[57] **CLAIM**

The ornamental design for a combined leg and mounting member unit for a pedestal desk or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a combined leg and mounting member unit for a pedestal desk or similar article showing my design; FIG. 2 is a view in front elevation; FIG. 3 is an elevational view showing one of the two identical ends on an enlarged scale; FIG. 4 is a top plan view; and FIG. 5 is a front perspective view of a modified form of the combined leg and mounting member unit for a pedestal desk or similar article shown in FIG. 1. The broken lines shown in the drawing are for illustrative purposes only. The drawings comprise phantom representations of various furniture components for the purpose of illustrating the environment in which my design can be used. Specifically, the furniture components shown in FIGS. 1-5 include cabinets, desk tops, pedestal bases and connecting brackets. The structure of the furniture components shown in broken lines is not part of the design sought to be patented.
