[57] **CLAIM**

The ornamental design of a combined table and seating  
unit, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a combined table and  
seating unit embodying our invention in the form of a  
two seat unit with a table between the two seats;

FIG. 2 is a front elevational view thereof;

FIG. 3 is an end elevational view thereof, with the  
opposite end elevational view being a mirror image  
thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a top plan view thereof;

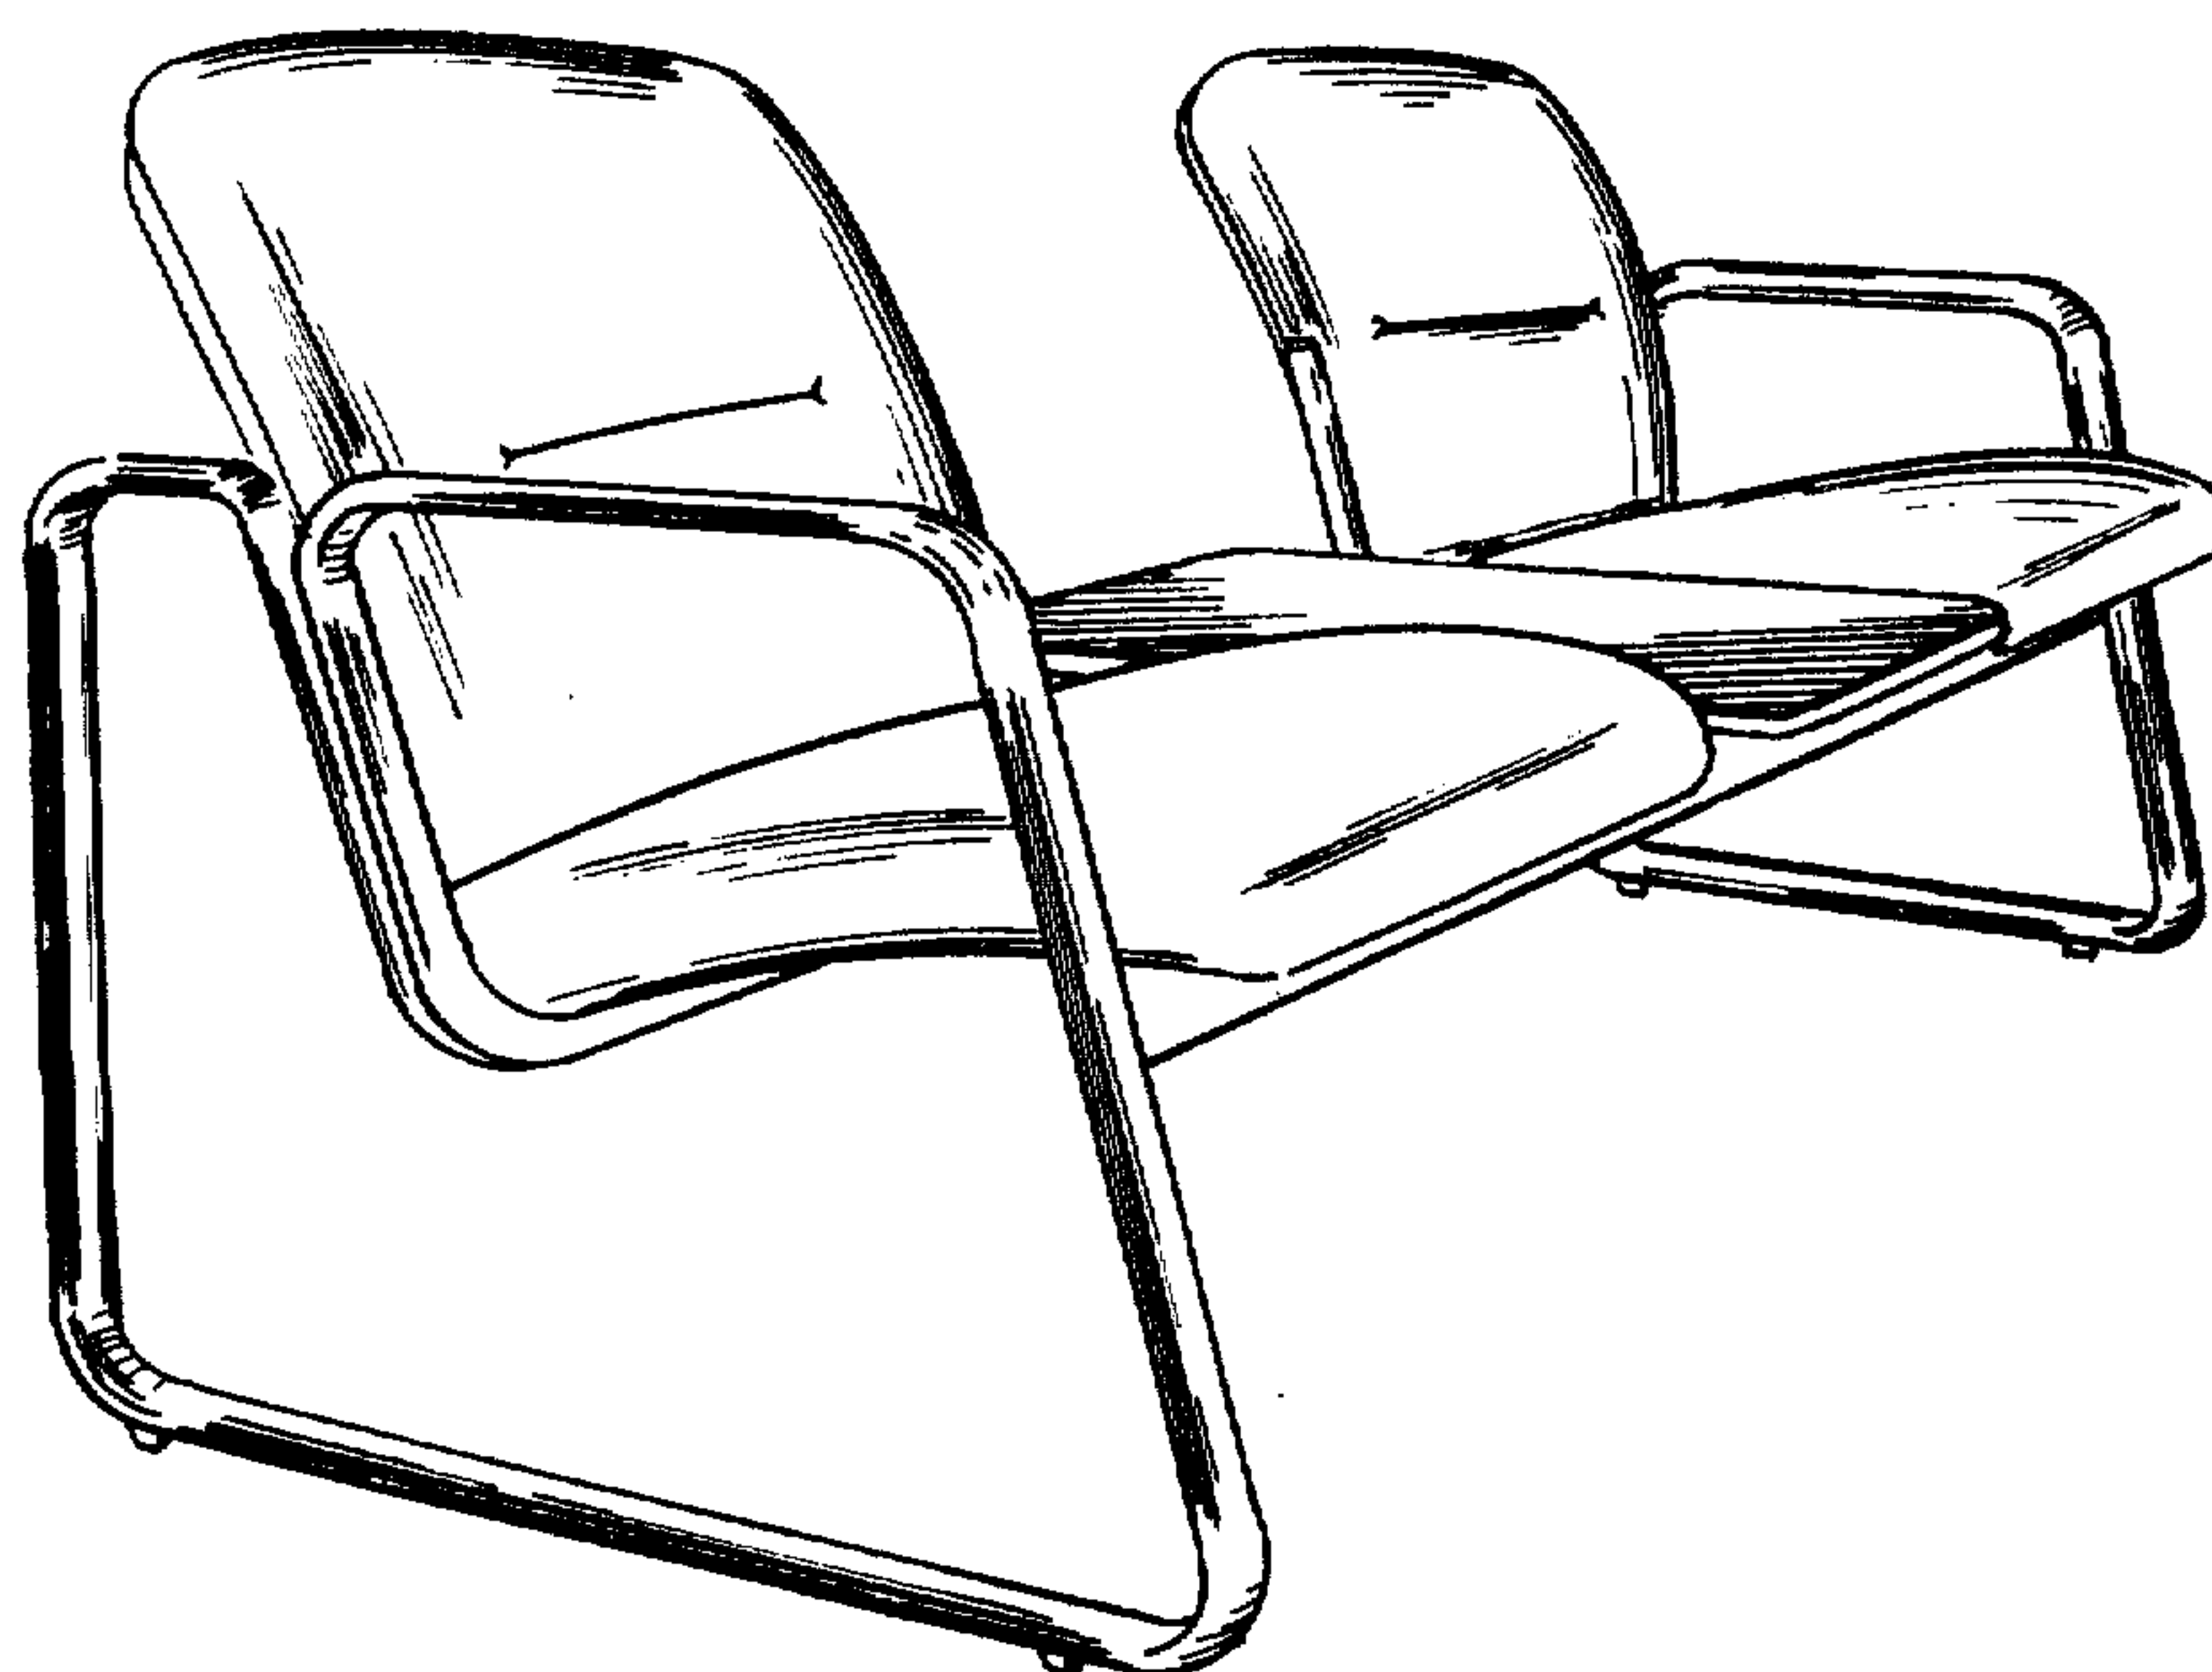

