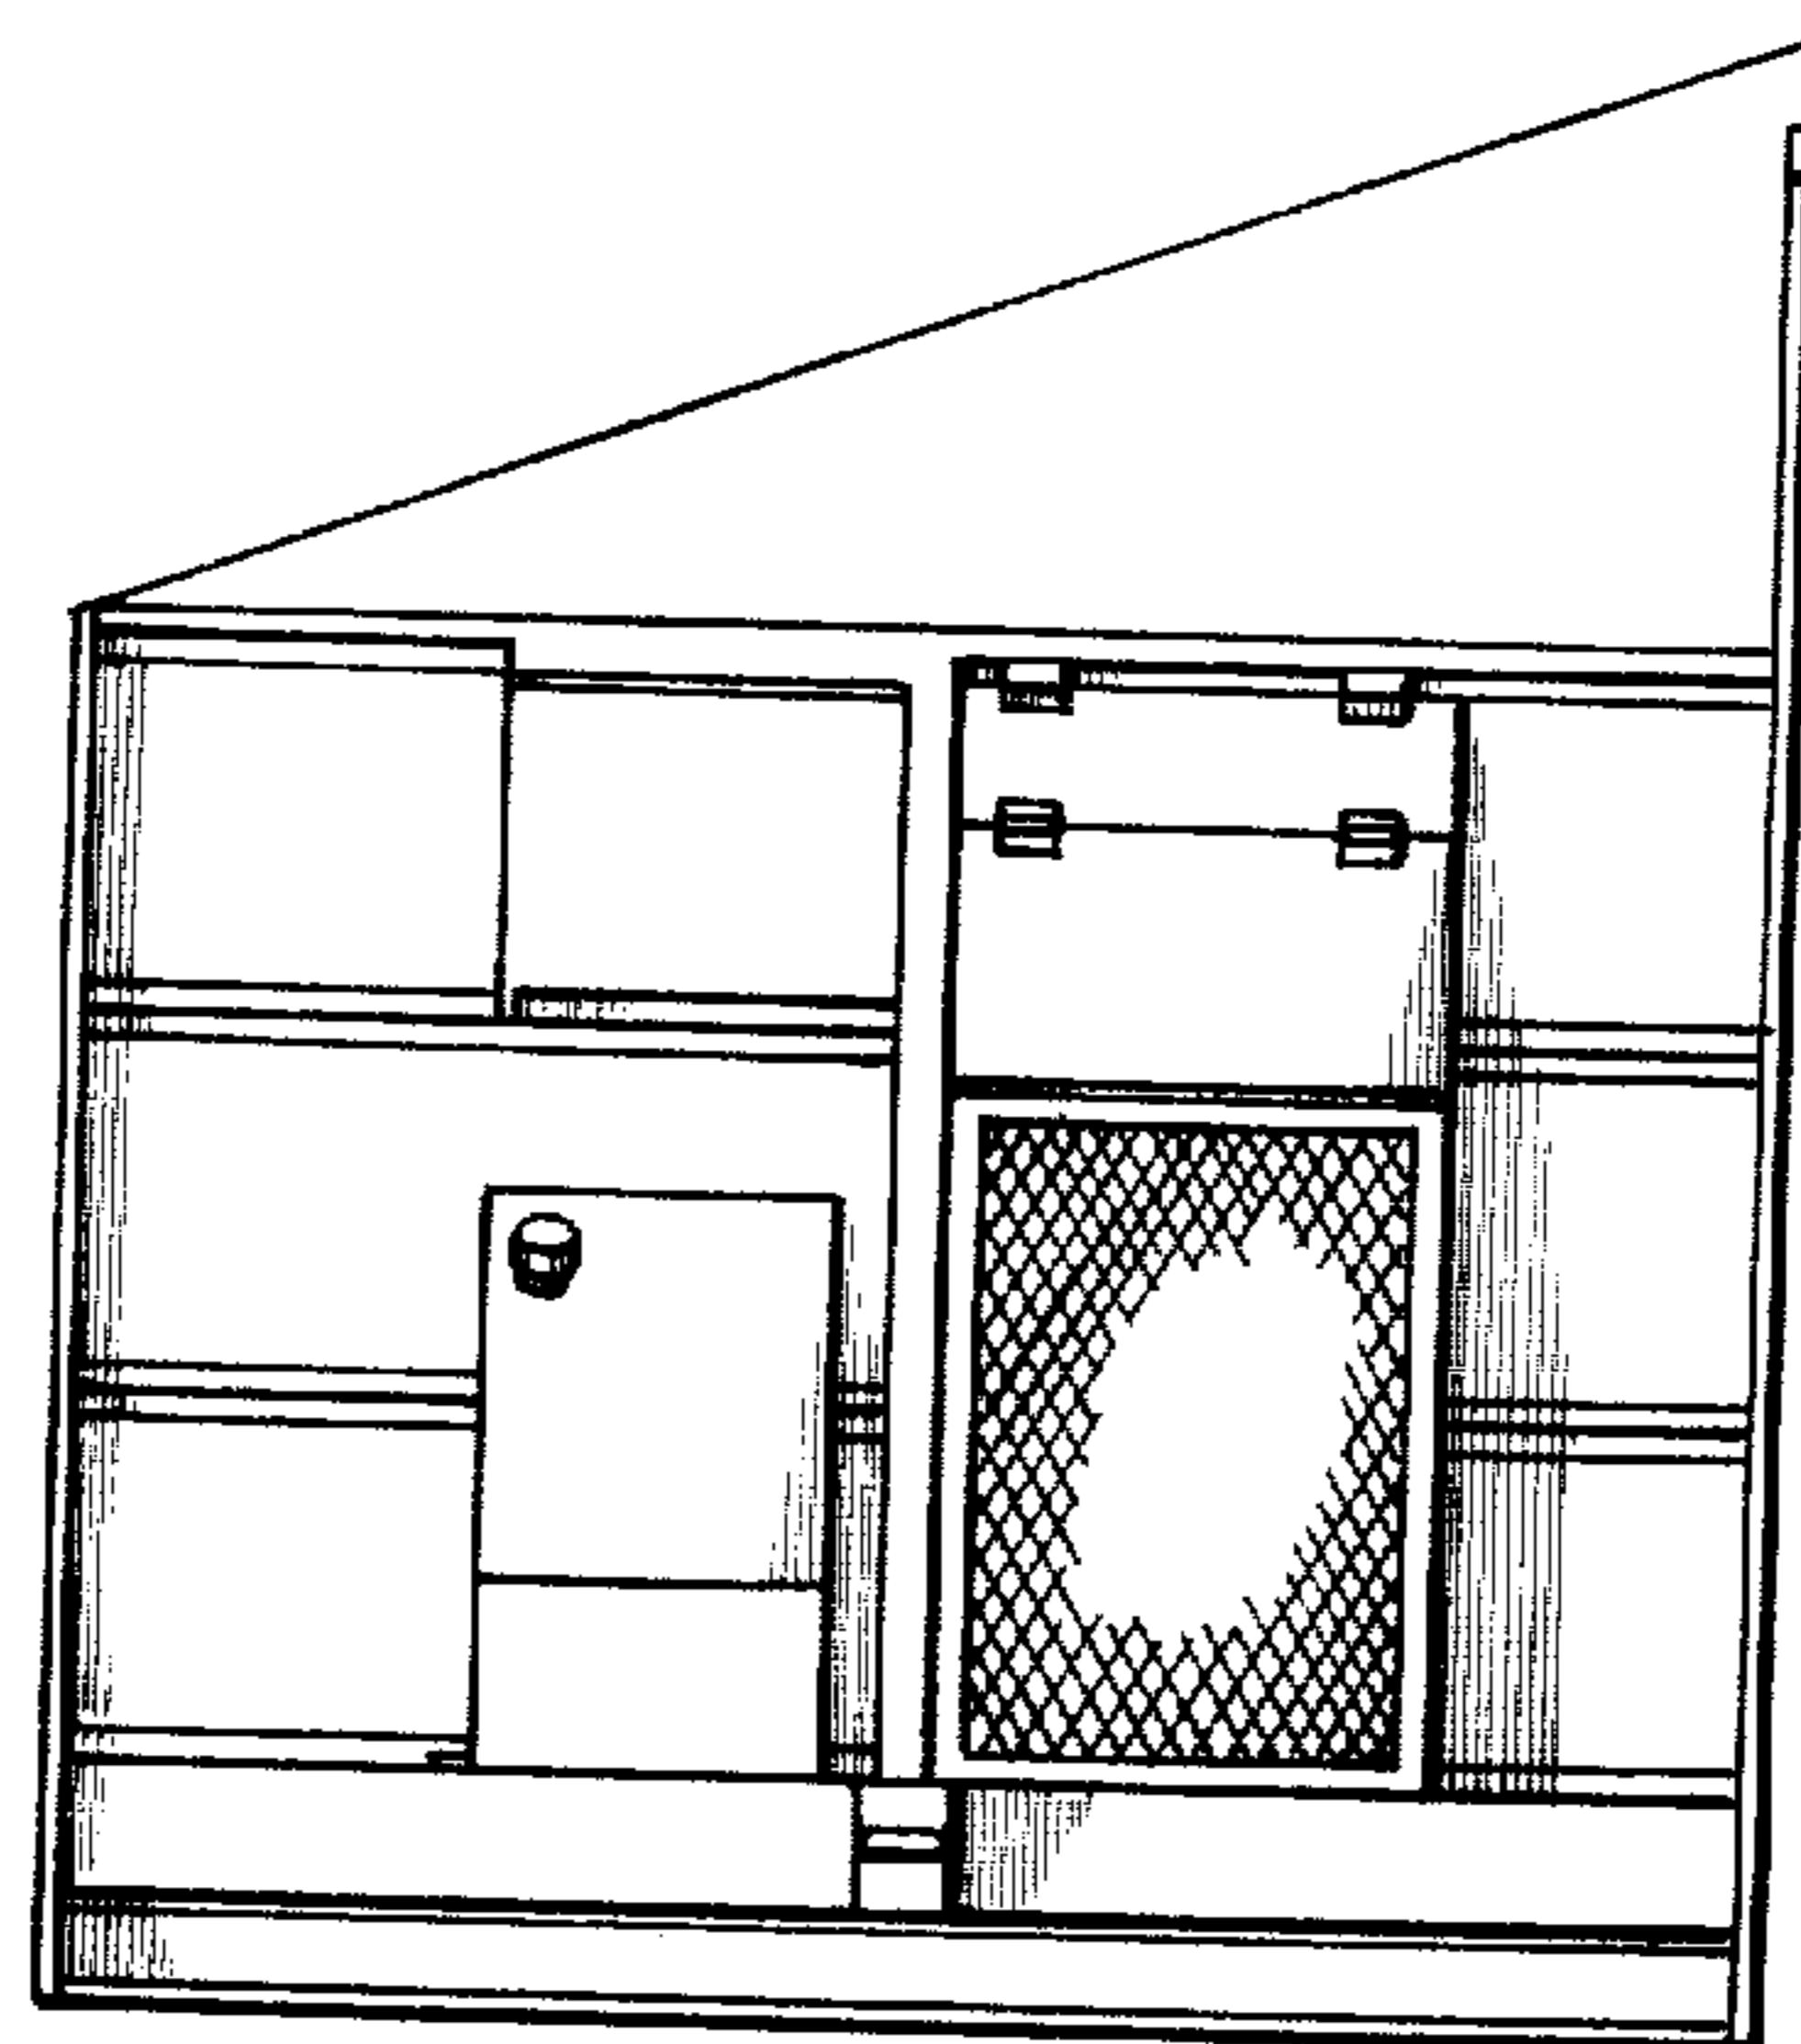

FIG. 10 is a wheel end elevational view of the embodiment of FIG. 8 showing a conveyor-opening over the wheel axle;

FIG. 11 is a rear perspective view of a third embodiment of the screening plant suitable for use with an outfeed conveyor but with a higher conveyor-opening toward the rear of the wheel end and with the rear partially closed.
