[57] CLAIM

The ornamental design for a compact fluorescent lamp unit, as shown and described.

DESCRIPTION

FIG. 1 is a side elevational view of a compact fluorescent lamp unit embodying our new design; FIGS. 2 and 3 are top and bottom plan views, respectively, thereof; FIG. 4 is a side elevational view of a second embodiment of our new design wherein the fluorescent lamp unit is terminated by a bayonet-type base member; FIGS. 5 and 6 are top and bottom plan views, respectively, of the second embodiment; FIG. 7 is a side elevational view of a third embodiment of our new design; and FIGS. 8 and 9 are top and bottom plan views, respectively, of the third embodiment; The sides of the cover components that comprise the top portions of the various embodiments of our new design and are not shown in the drawing are identical to those which are shown in the elevational views of the respective embodiments.