FIG. 6 is a bottom plan view thereof;

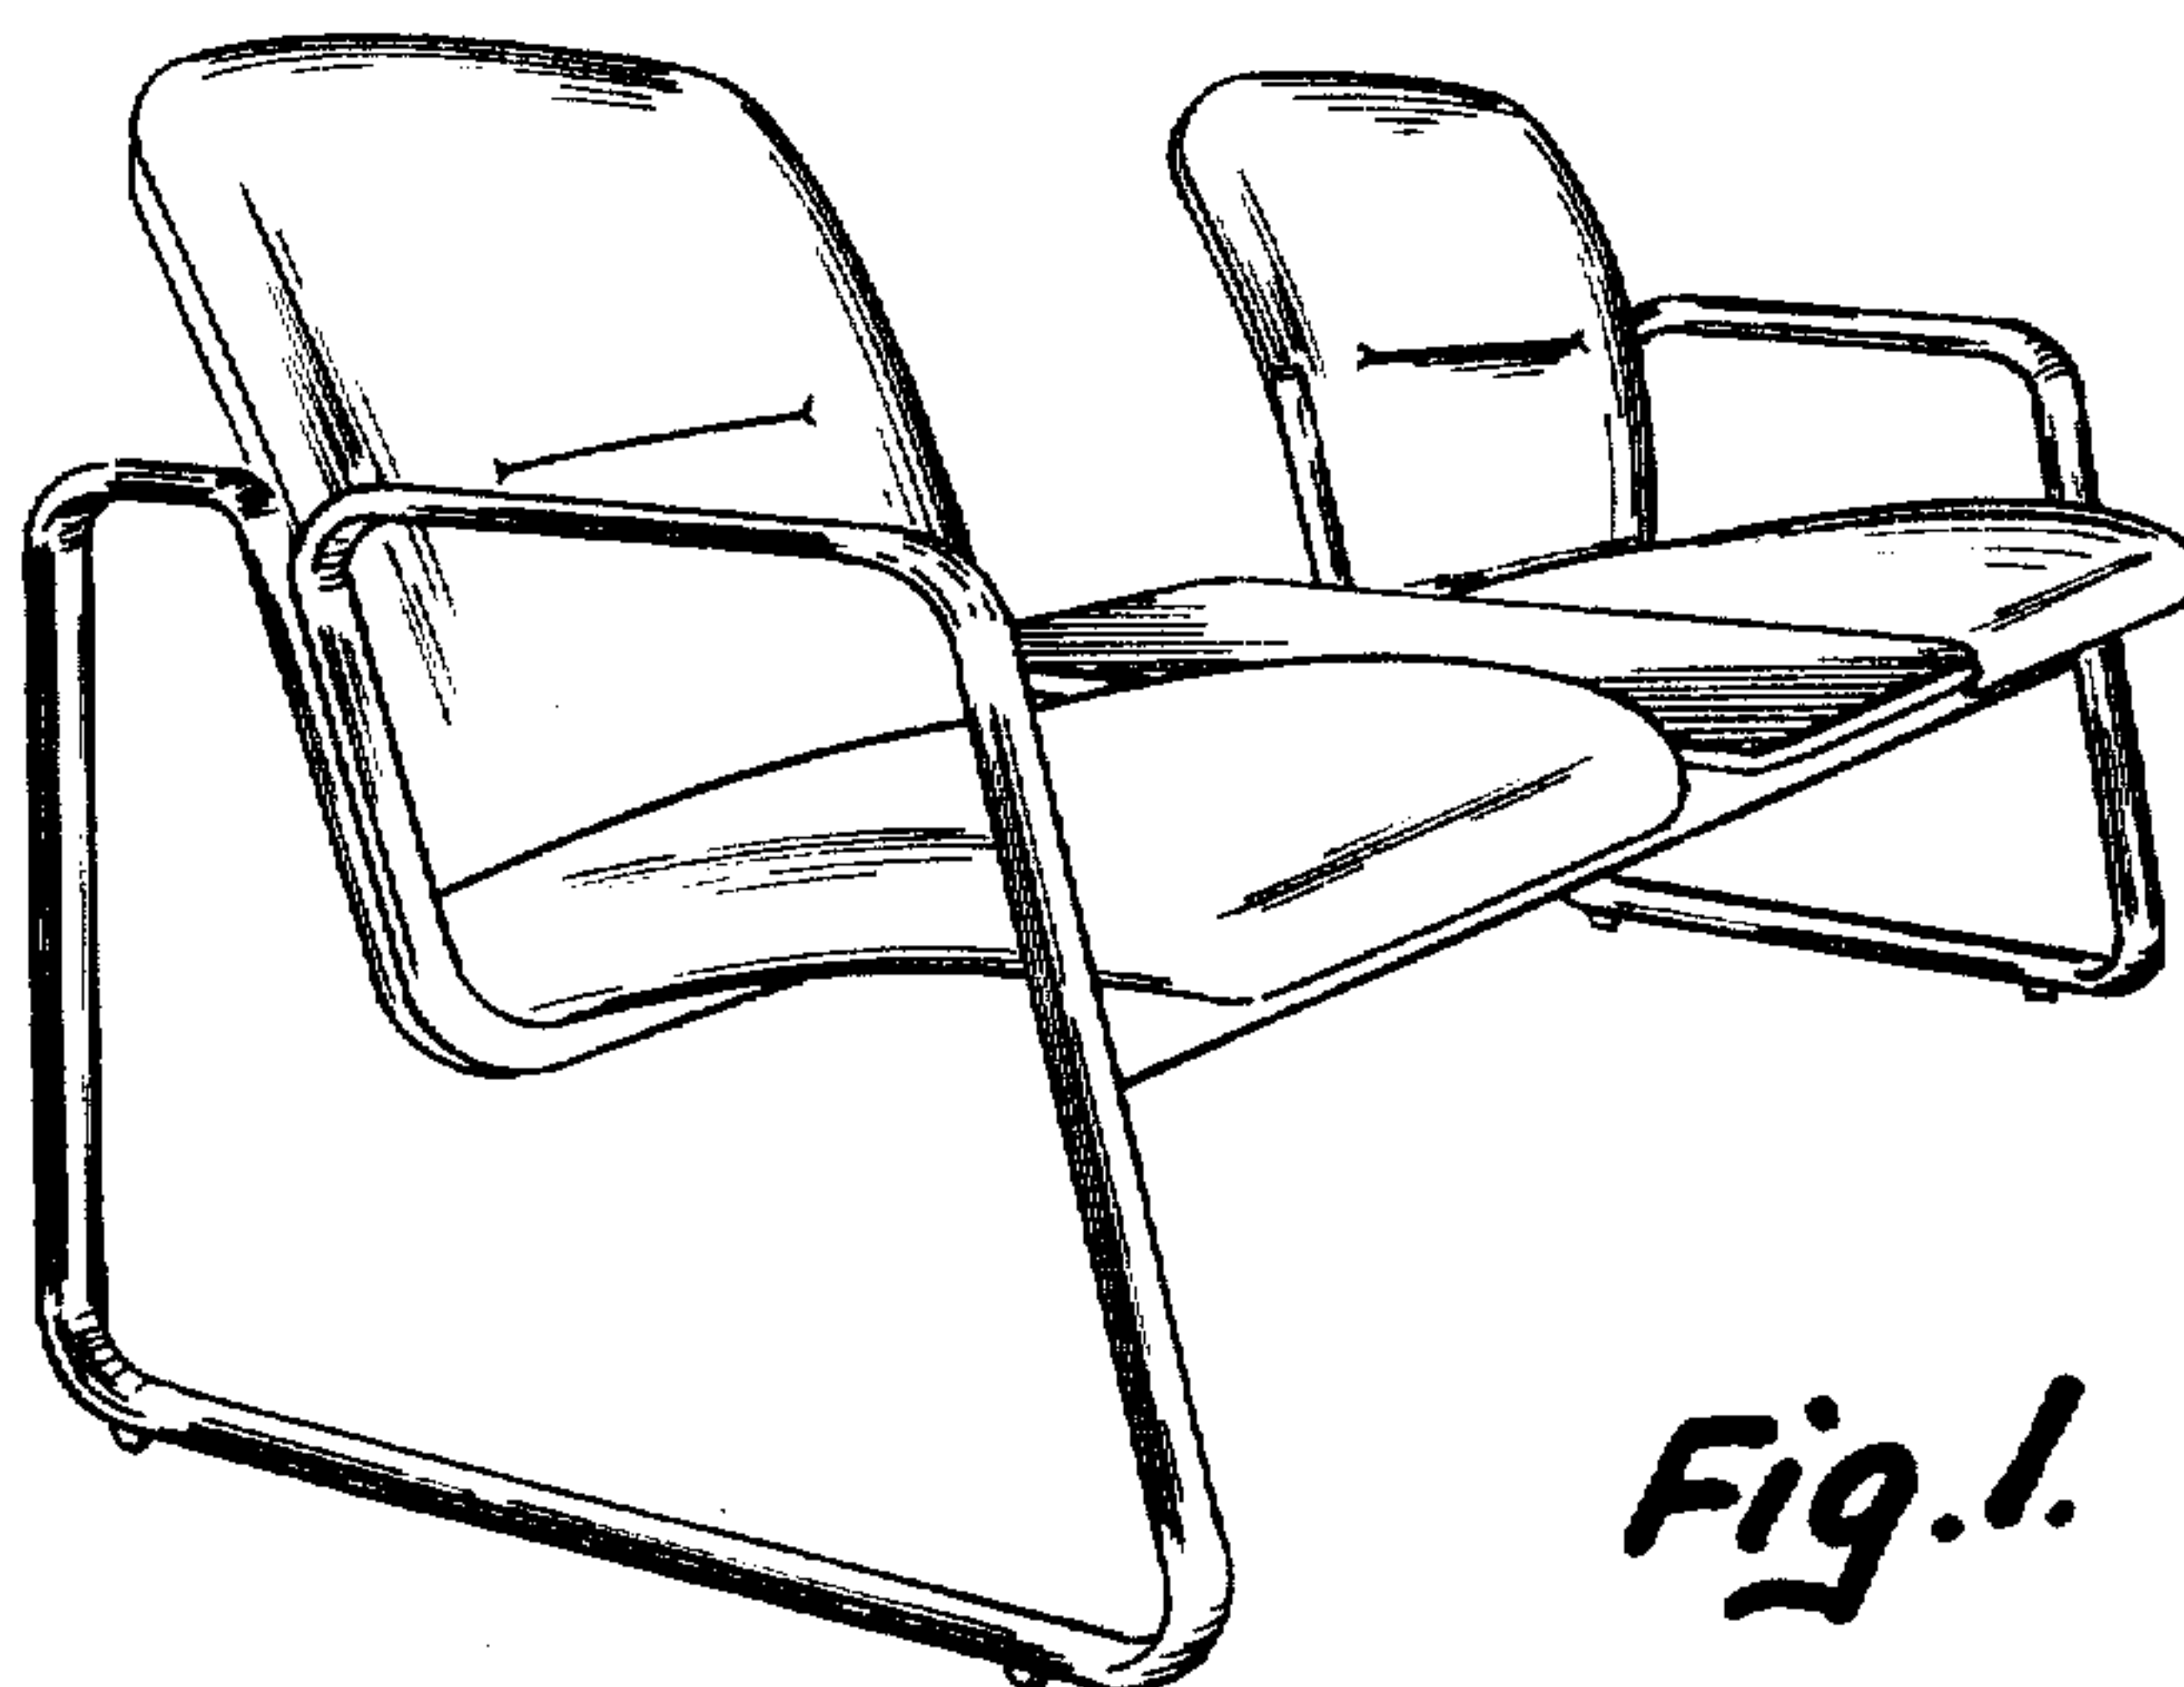

FIG. 7 is a perspective view of another embodiment of  
