[57] **CLAIM**

The ornamental design for a cup holder for an automobile door, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a cup holder for an automobile door embodying my new design, showing the top flap extended.

FIG. 2 is a similar view showing the top flap in bent position for hanging on an automobile door.

FIG. 3 is a top plan view with the flap extended.

FIG. 4 is a rear elevation with the flap extended.

The bottom of the cup holder for an automobile door is a flat planar surface.
