[57] CLAIM

The ornamental design for a sailboat instrument display panel, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a sailboat instrument panel showing my new design;  
FIG. 2 is a side elevational view thereof with the side opposite that shown being identical to the side shown in FIG. 2;  
FIG. 3 is a front elevational view of said sailboat instrument display panel;  
FIG. 4 is a rear elevational view of said sailboat instrument display panel; and  
FIG. 5 is a top plan view of said sailboat instrument display panel.

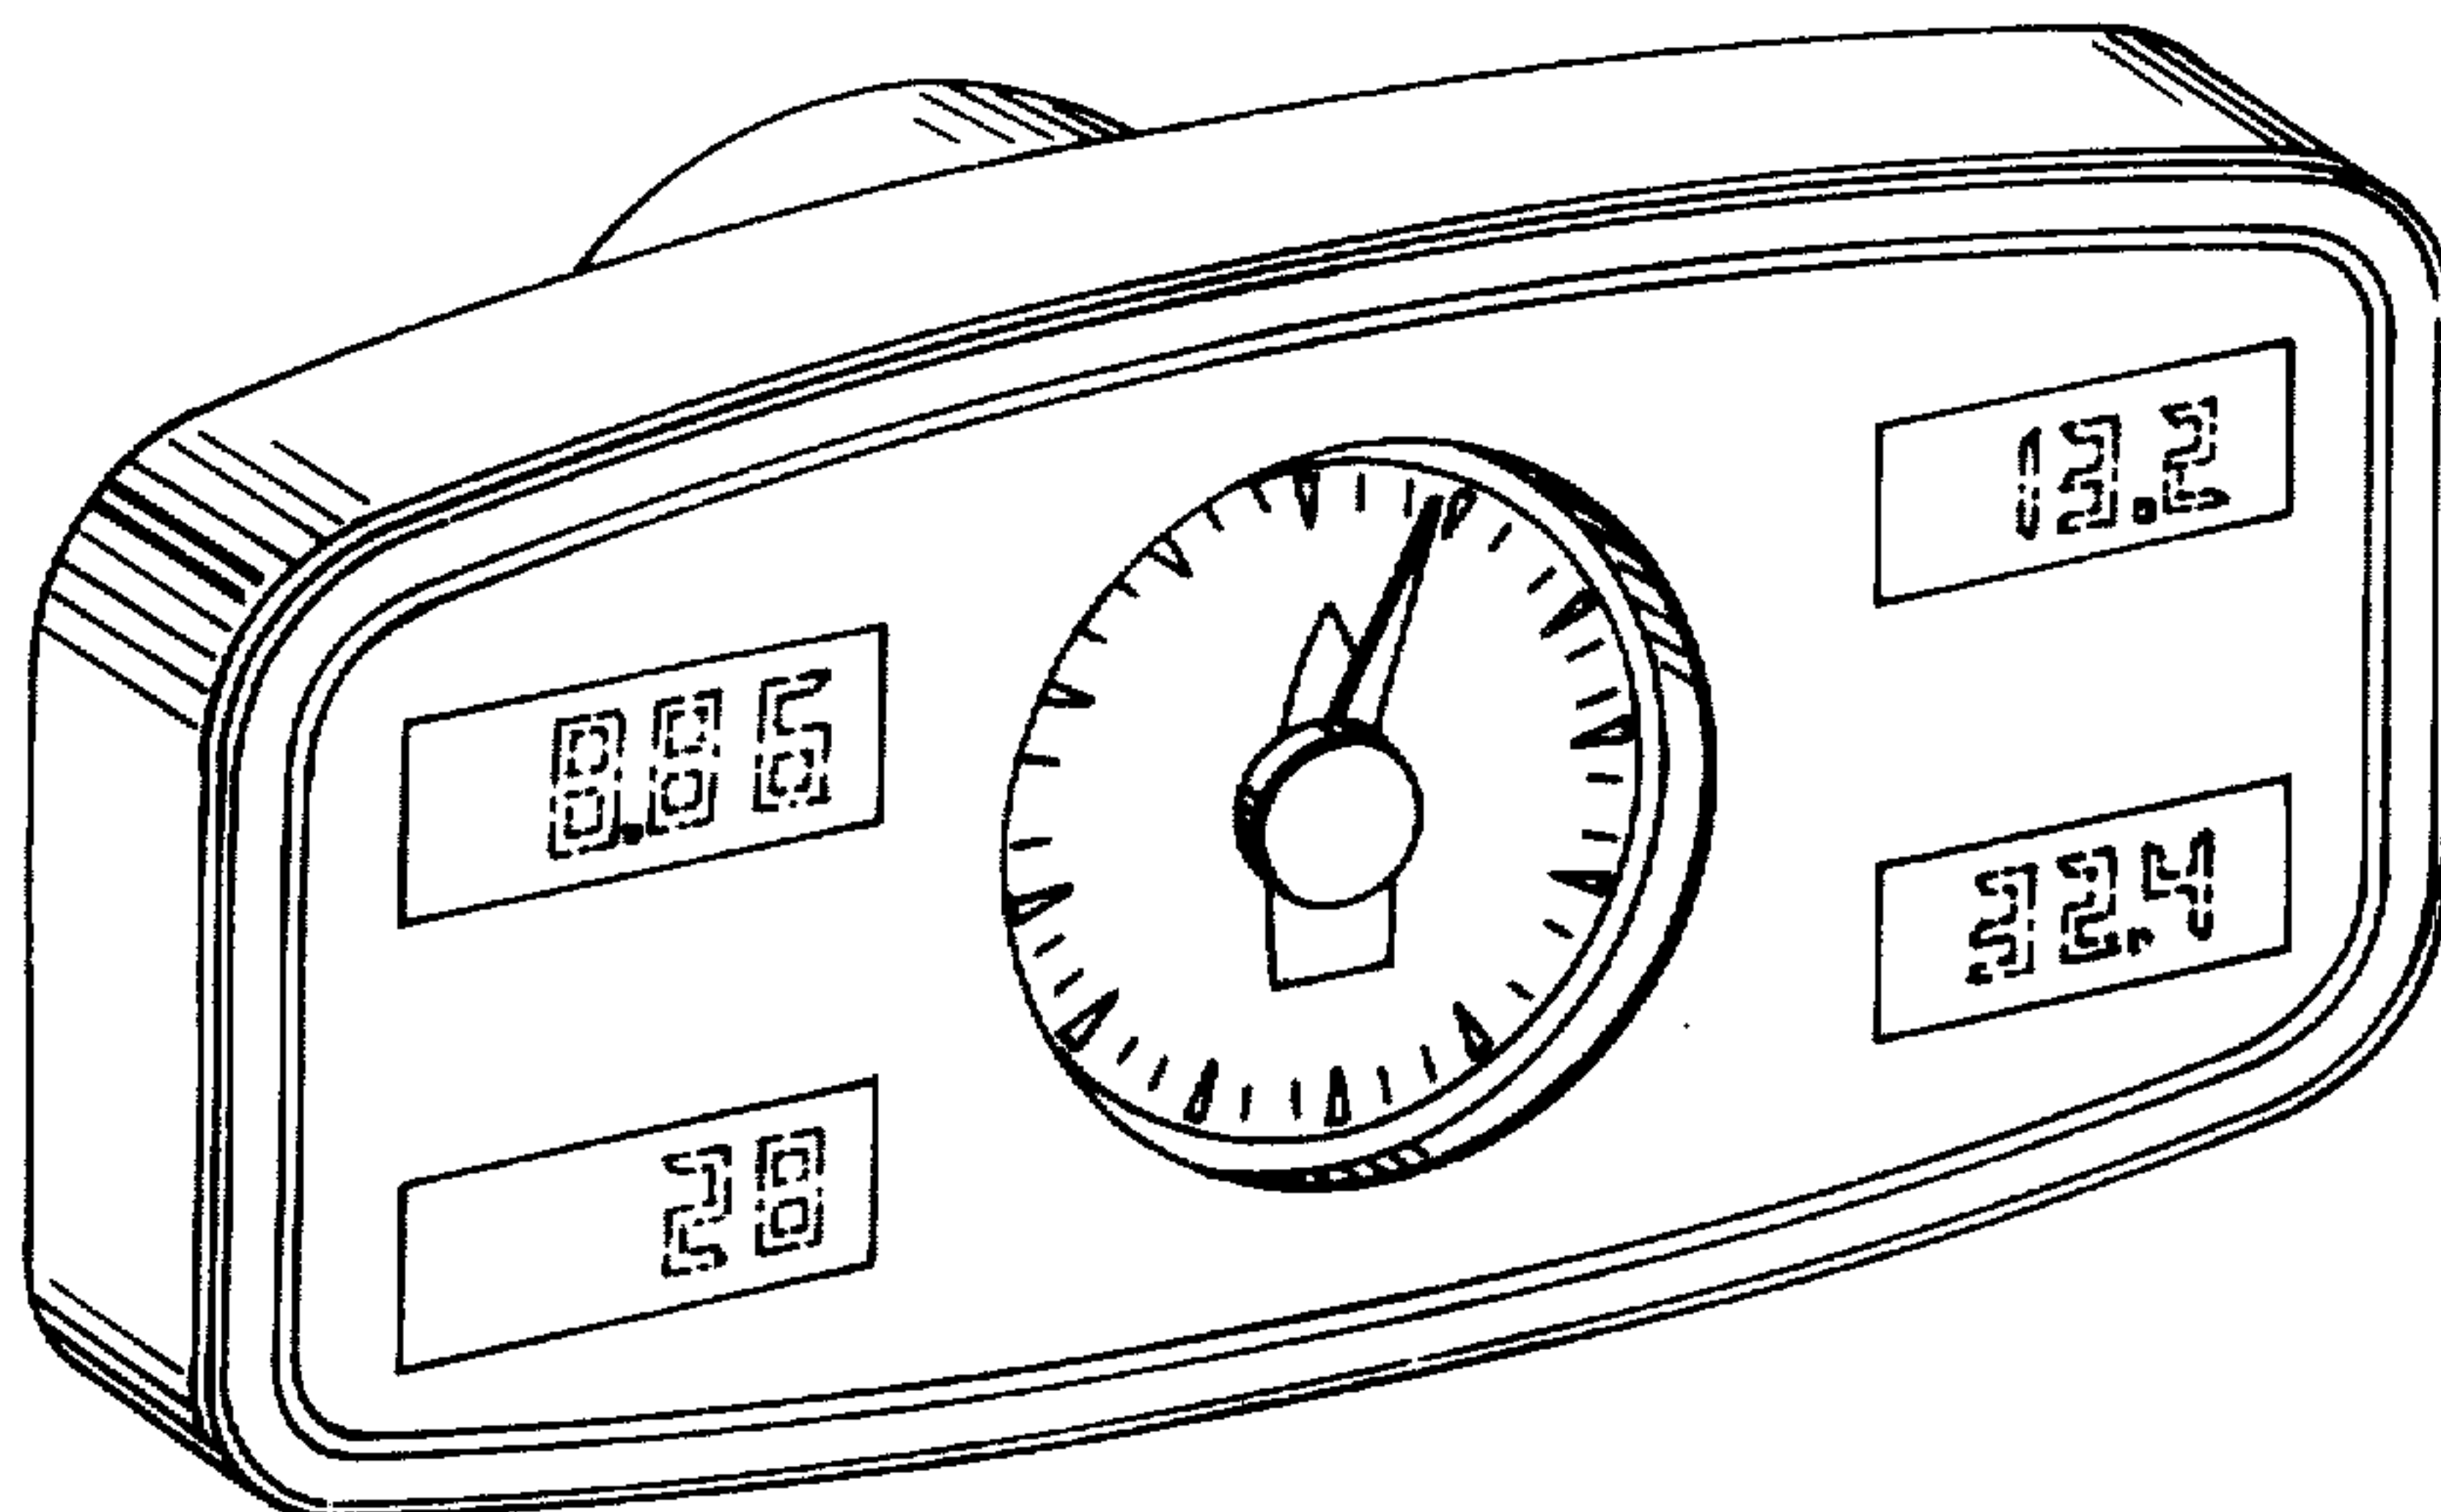

FIG. 1