said seat, in the form of a two seat unit with interior  
arms adjacent a table therebetween;

FIG. 8 is a perspective view of yet another embodiment  
of said seat in the form of a three seat unit, with a table  
between two of the three seats; and

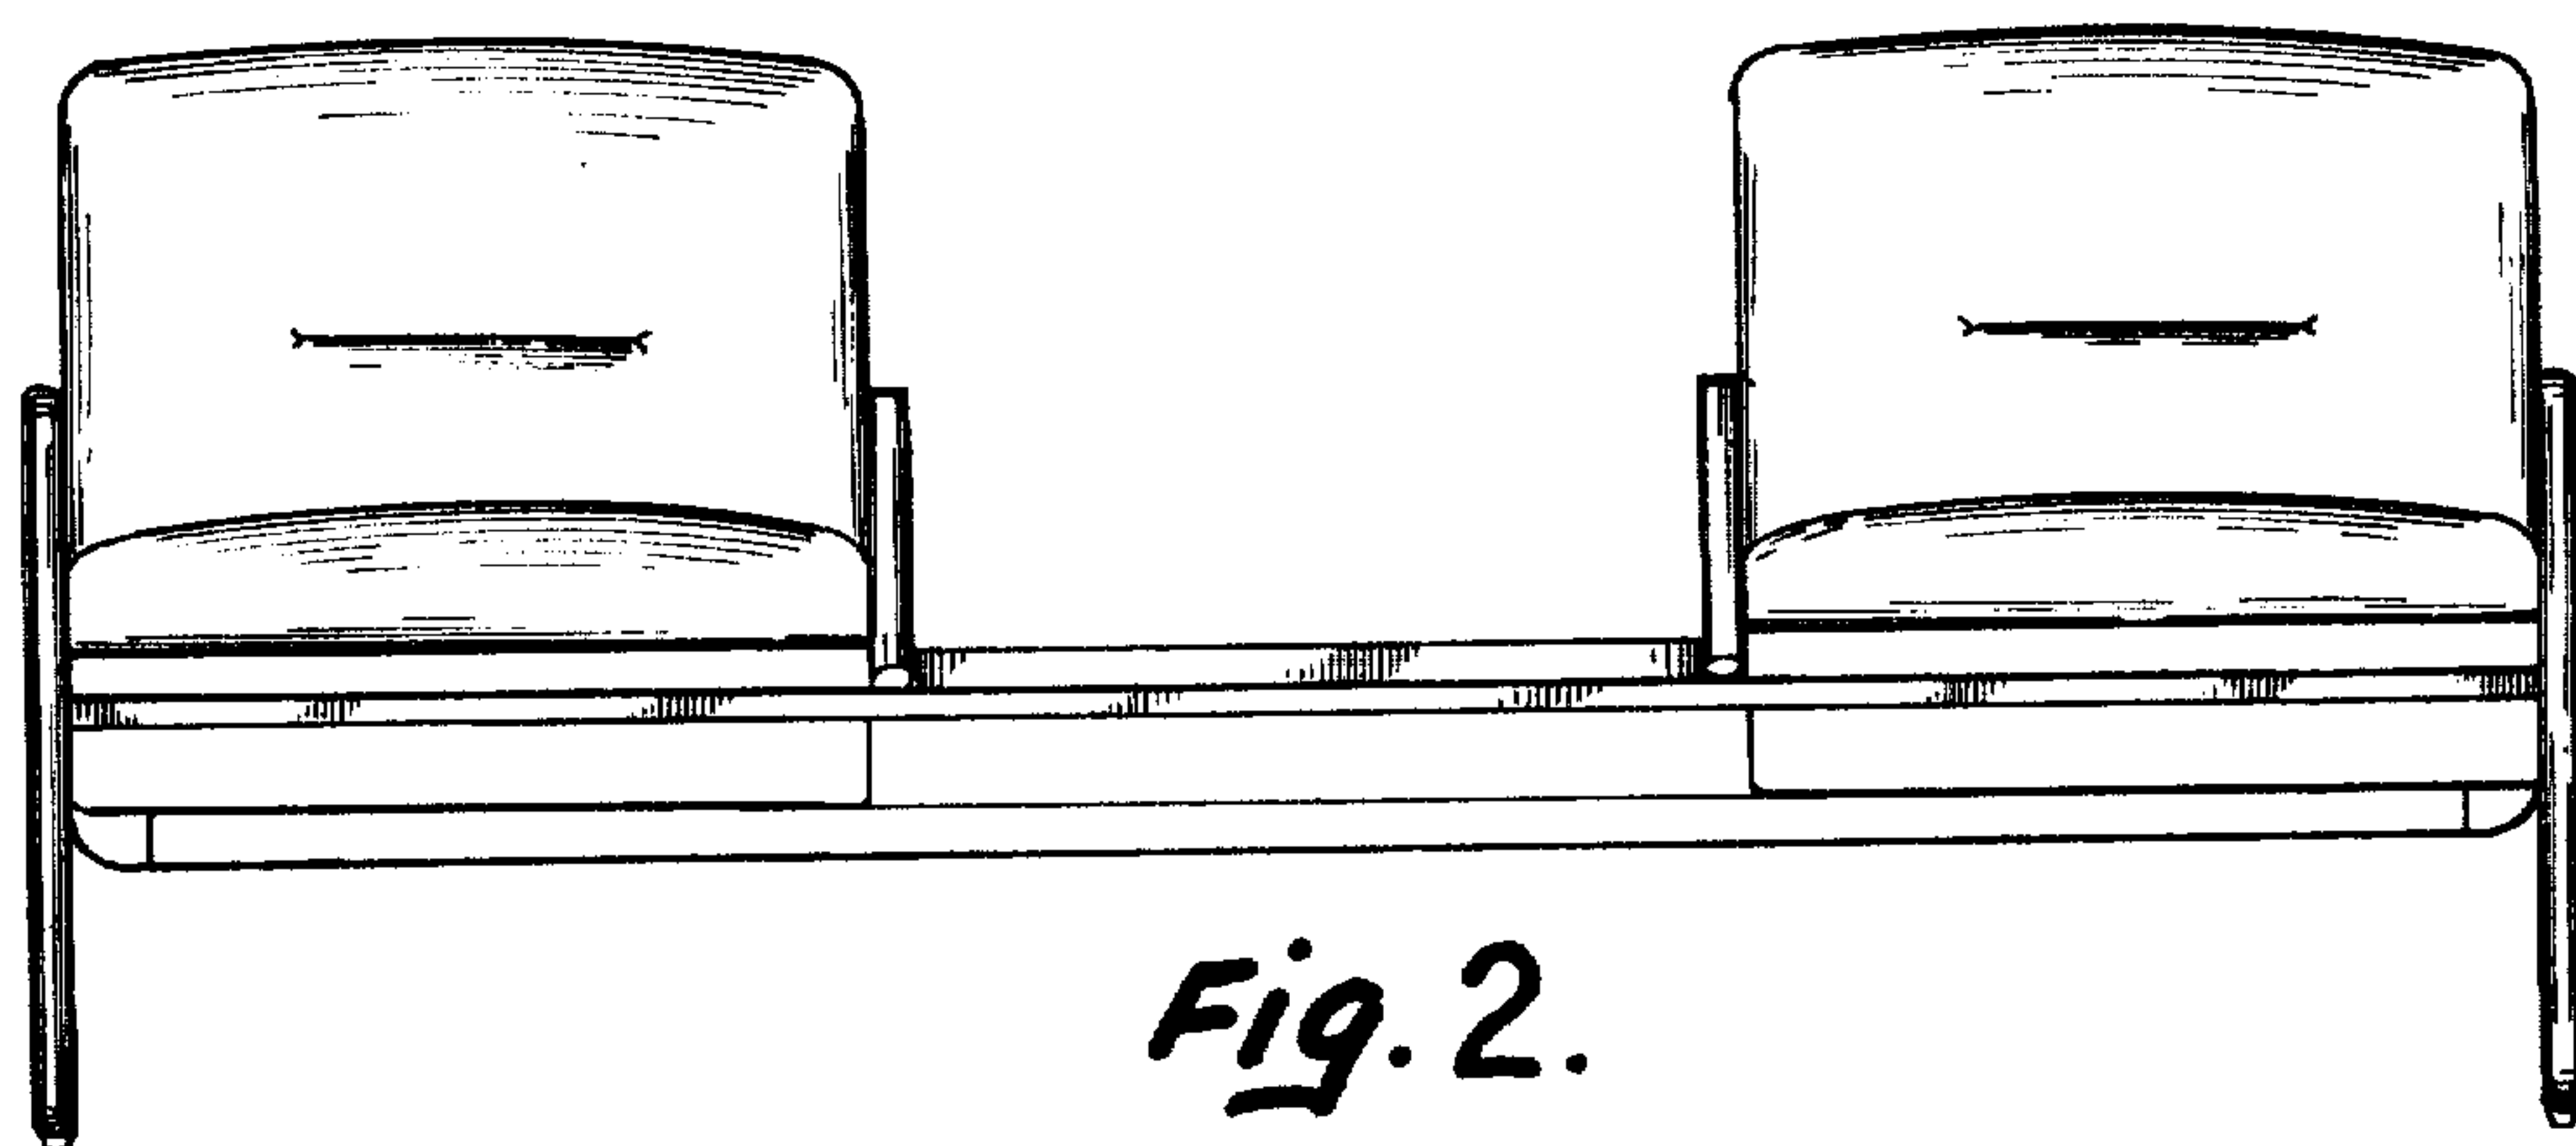

FIG. 9 is a perspective view of yet another embodiment  
of said seat, in the form of a three seat unit with interior  
arms adjacent a table therebetween.

We have refrained from illustrating all of the various  
elevational views of all of the variations of our seat  
since all are basically the same except that they are  
multiplied in accordance with the number of seating  
units included in the article.
