[57] **CLAIM**

The ornamental design for a slow pitch softball pitcher's aid, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the top, left, and rearward directions of a first embodiment of our new design for "slow pitch softball pitcher's aid"; FIG. 2 is a perspective view taken from the top, left, and rearward directions of a second embodiment of our new design for "slow pitch softball pitcher's aid"; FIG. 3 is a perspective view taken from the top, left, and rearward directions of a third embodiment of our new design for "slow pitch softball pitcher's aid"; FIG. 4 is a frontal elevational view of the first, the second, and the third embodiments; FIG. 5 is a bottom plan view of the first, the second, and the third embodiments; FIG. 6 is a sectional elevational view taken along lines 6-6 of FIGS. 1, 2, and 3, and common to the first, the second, and the third embodiments of our new design; FIG. 7 is a left side elevational view of our first embodiment, the right side elevational view (not shown) being a mirror image; FIG. 8 is a left side elevational view of our second embodiment, the right side elevational view (not shown) being a mirror image; FIG. 9 is a left side elevational view of our third embodiment, the right side elevational view (not shown) being a mirror image thereof; and FIG. 10 is a rearward elevational view of our second and third embodiments.
