[57] **CLAIM**

The ornamental design for a game ball, as shown and described.

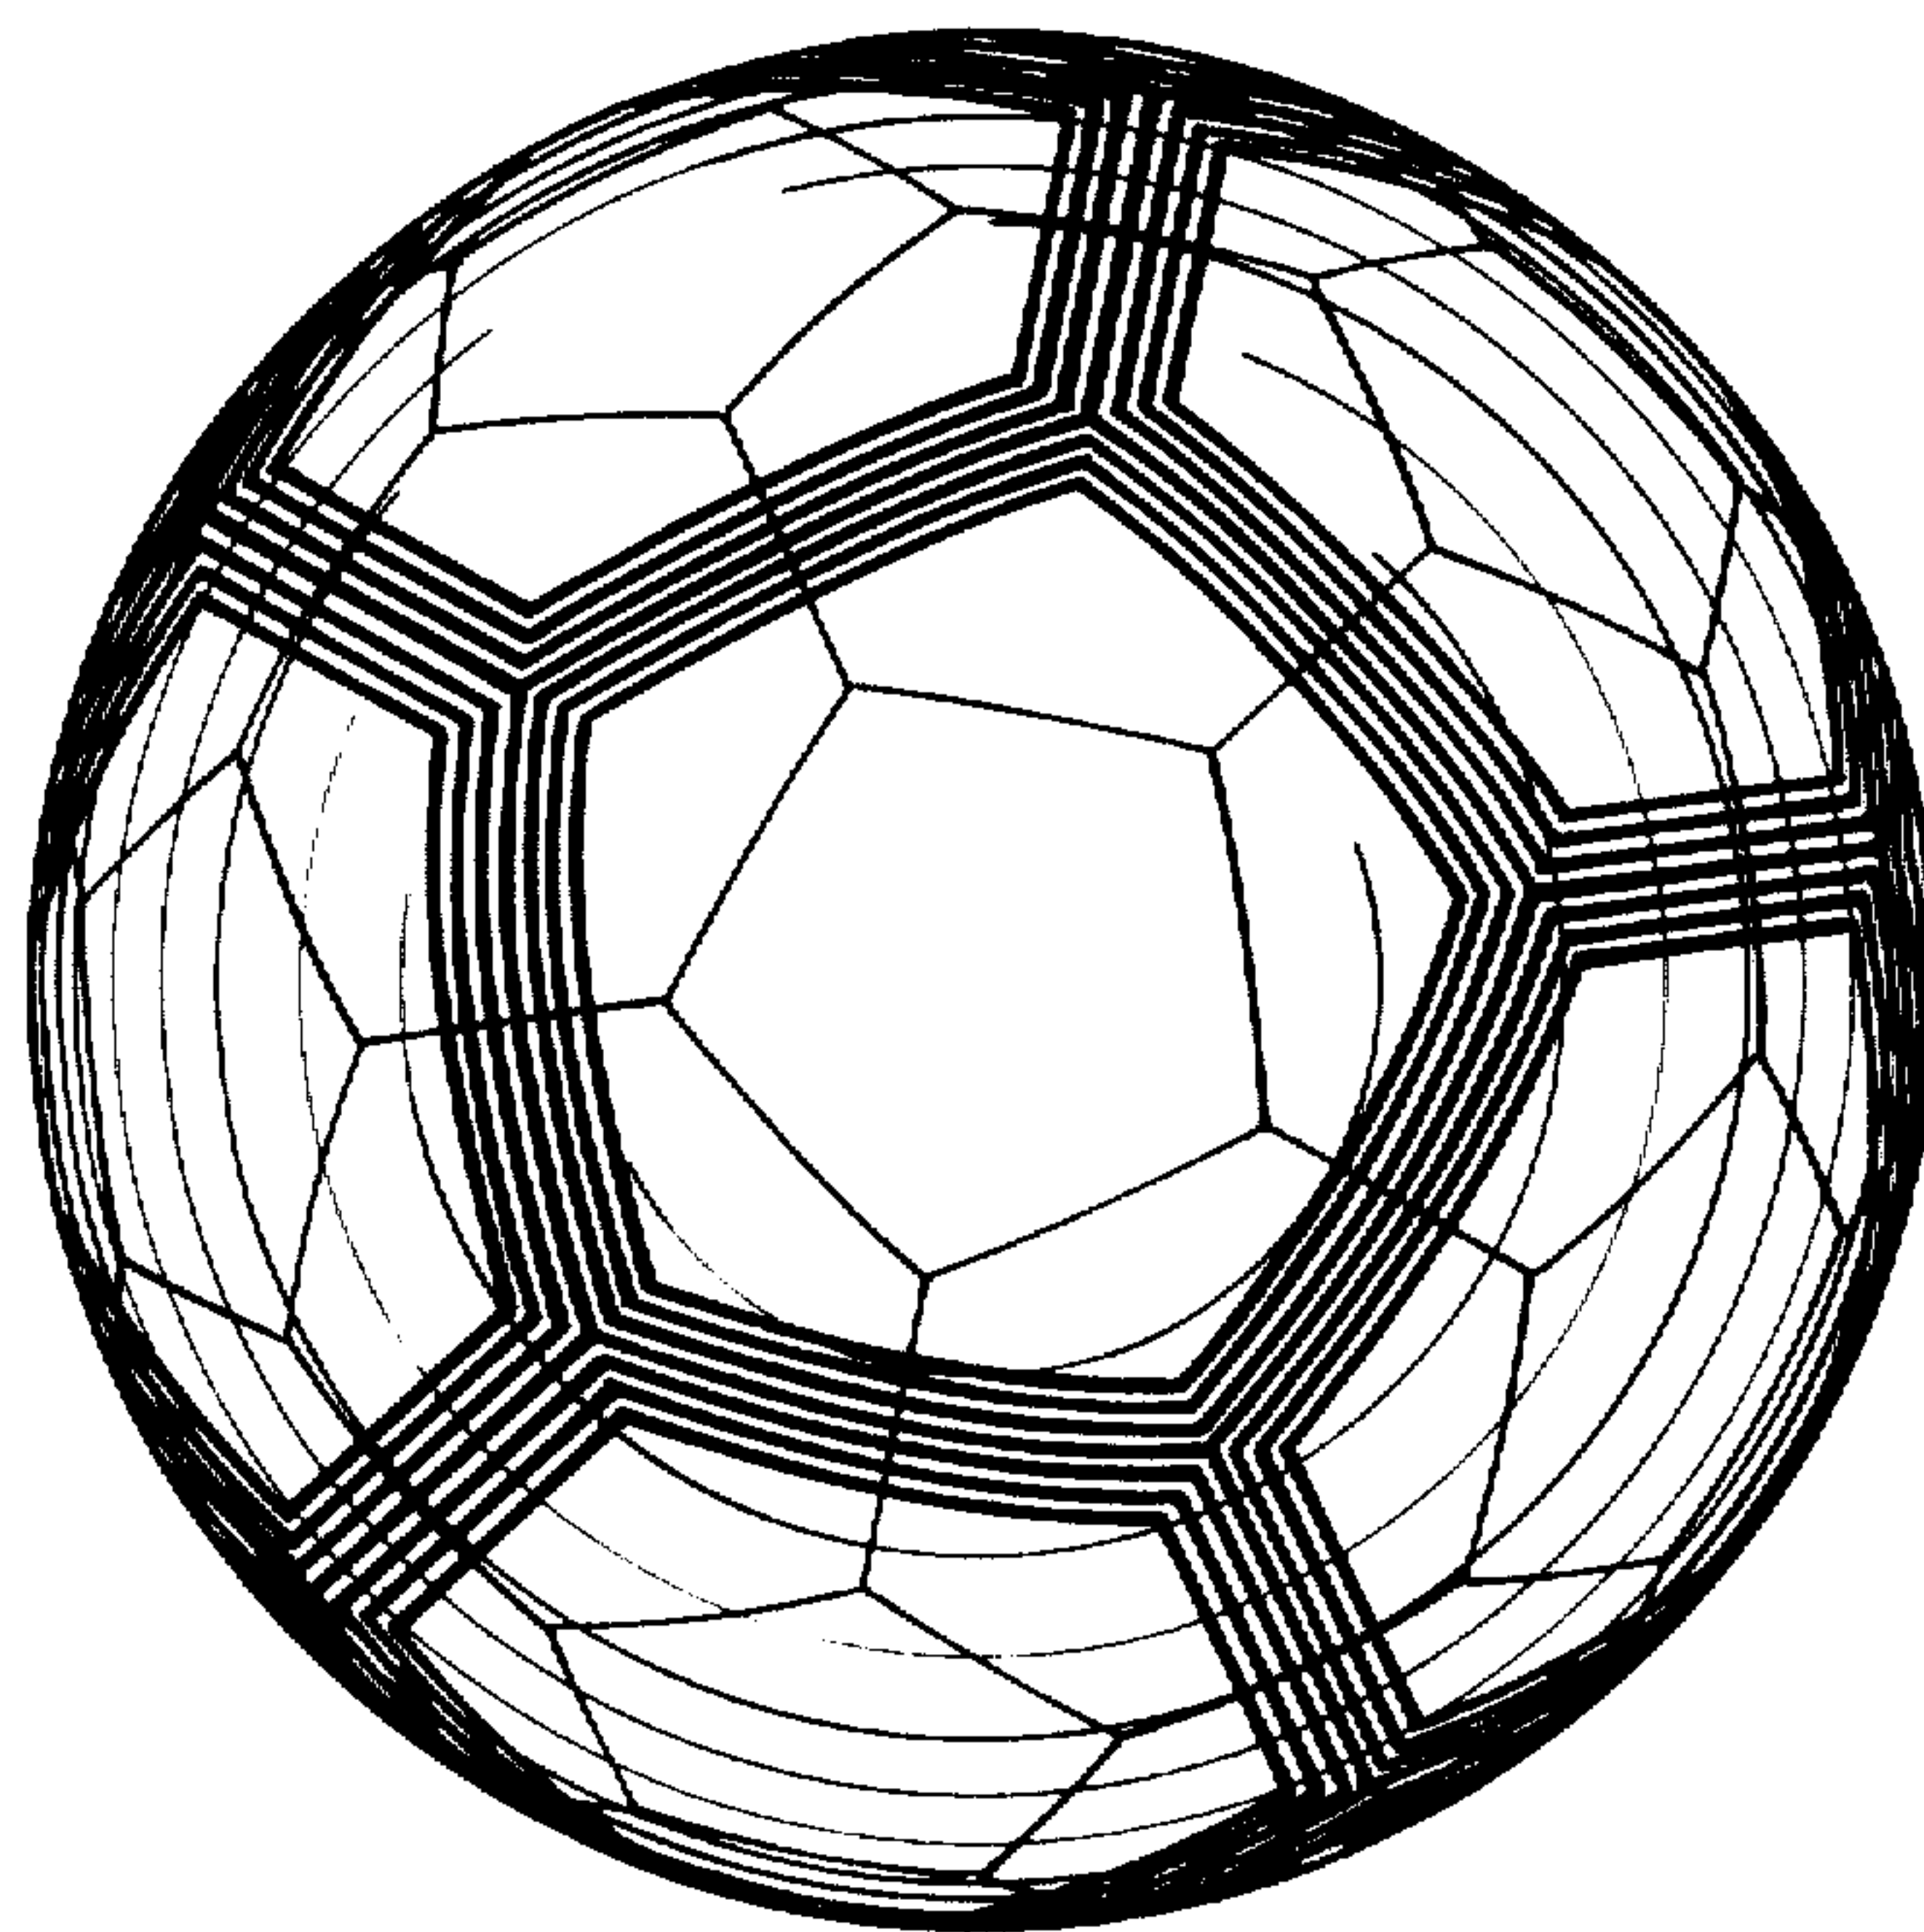

DESCRIPTION

FIG. 1 is a front view of a game ball showing my new design with the rear not shown being an upside mirror image thereof;

FIG. 2 is a right side view thereof with the left side view being a mirror image thereof but reversed from side to side; and

FIG. 3 is a top plan view thereof with the bottom plan view not shown being substantially the same.

The characteristic feature of my design resides in the parallel lines that form a series of pentagons evenly spaced about the surface of the ball.