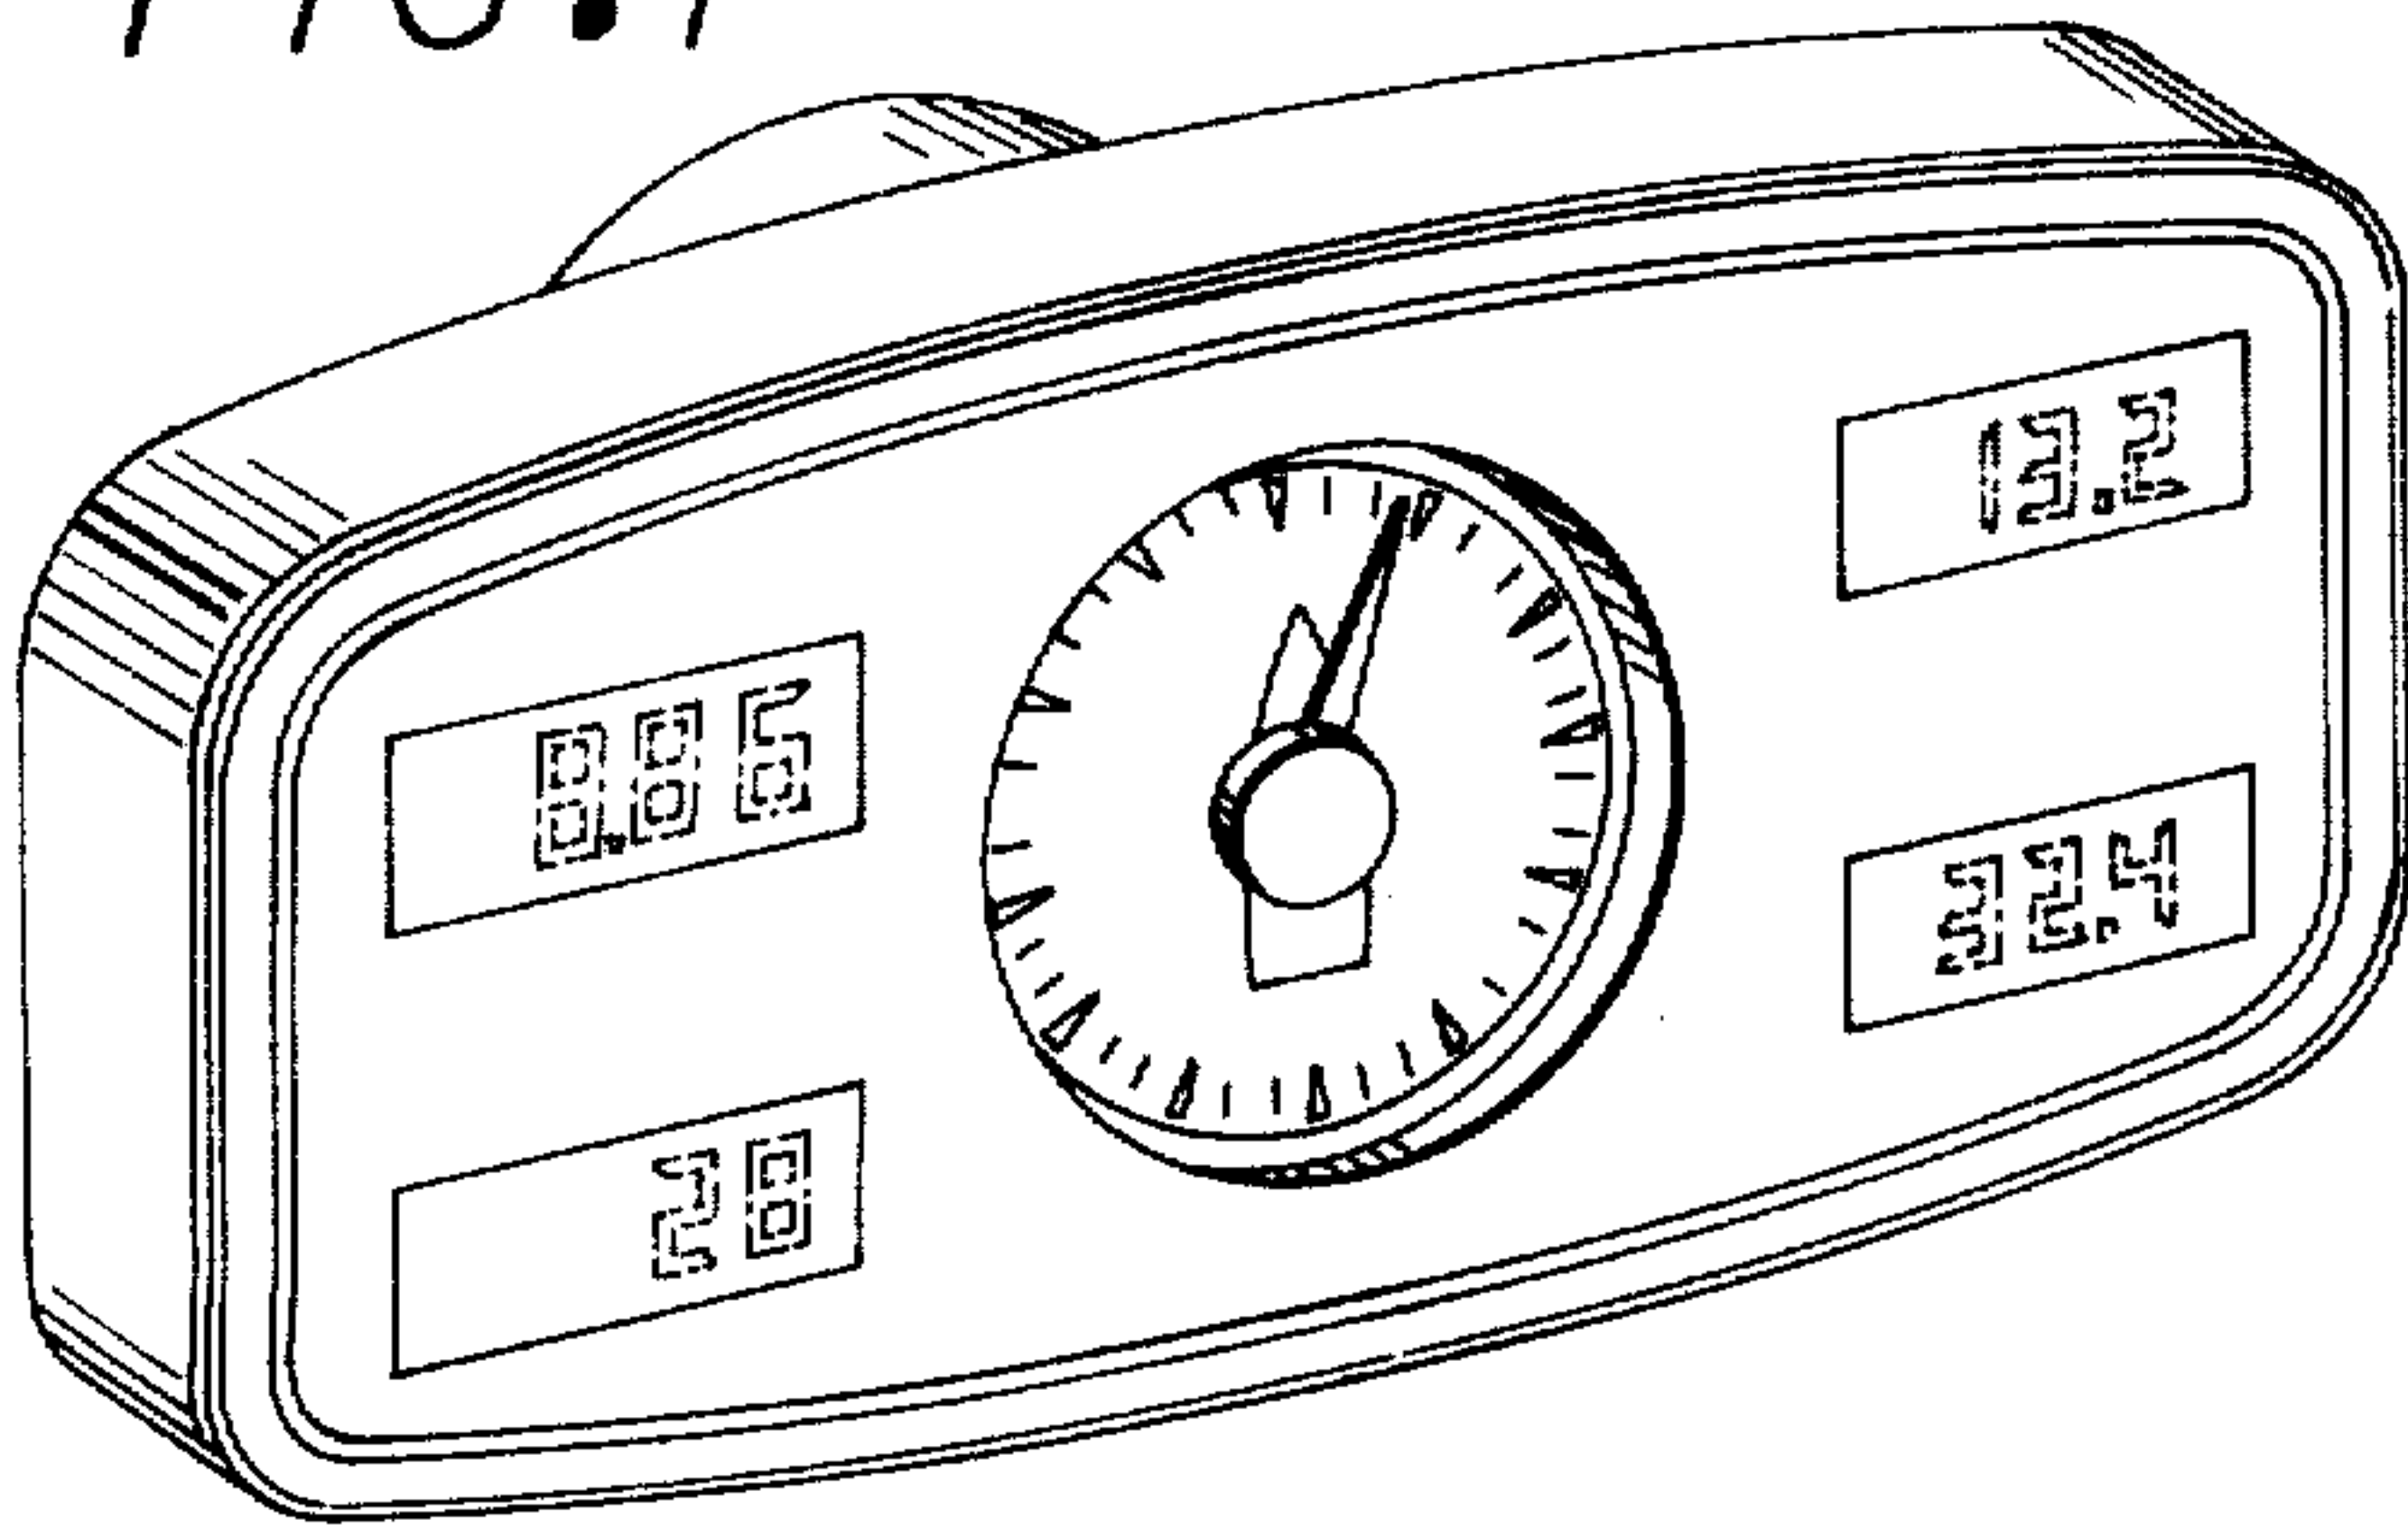

FIG. 2

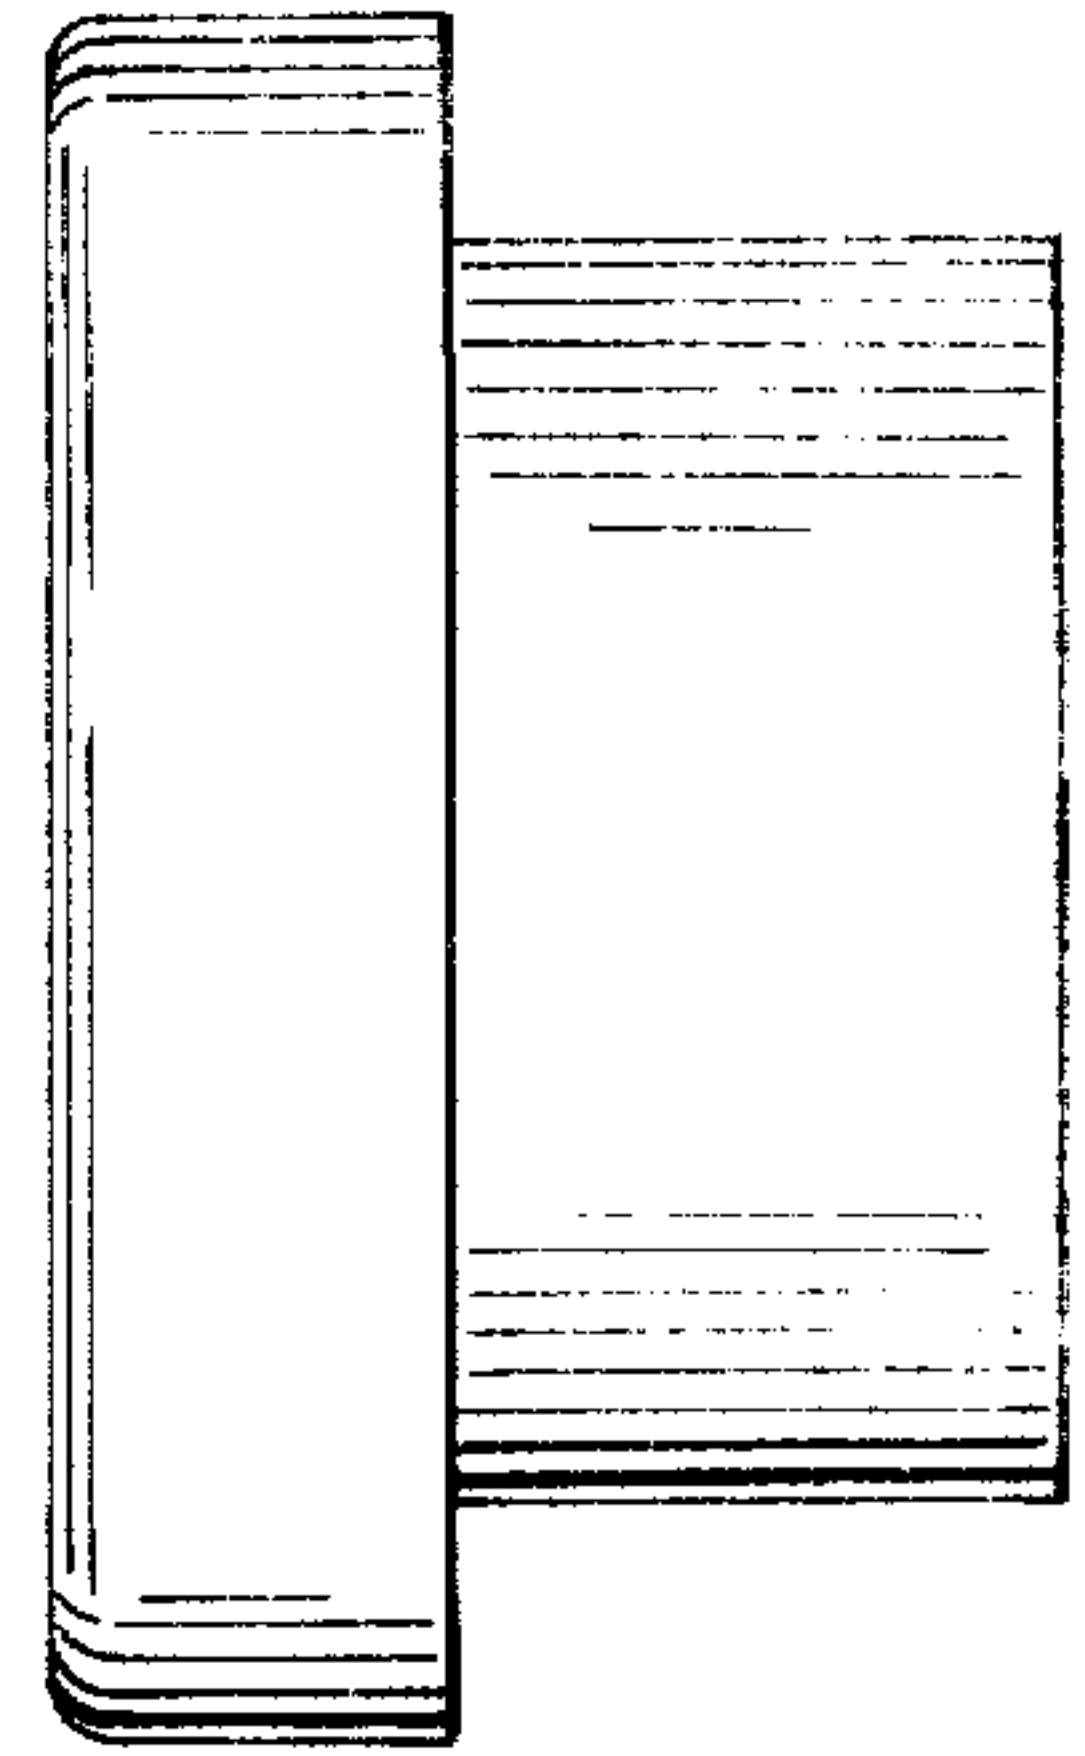

FIG. 3

