[57] CLAIM

The ornamental design for log holder, as shown and described.

DESCRIPTION

The single FIGURE is a perspective view of a log holder, showing my new design.

The side and end of the log holder which are not shown are identical to the side and end which are shown. The bottom surface of the log holder is substantially planar and unornamented. The mesh-like pattern is understood to repeat uniformly and continuously across the entire surface of the log holder.
