CLAIM [57]

The ornamental design for a combined cartridge holder and nozzle assembly, substantially as shown and described.

DESCRIPTION

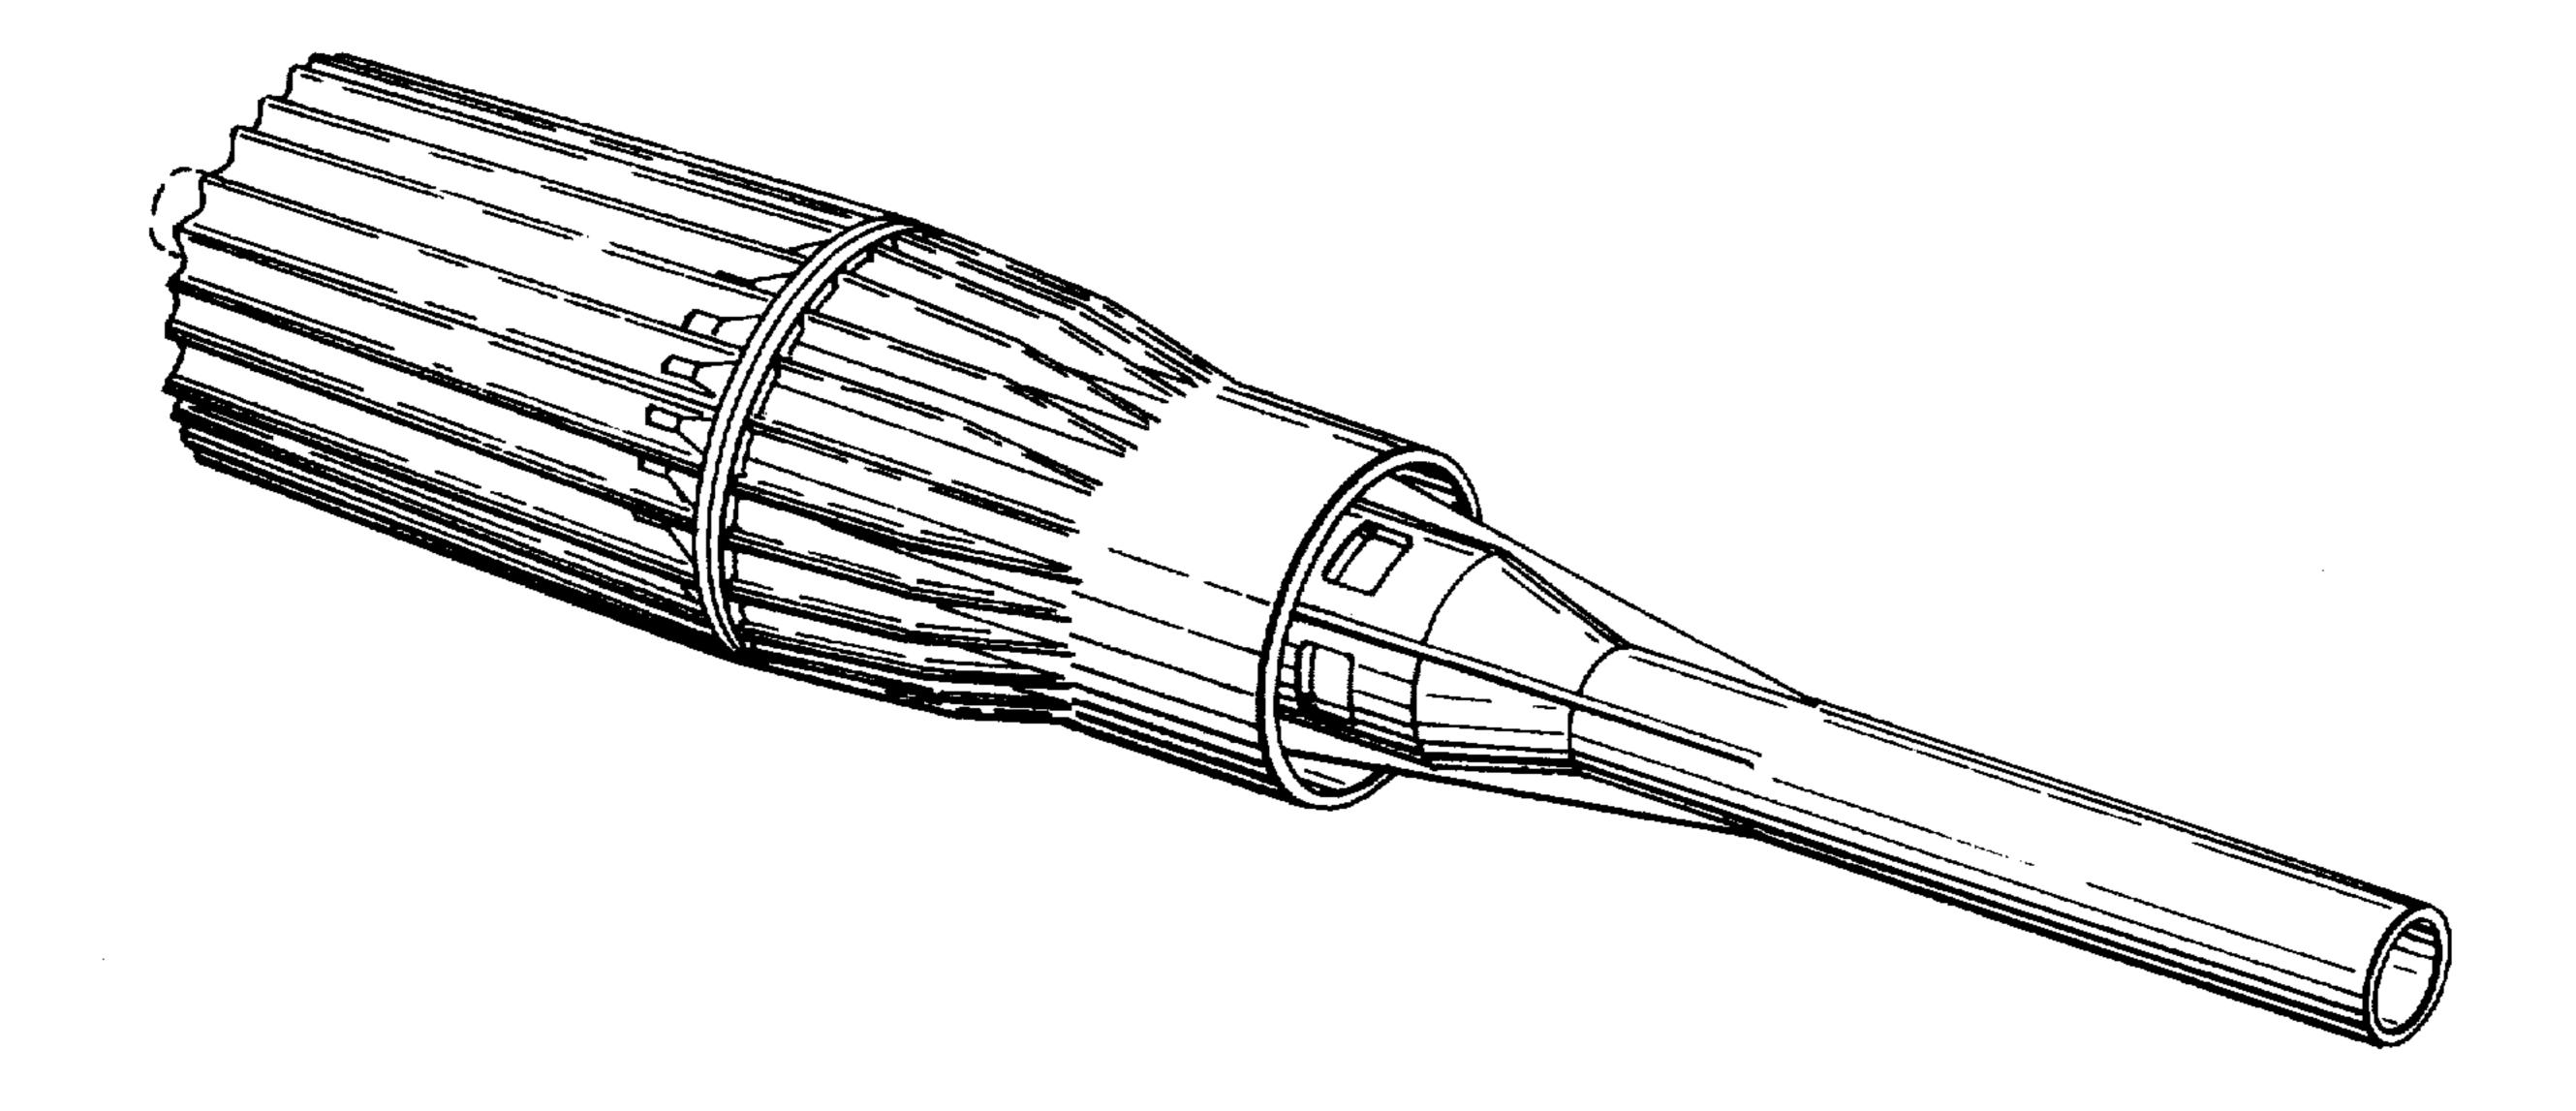

FIG. 1 is a perspective view of the combined cartridge holder and nozzle assembly showing my new design; the broken lines are a conventional inlet hose connection forming no part of the present invention;