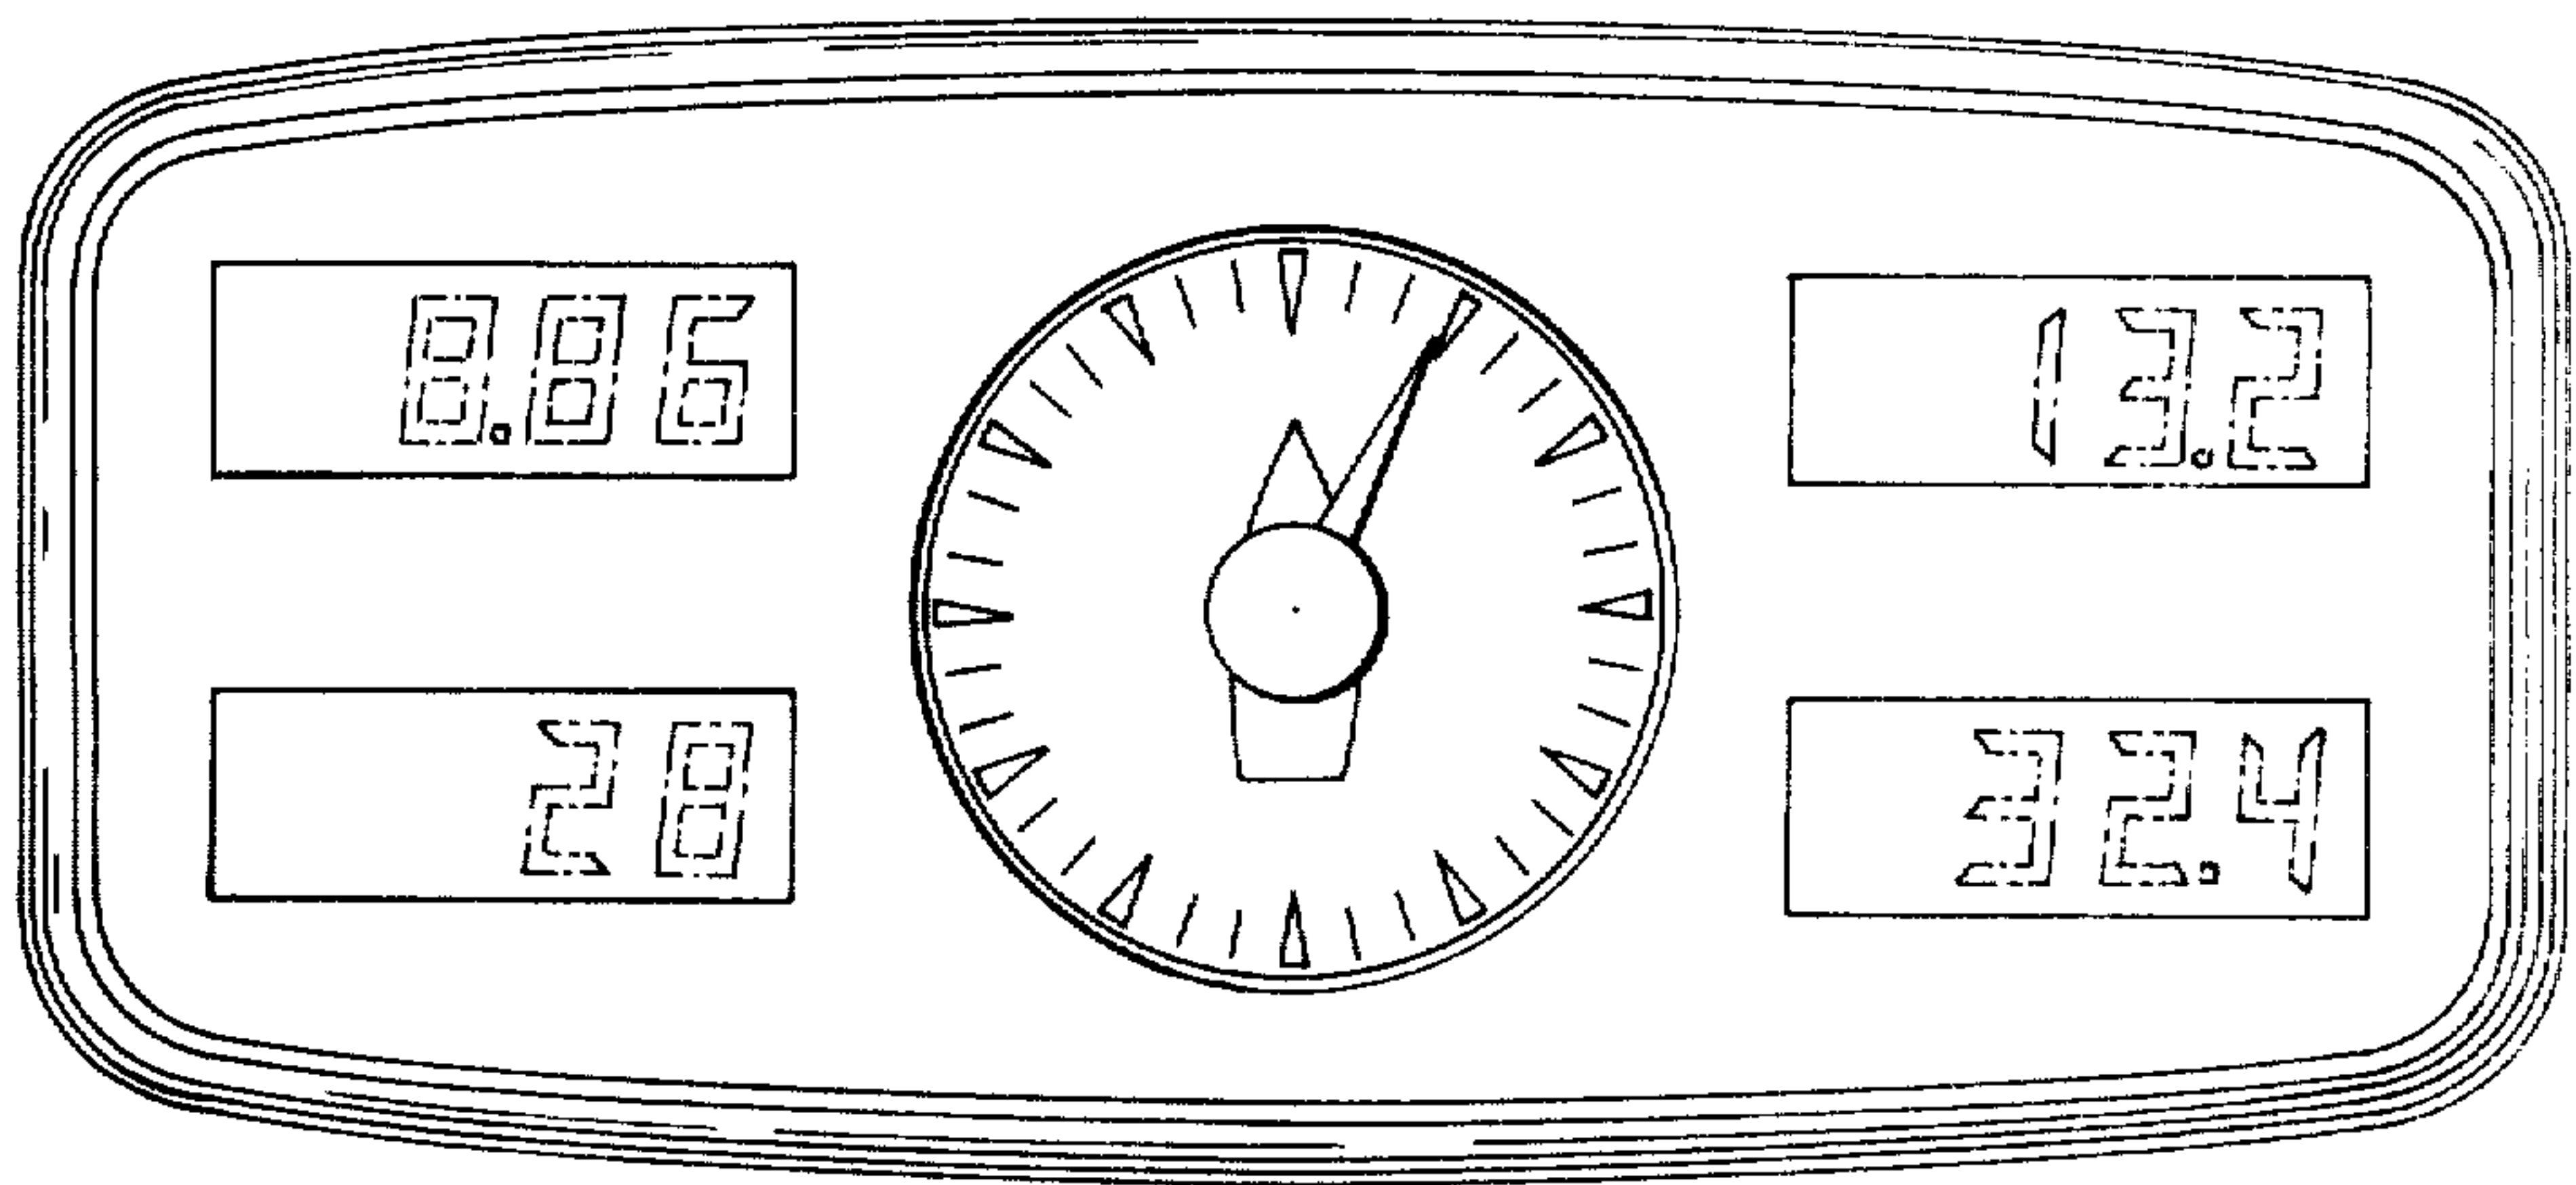

FIG. 4

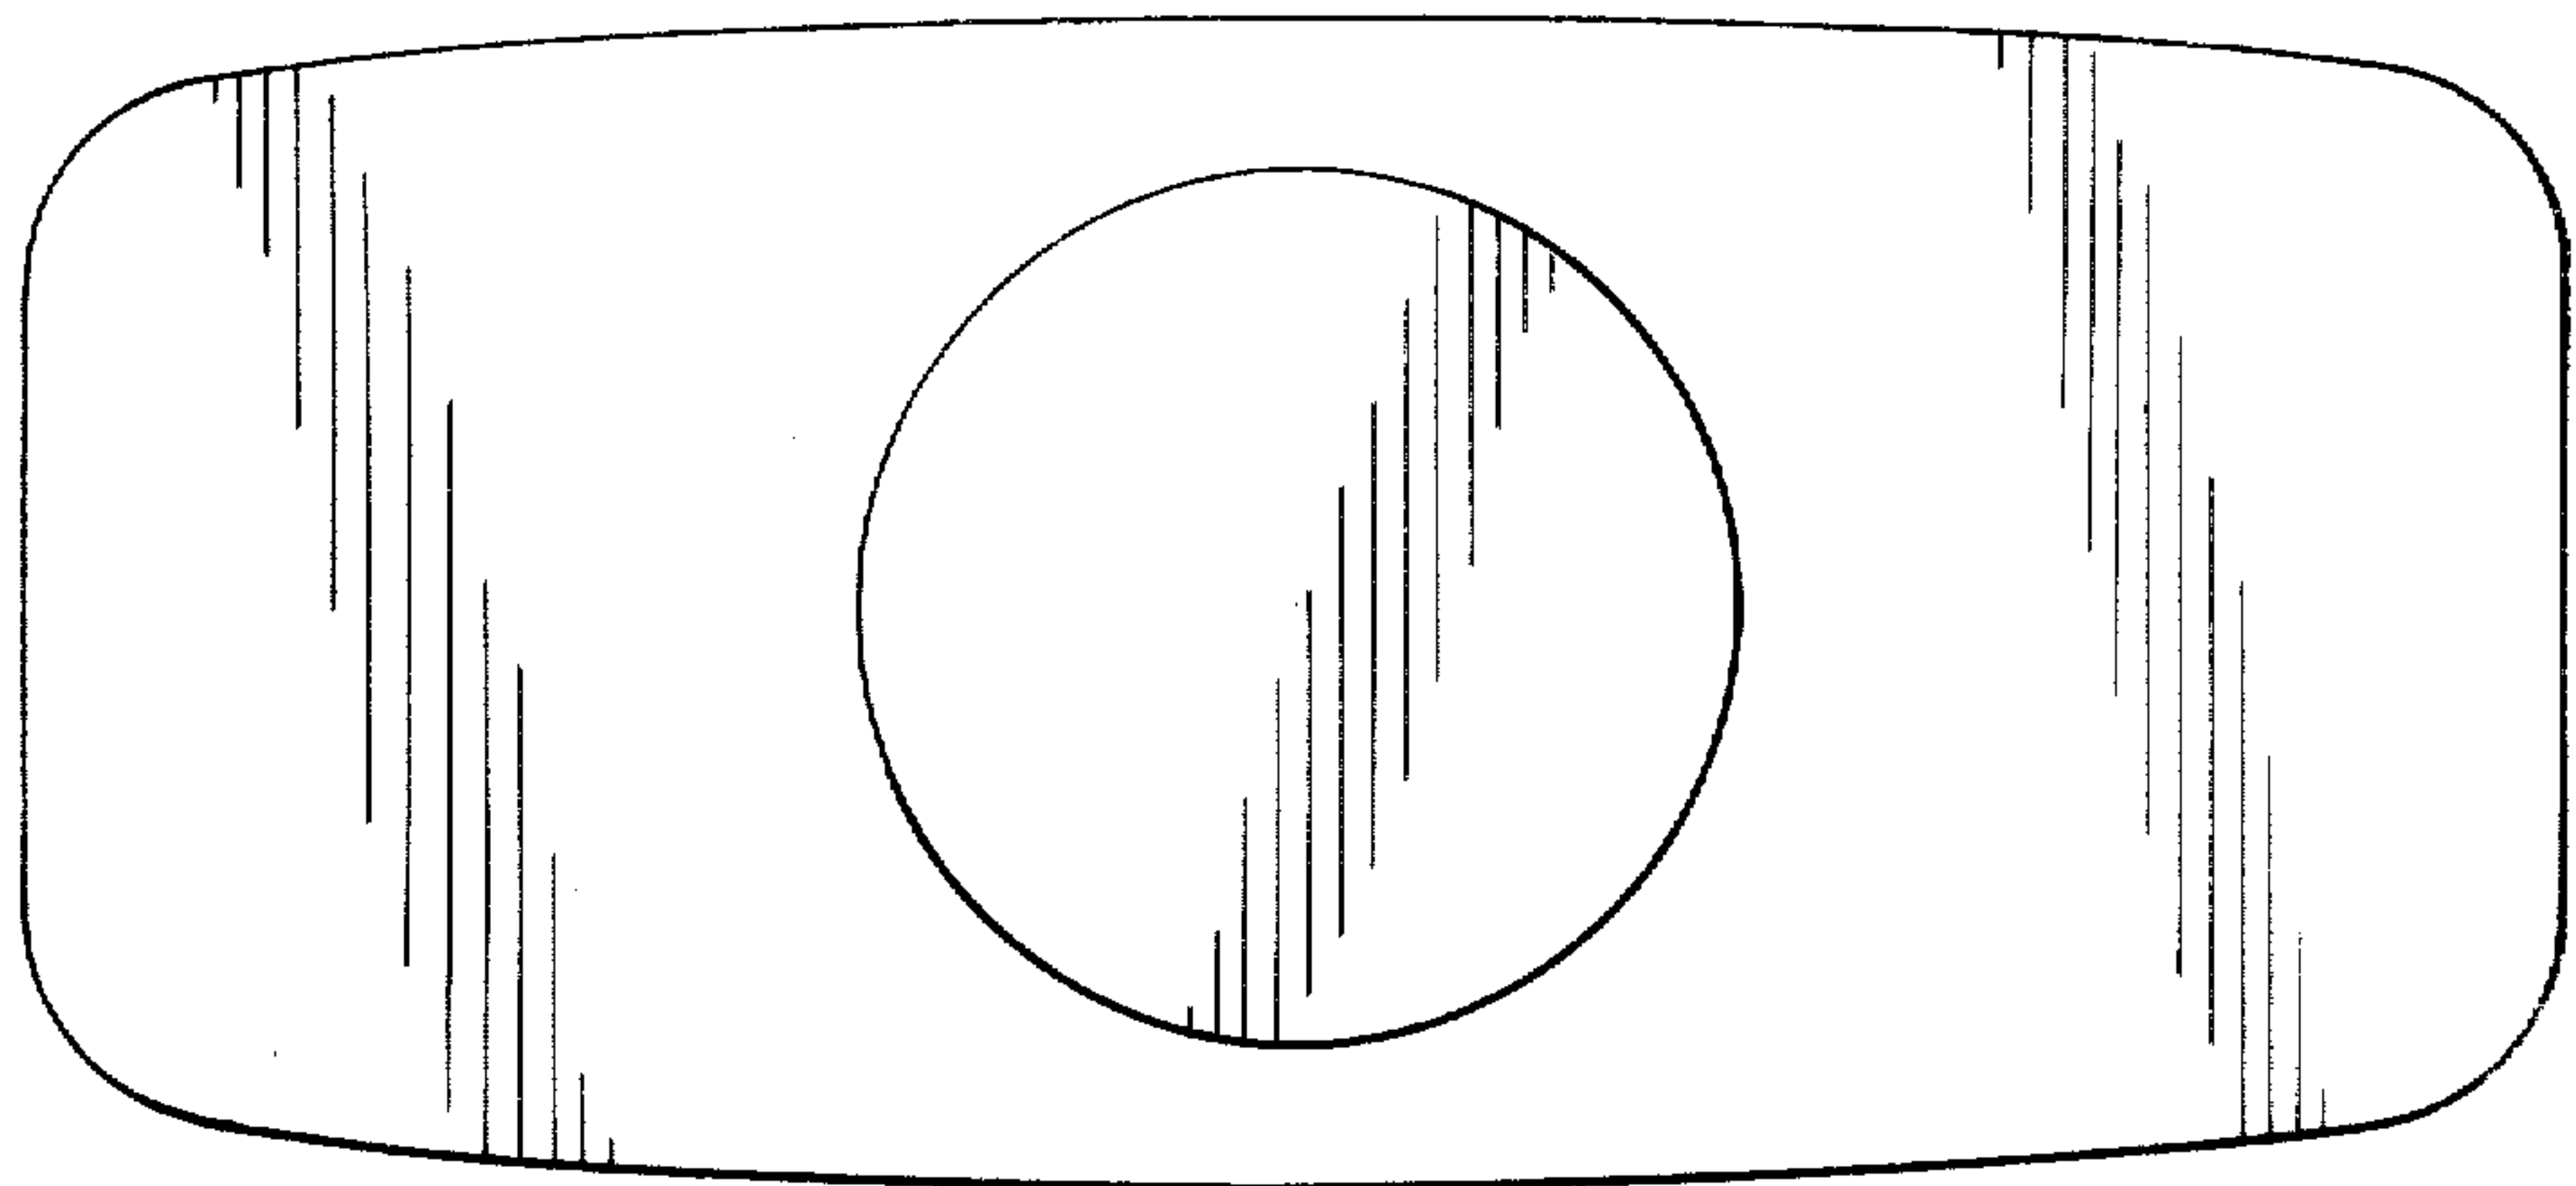

FIG. 5
