CLAIM

The ornamental design for a control booth, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a control booth showing the front and left side of my new design; FIG. 2 is a left side elevational view thereof, the right side being a mirror image of the left side shown;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof on a reduced scale; and FIG. 5 is a bottom plan view thereof on a reduced scale.