FIG. 2 is an elevation view of the cartridge holder-nozzle assembly of FIG. 1;

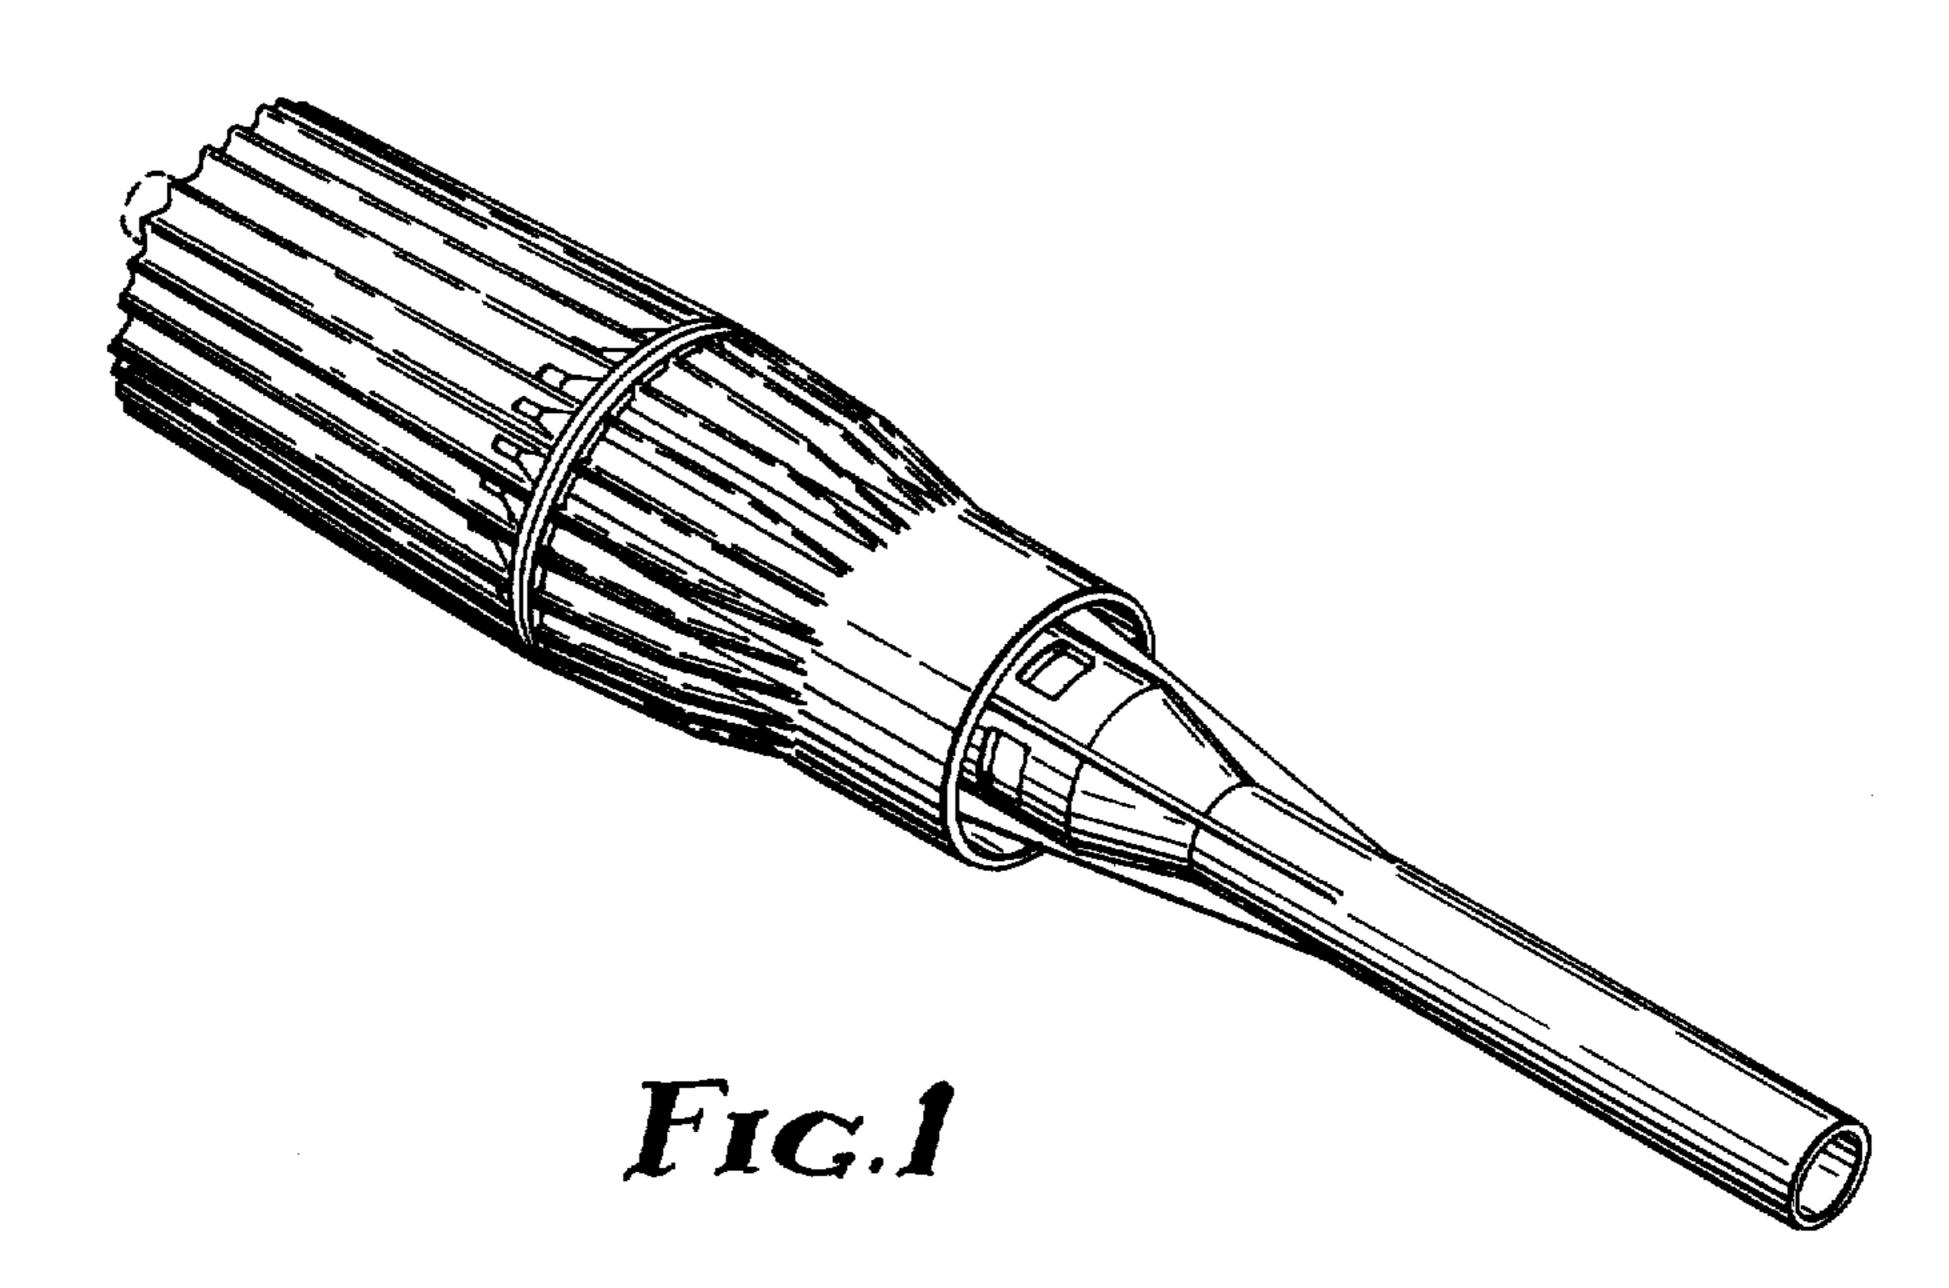

FIG. 3 is an elevation view of the cartridge holder-nozzle assembly of FIG. 1, rotated one-eighth turn about its central axis from the position shown in FIG. 2;

FIG. 4 is an inlet end view of the cartridge holder-nozzle assembly of FIG. 1; the broken line represents a conventional hose connection forming no part of the present invention; and

FIG. 5 is an outlet end view of the cartridge holder-nozzle assembly of FIG. 1.
