[57] **CLAIM**

The ornamental design of an adjustable, detachable handle suitable for use on wheeled hospital-type IV stands and the like, substantially as shown and described.

DESCRIPTION

FIG. 1 is an isometric view taken from the top, the rear and one side of an adjustable, detachable handle suitable for use on wheeled, hospital-type IV stands and the like, showing my new design;

FIG. 2 is an enlarged isometric view from the top, the front and one side thereof;

FIG. 3 is a side elevational view thereof taken from the side opposite that from which FIG. 2 is taken;

FIG. 4 is an isometric view thereof taken from below, the rear and from the same side as that from which FIG. 2 is taken; and,

FIG. 5 is a side view thereof in collapsed condition, the view being taken from the same side as that from which FIG. 3 is taken.

The dotted lines are shown for purposes of illustration of invention only.

FIG. 5
