[57] CLAIM

The ornamental design for a door mat base plate or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a door mat base plate or similar article showing our new design;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a bottom plan view thereof;
FIG. 4 is a left side elevational view thereof;
FIG. 5 is a larger scale fragmentary rear elevational view thereof;
FIG. 6 is a fragmentary vertical sectional view thereof, on the same scale as FIG. 5, taken on line 6—6 of FIG. 1; and
FIG. 7 is a fragmentary top plan view thereof, on the same scale as FIG. 5.

The characteristic feature of our design is that at each outer corner the generally rectangular ridge is truncated and the plane of truncation is coincident with the smaller base of the respective symmetrical trapezoidal corner element of the downwardly and outwardly sloping ramp surface which surrounds said ridge.
