## [57] CLAIM

The ornamental design for a headlight bezel for motorcycle fairing, substantially as shown and described.

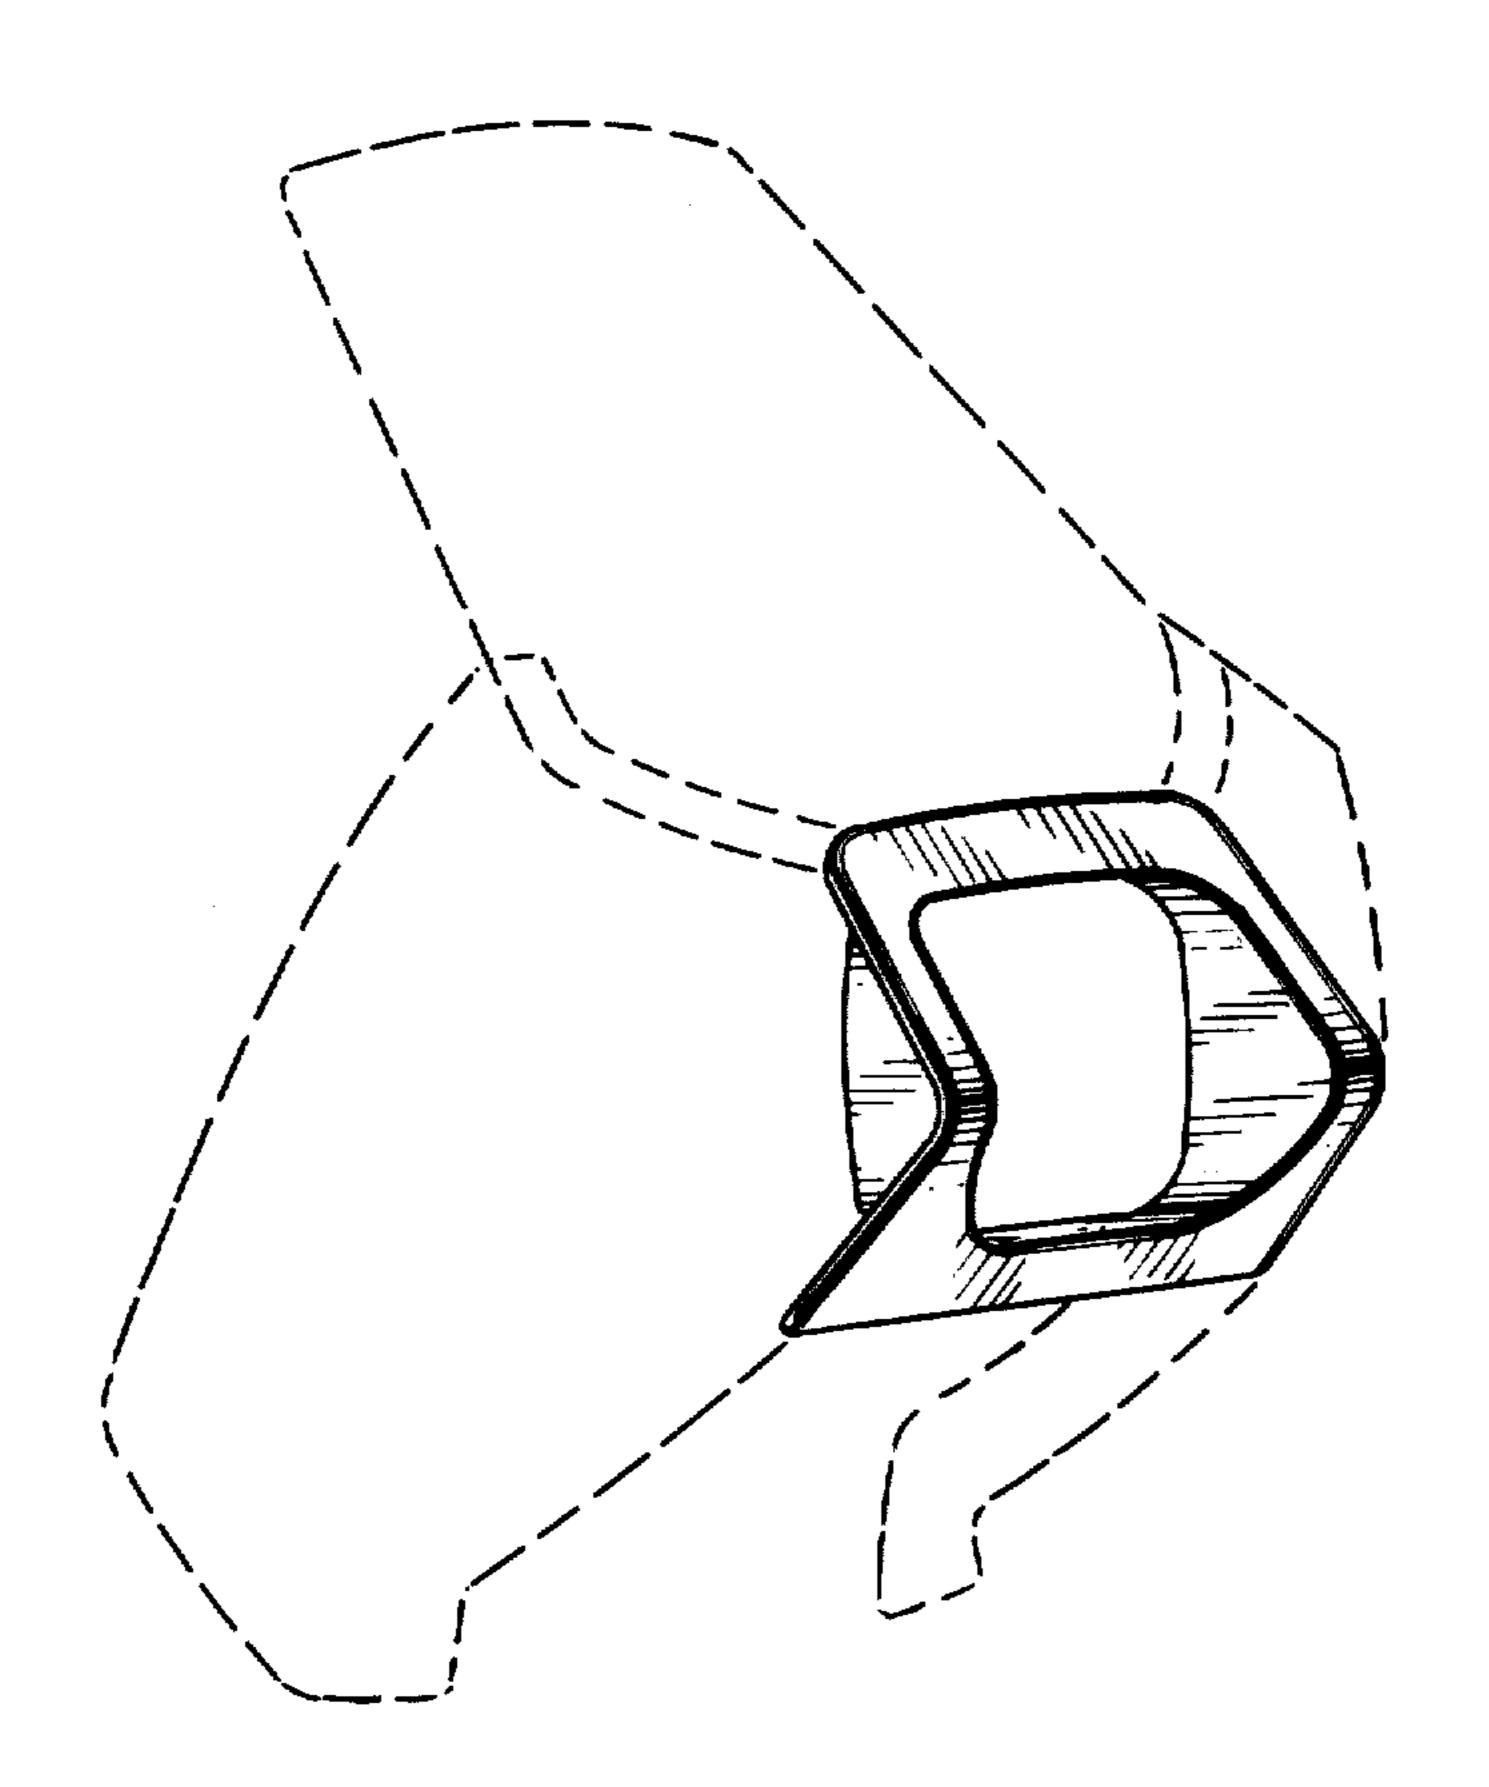

