[57] **CLAIM**

The ornamental design for an infeed cover for X-ray film processor, as shown and described.

DESCRIPTION

FIG. 1 is a left front perspective view of an infeed cover for X-ray film processor showing my new design; FIG. 2 is an enlarged top plan view thereof; FIG. 3 is an enlarged bottom plan view thereof; FIG. 4 is an enlarged front elevational view thereof; FIG. 5 is an enlarged rear elevational view thereof; FIG. 6 is a left side elevational view thereof; FIG. 7 is a right side elevational view thereof with the hinged cover in a partially raised position; FIG. 8 is a cross-sectional view thereof as taken from line VIII—VIII of FIG. 2.

The infeed tray and a fragment of the housing of a typical X-ray film processor are shown in broken lines as typical environmental structure and the structure shown in broken lines is not part of the design sought to be patented.
