[57] CLAIM

The ornamental design for a duck decoy stabilizer for use in stormy weather, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a duck decoy stabilizer for use in stormy weather, showing my new design; FIG. 2 is an elevation of one side, the opposite side being a mirror image thereof; FIG. 3 is a front elevation; FIG. 4 is a rear elevation; FIG. 5 is a bottom plan, the top plan being substantially a mirror image thereof; and, FIG. 6 is a median, vertical, longitudinal section, showing in broken line, and forming no part of the design, the outline of a duck decoy mounted on a hollow longitudinal base from which downwardly projects a pair of machine screw heads spaced to engage the keyhole slots in the stabilizer.
