[57] CLAIM

The ornamental design for a face plate and controls for an aeronautical radio navigation device, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a face plate and controls for an aeronautical radio navigation device showing our new design;

FIG. 2 is a right side elevational view thereof, the left side being a mirror image thereto;

FIG. 3 is a top plan view thereof.

The broken line disclosure of the rear casing in FIGS. 1 and 3 is environmental only, and forms no part of the claimed design.
