The ornamental design for a combined check rail lock and keeper, substantially as shown and described.

CLAIM

DESCRIPTION

FIG. 1 is a top plan view of the combined check rail lock and keeper showing my new design;

FIG. 2 is a front elevational view of the combined check rail lock looking toward the right side of FIG. 1; FIG. 3 is a rear elevational view of the combined check rail lock;

FIG. 4 is a side elevational view of the combined check rail lock;

FIG. 5 is a side elevational view of the combined check rail lock from the side opposite that shown in FIG. 4; FIG. 6 is a rear elevational view of the keeper looking toward the left side of FIG. 1; FIG. 7 is a front elevational view of the keeper; and FIG. 8 is a side elevational view of the keeper. The side of the keeper opposite that shown in FIG. 8 is

a mirror image thereof and thus is not shown in the drawings.

The bottom sides of both the check rail lock and the

404,916 6/1889 Koenen. 3/1892 Sloan, Jr. 471,363

keeper are essentially planar, and similarly are not shown in detail in the drawings.

U.S. Patent Apr. 19, 1983 Des. 268,643
