[57] CLAIM

The ornamental design for a face plate for electrical switches, receptables or the like, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective of a face plate for electrical switches, receptacles or the like showing our new design, as embodied in a single switch plate;
FIG. 2 is a front elevational view of FIG. 1, the rear being flat and unornamented;
FIG. 3 is a side elevational view taken from the left of FIG. 2;
FIG. 4 is a top plan view of FIG. 1;
FIG. 5 is a bottom plan view of FIG. 1;
FIG. 6 is a second embodiment of the design of FIG. 1 as embodied in a double switch plate, the only differences being the increase in width and duplication of the recessed areas and apertures;
FIG. 7 is a third embodiment of the design of FIG. 1 as embodied in a double receptacle plate, the only differences being the number and shape of the apertures.
