- [57] CLAIM
- The ornamental design for a pick-up truck bed enclosure, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a pick-up truck bed enclosure showing my new design;

FIG. 2 is a right side elevational view thereof, the left side being a mirror image of the right side shown herein;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top, left, perspective view of a pick-up truck bed enclosure showing a second embodiment of my new design mounted on the bed of a pick-up truck shown in broken lines for illustrative purposes only, it being understood that the opposite side is a mirror image of the side shown;

FIG. 5 is a top, left, rear perspective view of a pick-up truck bed enclosure showing a third embodiment of my new design mounted on the bed of a pick-up truck partially shown in broken lines for illustrative purposes only, it being understood that the opposite side is a mirror image of the side shown;

FIG. 6 is a side elevational view of a pick-up truck bed enclosure showing a fourth embodiment of my new design, it being understood that the opposite side is a mirror image of the side shown; and

FIG. 7 is a side elevational view of a pick-up truck bed enclosure showing a fifth embodiment of my new design, it being understood that the opposite side is a mirror image of the side shown.

The front of the second, third, fourth, and fifth embodiments of the pick-up truck bed enclosure is the same as the front of the first embodiment shown in FIG. 1, and the rear of the second, fourth, and fifth embodiments is the same as the rear of the first embodiment shown in FIG. 3.