### **DESCRIPTION**

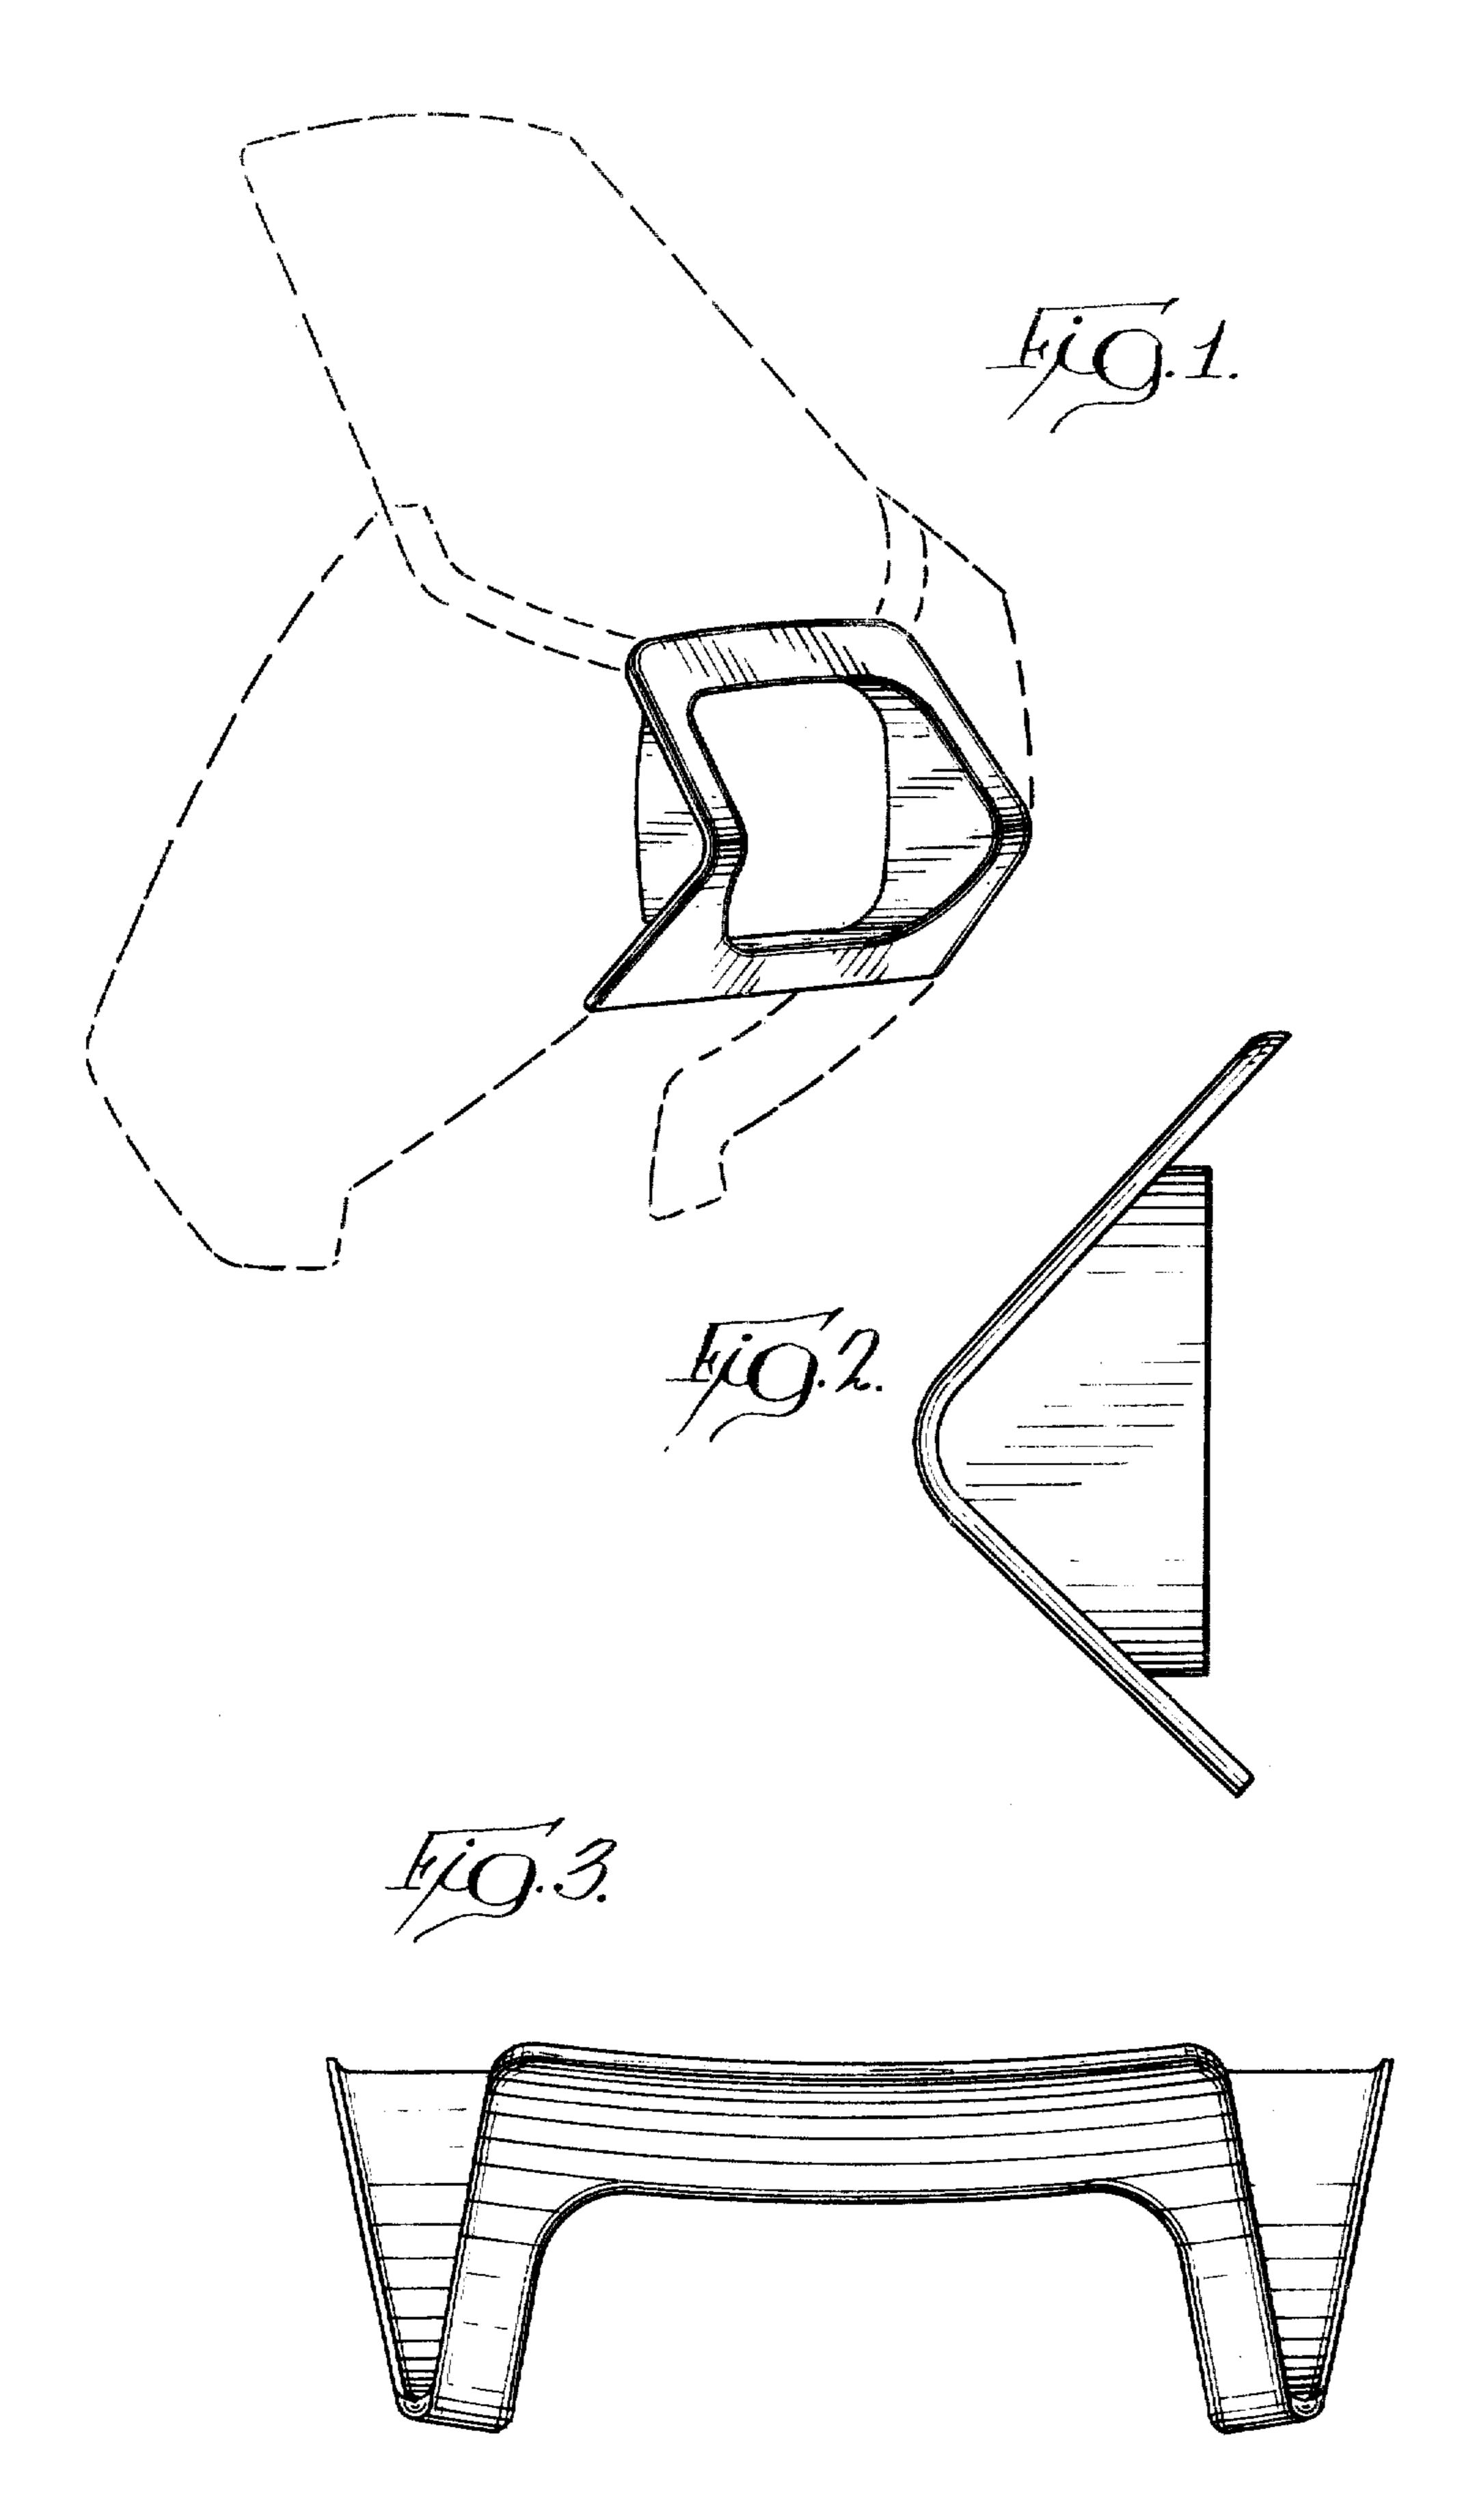

FIG. 1 is a left front perspective view of a headlight bezel for motorcycle fairing showing the new design; FIG. 2 is a right side elevational view thereof on an enlarged scale;

FIG. 3 is a top plan view thereof on an enlarged scale; FIG. 4 is a front elevational view thereof on an enlarged scale;

FIG. 5 is a rear elevational view thereof on an enlarged scale.

The fragmentary broken line representation of a portion of a motorcycle fairing shown in FIG. 1 illustrates the environment in which the fairing is used but forms no part of the design. The left side of the mask is a mirror image of FIG. 2.
